ABOUT ADA CAMP MONTANA

The American Diabetes Association has been providing camps to meet the needs of families and children with diabetes in Montana since 1970. Originally called Camp Diamont, the camp has gone through various transitions over the years. In 2013, the camp was renamed to Camp Montana and was extended to a full week. While the primary objective of camp is to provide a safe, fun, traditional experience, attention to the medical needs of each camper is always a priority. Each camper has the opportunity to learn and practice valuable diabetes self-management techniques under medical supervision.

CARE AT CAMP

Our first priority is the physical and medical safety of your child while they enjoy a traditional camp experience. It is not perfecting blood sugar management. Our staff includes:

- Physicians, nurses, and other health care providers who provide round-the-clock medical supervision.
- Registered dietitians who plan meals and snacks, and manage all special dietary needs.
- Program staff trained to deliver fun, safe, and supervised recreational activities and sports.
- Counselors trained to recognize specific diabetes care needs and help kids adapt to the Camp environment.

The American Diabetes Association makes every attempt to accommodate medical and/or emotional needs of campers. However, if we can not meet your child’s needs, the American Diabetes Association reserves the right to deny admission to Camp and we will refund your deposit.

APPLYING FOR CAMP IS QUICK AND EASY!

Completed applications are reviewed on a first come, first served basis. Incomplete applications or those without deposits will be returned. If you do not hear back in a few weeks, contact Emily Fay at 888-DIABETES ext. 7015.

PROGRAM

Situated in beautiful south-central Montana in the heart of the Custer National Forest, Camp Montana provides a great opportunity for kids with diabetes to connect with other kids who are just like them. We strive to provide a traditional camp experience in an appropriately supervised environment that allows kids to have fun while parents know their child is being well cared for. Our staff is committed to helping each child learn age-appropriate self-management skills at their own pace.
