# Faculty Biography

## **Madelyn Christie, RN BSN**

Bachelor of Arts, Business Administration  
Birmingham Southern College

Bachelor of Science, Nursing  
University of Alabama at Birmingham

With 17 years of experience as an operating room nurse specializing in orthopedics and spine, Madelyn has cultivated a deep expertise in patient care and surgical support. Her nursing career began in the operating room where she developed a passion for improving surgical outcomes and patient experiences.

Transitioning into the medical device industry, Madelyn played a key role in the launch of innovative pharmaceutical products and managed FDA clinical trials for implantable devices. For 5 years she served as a clinical specialist at BD in Surgical Solutions where she provided critical support and education to healthcare professionals, enhancing standardization of practices and improving patient outcomes.

Madelyn is currently a Medical Science Liaison supporting BioSurgery and Infection Prevention products.
