

Announcing the 2016 Leadership Academy Class

We are thrilled to announce NCNA's sixth Leadership Academy, which empowers nurses to become better skilled as communicators and advocates in professional, civic, and community arenas.

More than 50 NCNA members have graduated from the Academy since it began in 2012, and it continues to be one of our strongest programs.

For 2016, we have made a couple small, but significant, changes that will make the Leadership Academy even better. The class size has expanded to 20 in order to welcome members of the North Carolina Association of Nurse Anesthetists (NCANA).

This partnership will help the program financially, while bolstering our collaborative efforts with other nursing organizations, which is one of NCNA's strategic goals.
