**Purpose:** To increase direct care nurses' ability to successfully develop and implement RN-driven QI, EBP, and Research projects.

*\*Special opportunity for project consultation will be available\**

### **Objectives:**

1. Synthesize processes for developing Research, EBP, & QI projects.
2. Summarize criteria for successful implementation of Research, EBP, & QI.
3. Identify solutions for barriers related to project implementation.

Approved for 4.0 contact hours.

The University of Kansas Hospital Education and Development is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Organized exclusively for scientific and educational purposes.  
We're here to support direct care nursing in creating, developing and investigating practice issues for the purpose of the science of nursing practice.

## Conference Information

- **For successful completion of this program:** To receive credit, you must attend this program in its entirety and complete the program evaluation.
- **There are no conflicts of interest:** The speakers and the planning committee have denied conflicts of interest regarding this subject matter.
