

The **Academy of Oncology Nurse & Patient Navigators (AONN+)** is the largest national specialty organization dedicated to improving patient care and quality of life by defining, enhancing, and promoting the role of oncology nurse and patient navigators. Our organization of over 8,900 members was founded in May 2009 to provide a network for all professionals involved and interested in patient navigation and survivorship care services to better manage the complexities of the cancer care treatment continuum for their patients.

We view our organization as one consisting of “professional patient advocates” and, to that end, we support and serve our members!

AONN+ Mid-year Conference: May 16-19, 2024 in Atlanta, Georgia
