

Relentless hunters
of savings:

Case study

Claims Editing

Problem

Regional Health Plan with 250k members sought a second pass post adjudication, pre-payment Claims Editing solution to deliver incremental, prospective savings and to help reduce their recovery efforts.

Solution

Zelis Claims Editing incorporates robust technology which is customized to provider agreements, medical and payment policies and uses historical patient and provider data.

Results

Incremental annualized net savings of \$8,735,520.
Less than 1% of the recommended savings was reversed.
