Program Overview

The Perspectives in Pediatrics conference will highlight hot topics in the care of the pediatric and adolescent patients, including:

- Pediatric trauma
- Dysautonomia
- Inpatient radiology
- Pediatric ethics
- Tubes, lines & drains

Invitees

Practitioners and healthcare professionals are invited to join us to learn the latest developments in the care of pediatric patients both within and outside of the hospital setting. This includes nurses, physicians, nurse practitioners, physician assistants, social workers, case managers, child life specialists and other members of the interprofessional team.

Objectives

- Serve as an educational resource for southwest Michigan's regional healthcare partners
- Demonstrate understanding of evidence-based medicine and clinical practice guidelines in pediatric medicine
- Improve the care of the pediatric patient population in the region by increasing the ability of providers to diagnose and manage patients in all areas and specialties in pediatrics
- Increase implementation of evidence-based pediatric treatment protocols to improve pediatric patient outcomes
