

Connecting People to Jenkins

20th July 2017

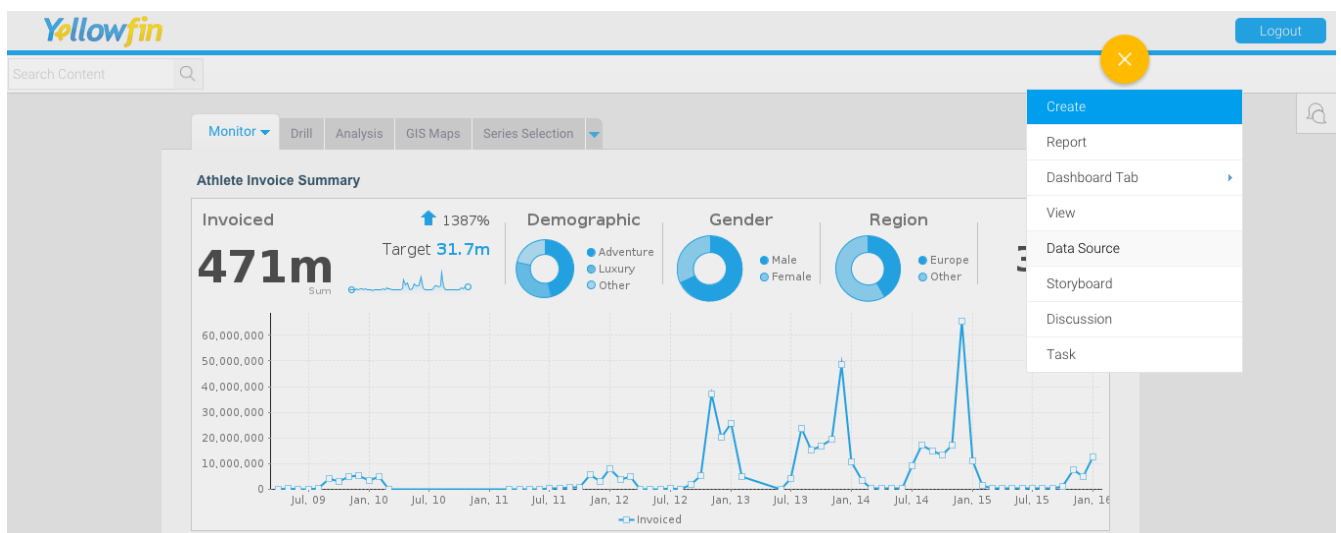

Yellowfin makes connecting to Jenkins and sharing insights easy:

1. Install your connector
2. Connect to your account

Install your Connector

Add a New Data Source

- a) Log into your Yellowfin Server
(The user must have permissions to add a new Data Source)
- b) Click **Create** and select **Data Source**

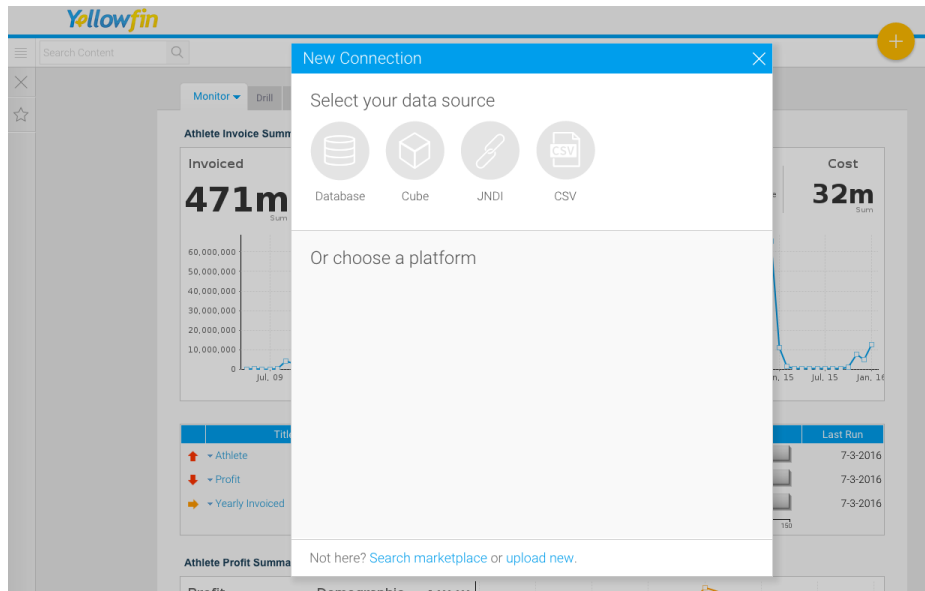

Upload new connector

If you can see the icon for the Jenkins Connector at the **New Connection** step, then you can skip to **Connect to your Jenkins account**. Otherwise you will need to select the **Not here?** link.

Search Marketplace - download your connector from the Yellowfin Marketplace

Upload New - upload your connector to your instance of Yellowfin

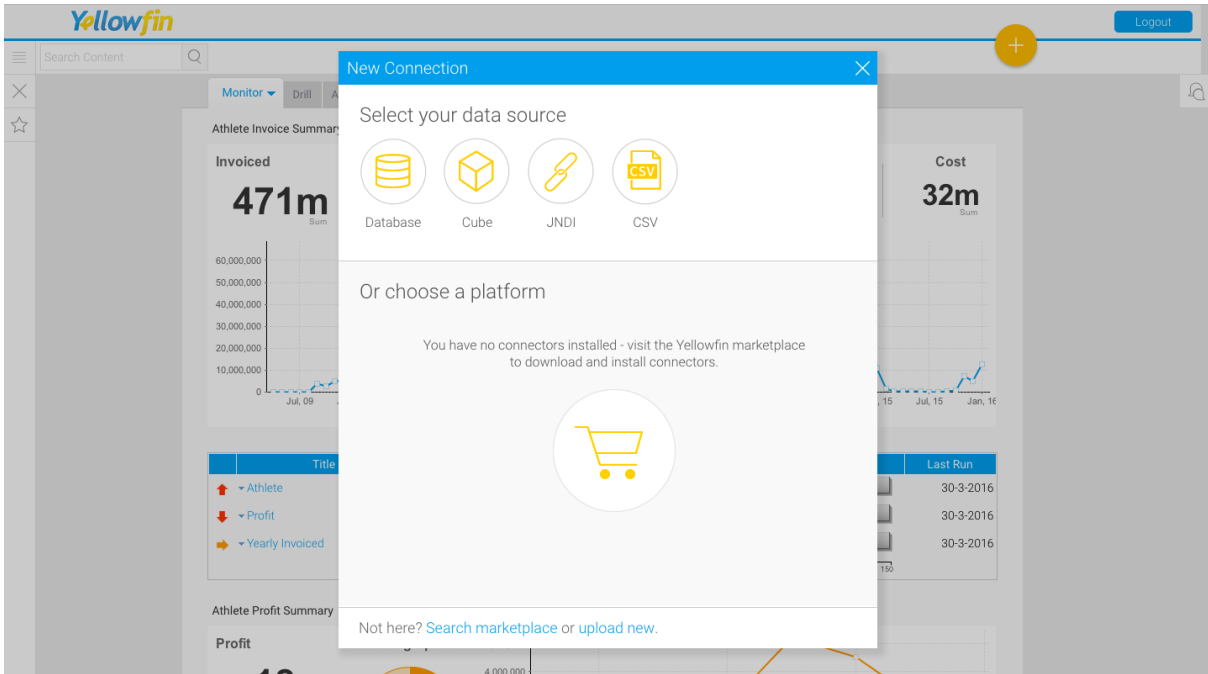

Download the connector from the Yellowfin Marketplace

- c) Go to the [Yellowfin Marketplace](#)
- d) Download the **Jenkins Connector** (it's free!)

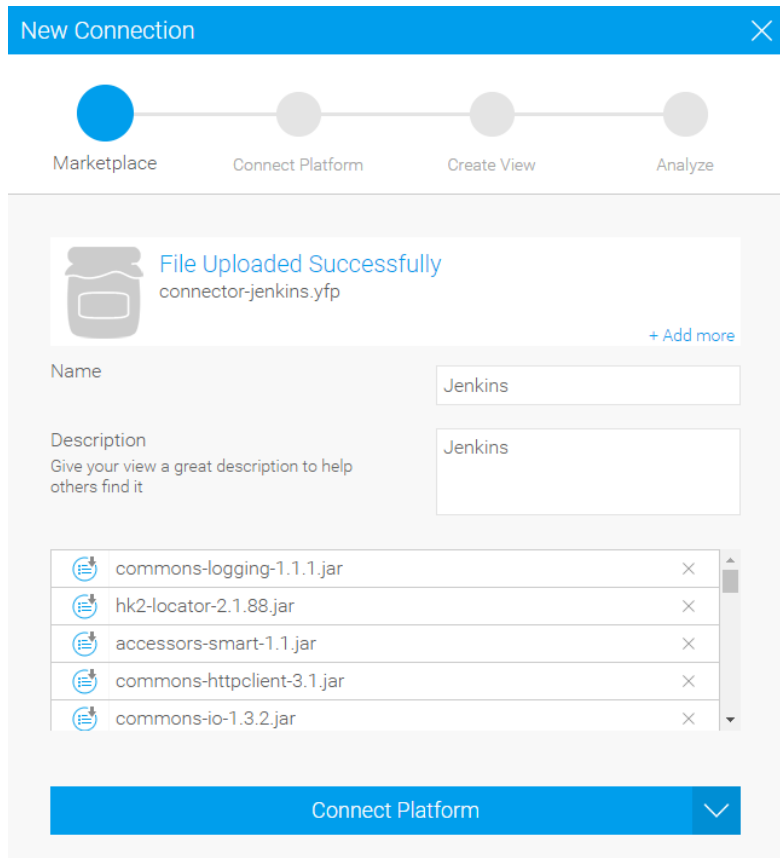

Upload your new Connector

a) Click **Upload New**.

b) Give your connector a **name** and **description**.

c) Click **Connect Platform**.

Your connector will now be available under your **Data Source's** list.

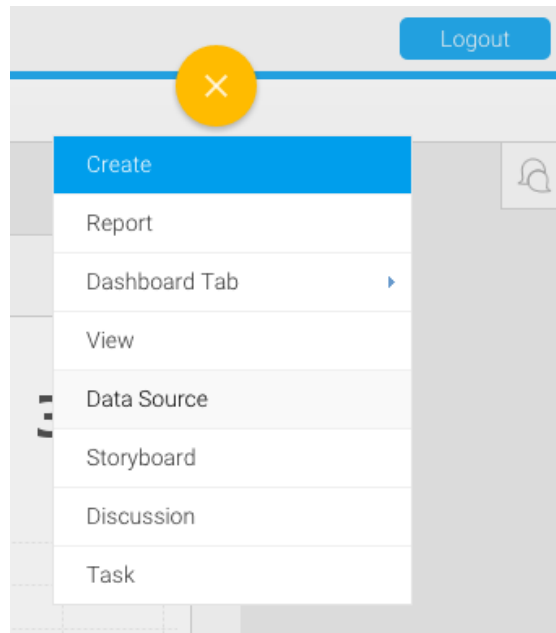

Connect to your Account

Once your Jenkins Connector is installed, you can use it to connect to your Jenkins account.

Create a new Data Source

- a) Click **Create** and select **Data Source**.

(If you have just installed your connector, then you will be immediately taken to the next step)

- b) Select **Jenkins**

Name your Connection and Enter your Account Details

- c) Give your connector a **name** and **description**.
- d) Select the Storage Mechanism (Live or Cached)
- e) Provide the endpoint of your Jenkins instance
- f) Fill in your Jenkins User ID and Password
- g) Enter jobs that you wish to track. For multiple entries, separate with commas. Or leave this field blank to track all the jobs.
- h) Click **Launch Pre-Built Content**

The screenshot shows the 'New Connection' dialog box. It features a blue header with a close button. Below the header is a progress bar with three steps: 'Connection Setti...', 'Create View', and 'Analyze'. The main area contains a 'Connection Details' section with a video player showing a 'How To Connect' video. Below the video are fields for 'Video Selector' (set to 'How To Connect'), 'Load Video' (with a 'Load Video' button), 'Storage Mechanism' (with 'Live' selected), 'End URL of Jenkins', 'User ID for Jenkins', 'Password for Jenkins', and 'Filtered Jobs'. At the bottom is a blue button labeled 'Launch Pre-Built Content' with a dropdown arrow.

About Yellowfin

Yellowfin is a global Business Intelligence (BI) and analytics software vendor, passionate about making BI easy. Founded in 2003 in response to the complexity and costs associated with implementing and using traditional BI tools, Yellowfin is a highly intuitive 100 percent Web-based reporting and analytics solution. Yellowfin is a leader in mobile, collaborative and embedded BI, as well as Location Intelligence and data visualization.

Over 10,000 organizations, and more than 2 million end-users across 70 different countries, use Yellowfin every day. For more information, visit www.yellowfinbi.com
