

CURRICULUM VITAE

Kimberly S. Hodge, Ph.D., RN, ACNS-BC, CCRN (Alumnus)

Contact Information

Phone: 317-625-3312

Email: kshodge@gmail.com

Address: 15265 N 100 E. Summitville, IN 46070

Education

Doctor of Philosophy 08/2020
Indiana University, Indianapolis, IN
Major: Nursing Health Systems
Minor: Educational Psychology

Master of Science in Nursing 05/2008
Indiana University, Indianapolis, IN
Major: Adult Health Clinical Nurse Specialist
Concentration: Adult Critical Care

Associate of Science in Nursing 12/1985
Indiana University, Indianapolis, IN

Professional Experience

IU Health Fishers, Clinical Nurse Specialist 2025-current

Key Responsibilities

- Diagnose, treat, and oversee the nursing management of adult, acute and critically ill patients with sepsis, shock, multisystem disorders, myocardial infarctions, trauma, etc. located in the Intensive/Progressive Care Unit, Emergency Department, Cardiac Catheterization/Interventional Radiology Unit, and Short Stay Unit
- Provide expertise and support nurses caring for adult patients at the bedside.
- Design and implement nursing and physician evidence-based practice, quality improvement, and performance improvement.
- Ensure the use of best practices and evidence-based care to achieve the best possible patient outcomes.
- Actively participate in the Nursing Research Committee and conducting independent research.
- Co-lead the Medical Alert Committee.
- Adult Critical Care subject matter expert, content developer, educator
- Introduce and monitor the utility of new equipment, procedures, and treatments in critical care.

- Participate in committees aimed to reduce or eliminate patient harm, including a focus on nurse-sensitive indicators.
- Lead and participate in other initiatives to optimize patient outcomes.

Barnes-Jewish Hospital, Research Scientist

2024-2025

Key Responsibilities

- *Process Improvement:* Consult with teams to identify and implement data-driven process improvements. Mentor staff in applying Lean and Six Sigma methods, while guiding training and continuous evaluation of outcomes.
- *Quality Improvement:* Advise on quality projects aimed at enhancing safety and care standards. Mentor professionals in QI initiatives and data analysis, fostering a culture of safety and improvement.
- *Evidence-Based Practice:* Guide teams in integrating evidence-based practice into care. Mentor staff in applying research to clinical decisions, and lead/advise EBP projects to ensure up-to-date, effective care protocols.
- *Research:* Consult on research design and compliance. Mentor staff and students through the research process. Serve as PI or co-PI on studies, oversee execution, secure grants, and translate findings into practice.
- *Current Research Endeavors:* Effect of Continuous HR and RR Monitoring on Reducing Unplanned ICU Transfers (wearables) and Registered Nurses' Perceptions of Artificial Intelligence Integration in Healthcare

Ascension St. Vincent Anderson, Registered Nurse, Critical Care

2024-2024

Key Responsibilities

- Provide expert level, comprehensive direct nursing care to adult patients who require critical and progressive level care.

Honest Medical Group, Director, Field Management

2022-2024

Key Responsibilities

- *Clinical Operations:* inform the design of the clinical model; create and execute operationalization of the clinical model; scale the clinical model to meet key performance indicators for value-based care partnerships (e.g., ACO REACH, Medicare Advantage)
- *Education:* collaborate and coordinate the development and launch of internal and external initial and ongoing education supporting onboarding and professional development of interdisciplinary team members (e.g., nurse practitioner, registered nurse, care coordinator, social work, etc.); develop and deliver components of Honest's clinical model including key performance indicators, patient engagement, etc. including provider home visits, chronic and complex care management, and transitional care management; develop and deliver/co-deliver coding education regarding evaluation and management and care management (transitional, chronic, principal, behavioral)

- *Technology Implementation and Adoption*: lead the education and operationalization of the selected population health/care management product and inform the operationalization of a certified electronic health record
- *Solution Design*: identify and solve market operational and clinical model implementation challenges
- *Coding/Billing*: certified coder supervision, support the development of internal and external billing guidance in collaboration with compliance and legal

Veta Health, Head of Clinical Services

2021-2022

Key Responsibilities

- *Clinical Services*: design, execute and scale a clinical services team to meet key performance indicators for clients engaged in connected care
- *Sales*: clinical support for prospective and current client meetings
- *Education*: develop and launch internal and external initial and ongoing education supporting onboarding and professional development of Registered Nurse and support team members (e.g., Licensed Practical/Vocational Nurses, Medical Assistants, Nursing Assistants, etc.)
- *Education*: develop and deliver components of connected care, including remote physiological monitoring, chronic and complex chronic care management, principal care management, transitional care management education, and hospital at home
- *Education*: develop and deliver client onboarding/training on the Veta Health platform (Prosper Care), patient app (Prosper Patient), and remote monitoring devices
- *Implementation*: support the preparation and implementation of new clients
- *Coding/Billing*: support the development and delivery external billing education in collaboration with compliance and legal

Aledade, Inc., Director, Clinical Innovation – Practice Activation

2019-2021

Key Responsibilities

- *Clinical innovation*: pilot identification and testing, both internal and in partnership with external vendors (e.g., clinical performance specialist, clinical coaching, virtual blood pressure clinic/self-monitored blood pressure, home health 2.0 falls reduction, continuous glucose monitoring, remote physiological monitoring, etc.)
- *Network learning*: serve as a subject matter expert and content developer for grand rounds (CME and CNE), field team training, practice manager training, complex case management rounds, and special (ad hoc) education (e.g., Advanced Care Planning for the Non-Physician)
- *Director (dotted line)* for five (5) Registered Nurses/Advanced Practice Registered Nurses performing in the role of clinical/quality performance specialists and collaborating directly with primary care providers in both private and community health center practices to achieve blood pressure control and reduce hypertension disparity.

- *Director (dotted line)* for one (1) Registered Nurse who manages a group of care managers to improve clinical outcomes and quality plus reduce the overall total cost of care in a designated population.
- *Facilitating/leading* Aledade Application (App) enhancements aimed at optimizing end-user experience, interaction, and achievement of outcomes, particularly as it applies to Transitions of Care/care management initiatives/activities as well as blood pressure control
- *Developing, refining, and supporting* our field team and primary care practices in the execution of care management activities and/or programs (transitional care management, chronic care management, and principal care management), severe blood pressure management and disparity reduction, and prevention of acute care events (e.g., emergency department visits, admissions, readmissions)
- *Subject matter expert* in clinical leadership, clinical care management, care management coding and billing, and clinical management of clinical conditions (e.g., hypertension, heart failure, chronic obstructive pulmonary disease, chronic kidney disease, type II diabetes, etc.)
- *Builds or participates* in the building of evidence-based practice recommendations (e.g., blood pressure management)
- *COVID-19 Public Health Emergency:* development and continued update of the Aledade Telehealth Toolkit and subject matter expert for a Stay Well at Home Toolkit

Primaria Health, LLC, Senior Director, Care Navigation

2018-2019

Key Responsibilities

- Managed the overall clinical, quality, and cost outcomes of the high-risk care management program including patients attributed to multiple payer contracts, including but not limited to, Medicare (Next Generation ACO, MSSP), Anthem (Commercial and Medicare Advantage), Aetna (Commercial and Medicare Advantage), and UnitedHealthCare (Commercial and Medicare Advantage). Care management responsibilities included care managers in health system (employed) practices, independently owned practices, and Federally Qualified Health Centers (FQHCs).
- Responsible for a team of approximately 50, including clinical managers and educators, Registered Nurses, Licensed Practical Nurses, Certified/Registered Medical Assistants, and Respiratory Therapists.
- Restructured the care management leadership team to downsize/consolidate managers and reallocated staff to new, supporting roles (e.g., an educator) to improve operational efficiency within budgetary constraints without compromising quality or safety.
- Developed, refined, executed, and measured the impact of personnel and program changes making modifications as necessary.
- *Team/Corporate learning:* serve as a subject matter expert and content developer for local and field training, provider clinic training, and special (ad hoc) education (e.g., Advanced Care Planning, Transitional Care Management)

- Strong contributor/leader for corporate care navigation team composition, initiatives (e.g., Care Management education and competencies, Medicare 101 for Care Managers).

naviHealth, Inc., Director, Bundled Payment for Care Improvement

2016-2018

Key Responsibilities

- 2017-2018 West Coast Field Team Member
 - Bundled Payment for Care Improvement (BPCI) program clinical subject matter expert, content developer, internal/external educator
 - Led the analysis, summary, and recommendations for readmission management across West Coast partnerships
 - Designed and executed analysis and action planning for top readmission diagnoses, including sepsis, heart failure, chronic obstructive pulmonary disease, and chronic kidney disease.
 - Reported to the Market President and participated in all board meetings (local and corporate), responsible for readmission and clinical data presentations.
 - Liaison to headquarters for clinical model feedback and improvement initiatives
 - Facilitated and contributed to naviHealth Care Management and Post-Acute Care Application enhancements aimed at optimizing end-user experience, interaction, and achievement of outcomes, particularly as it applies to first post-acute care placement and recovery time in a skilled nursing facility (SNF)
- 2016-2017 Headquarters Team Member
 - Bundled Payment for Care Improvement (BPCI) program clinical subject matter expert, content developer, internal/external educator
 - Managed the overall clinical, quality, and cost outcomes of the high-risk care management program aimed to prevent unnecessary 90-day readmissions achieving a cost-avoidance of over five (5) million dollars in my first year.
 - Responsible for a team of approximately 50, including Registered Nurses, Licensed Practical Nurses, Certified/Registered Medical Assistants, Emergency Medical Technicians, and Respiratory Therapists providing high-risk care management throughout the United States.
 - In collaboration with health system partners, revised and updated our clinical model to support changing landscape of clinical field team roles and responsibilities.
 - Facilitated/led the Care Management and Post-Acute Care Application enhancements aimed at optimizing end-user experience, interaction, and achievement of outcomes, particularly as it applies to first post-acute care placement and recovery time in a skilled nursing facility (SNF)
 - Led the revision of data analysis, summary, and recommendations for readmission management across all partnerships.

- Developed and provided education on preventing readmissions for patients discharged with sepsis, heart failure, chronic obstructive pulmonary disease, and chronic kidney failure.

Franciscan Health

Key Responsibilities

- Director, Case Management (Ambulatory) 2012-2016
 - Developed, executed, and maintained quality, safety, clinical, and cost accountability of the care management program for the Central Indiana Market of the Franciscan ACO, including creating and reporting on key performance indicators. Programs or networks launched and sustained include:
 - Transitional Care Management
 - Central to Embedded Care Management
 - End-Stage Renal Continuing Care Network
 - Behavioral Health Continuing Care Network
 - Post-Acute Care Continuing Care Network
 - Managed the care management program, which included patients attributed to multiple payer contracts, including but not limited to, Medicare (Pioneer ACO, MSSP), Anthem (Commercial and Medicare Advantage), Aetna (Commercial and Medicare Advantage), and UnitedHealthCare (Commercial and Medicare Advantage). Care management oversight included care managers in health system (employed) practices, independently owned practices, and Federally Qualified Health Centers (FQHCs).
 - Provided education, mentoring, and consultative services as well as participated as an operations board member of partner health systems whose ACOs were co-managed or advised by Franciscan ACO (e.g., Terre Haute Regional Health, Riverview Health, Major Health).
 - In collaboration with Franciscan Physician Network physician informaticist, designed and executed Transitional Care Management and Chronic Care Management documentation and billing in Epic.
 - Led the development and implementation of ambulatory care management scheduling, documentation, workflow, etc. in Epic.
 - *Network learning*: serve as the subject matter expert and content developer for team and system internal and external training, case management rounds, and special (ad hoc) education (e.g., Transitional Care Management, Readmission Prevention)
- Critical Care/Cardiac Clinical Nurse Specialist 2008-2012
 - Diagnosed, treated, and managed adult, critically ill patients with sepsis, shock, multisystem disorders, etc.
 - Provided expertise and supported nurses caring for adult critically ill patients at the bedside.

- Designed and implemented nursing and physician evidence-based practice changes throughout the organization.
- Ensured the use of best practices and evidence-based care to achieve the best possible patient outcomes.
- Initiated and led the Nursing Research Committee.
- Adult Critical Care subject matter expert, content developer, educator
- Introduced and monitored the utility of new equipment, procedures, and treatments in critical care (e.g., esophageal doppler, targeted temperature management, continuous renal replacement therapy).
- Led the Franciscan Alliance sepsis initiative.
- Co-leader of the Indianapolis Patient Safety Coalition sepsis and targeted temperature management initiatives.
- Precepted master's level clinical nurse specialist, nurse educator, and nurse leader students.

Indiana Wesleyan University, Adjunct Faculty

2008-2011

Key Responsibilities

- Taught/facilitated RN-BSN courses (e.g., statistics, alternative and complementary treatments)

St. Vincent Seton Specialty Hospital, Clinical Nurse Specialist

2008-2008

Key Responsibilities

- Diagnosed, treated, and managed adult, long-term critically ill patients with sepsis, shock, multisystem disorders, etc.
- Provided expertise and supported nurses caring for adult long-term critically ill patients at the bedside
- Guided nursing and physician evidence-based practice changes throughout the organization
- Ensured the use of best practices and evidence-based care to achieve the best possible patient outcomes
- Initiated and led the Nursing Education department
- Adult Critical Care and long-term acute care subject matter expert
- Introduced and monitored the utility of new equipment, procedures, and treatments in critical care (e.g., targeted temperature management, continuous renal replacement therapy)
- Precepted master's level clinical nurse specialist students

Indiana University School of Nursing

- *Research Assistant* for Dr. Wendy Miller (epilepsy) 2012-2013
- *Adjunct Faculty* – Clinical Nurse Specialist Program 2011-2016
- *Research Assistant* for Dr. Janice Fulton (CNS course redesign) 2010-2012
- *Research Assistant* for Dr. Janice Buelow (epilepsy) 2007-2008
- *Associate Instructor in Nursing*, Adult Online Critical Care Course 2006-2011
- *Teaching Assistant*, Adult Online Critical Care Course 2005-2006

<ul style="list-style-type: none"> • <i>Guest Expert, Adult Online Critical Care Course</i> 	2001-2011
