On March 18th, nursing leaders were invited to the White House for a round-table discussion. Key issues affecting workplace safety and staffing were discussed. Please note that the round-table started after the cameras stopped filming. Key points to take away:

- An increase in TeleHealth initiatives
- A plan to increase supply of N95 masks to 500 million

Please be aware that your New Hampshire Nurses Association is committed to giving all nursing specialties a voice. We encompass all nursing specialties and will continue to communicate with all of you on a regular basis on what is happening in our state and at the national level. To that end, we have created a COVID-19 resource page that we will update daily. **NHNA COVID-19 Resource Pages**

We are pleased and proud that many nursing leaders were heard at the white house. Those that attended the round table were:

1. Dr. Debbie Hatmaker CNO, ANA Enterprise
2. Dr. Suzanne Miyamoto CNO, American Academy of Nursing
3. Dave Herbert, JD CEO American Association of Nurse Practitioners
4. Deborah E. Trautman CEO, American Association of Colleges of Nursing
5. Theresa Davis Board of Directors, American Association of Critical Care Nurses
6. Ron Kraus President, Emergency Nurses Association
7. Robyn Begley CNO American Hospital Association

**Coming Soon**
NHNA needs to know:

- What issues are the most pressing to you and your practice
- How can we HELP YOU during these stressful times.

A SURVEY WILL BE COMING OUT SHORTLY.
PLEASE PARTICIPATE
