Join MaAOHN for a wonderful dinner and professional development seminar.

This is a timely topic with an amazing speaker!

Climate Change - Impacts on Health

Presenter:

Dr. Stephanie M. Chalupka is Professor of Nursing and Coordinator of the Master of Science in Nursing Program at Worcester State University.

Dr. Chalupka has worked for three decades to reduce and prevent harmful exposures and health risks to children and underserved, disproportionately impacted low income, minority, and tribal communities, and support community efforts to build healthy, sustainable green neighborhoods. She was the recipient of the University of Massachusetts President's Award for Public Service in recognition of her work with refugee and immigrant populations.

This is a great bargain - dinner, networking, and one contact hour. The cash bar doesn't hurt!
