

Universal Glass Protective Screens

The Collection

Today's work environment needs to combine safety and productivity. Artopex new collection of protective glass screens meet these needs with a versatile and quality solution. These universal screens have been designed to adapt to any type of environment where a physical distance between individuals is required. The different screen models can easily be integrated into an existing workstation, reception desk, or a cafeteria table, without compromising the aesthetics of the work environment.

To see more clearly

The glass composition of the protective screen has many advantages:

Durability
Tempered glass is more resistant to impacts and bending stresses.

Cleaning
Glass can be cleaned frequently without damaging the surface and reducing clarity and transparency.

Aesthetics
Glass allows light to pass through and exhibits remarkable quality and timeless elegance.

Eco-responsibility
Glass is a non-toxic material that can be recycled 100% and indefinitely.

Transaction glass protective screen.

Freestanding lateral glass protective screens on adjustable feet with extension and freestanding glass protective screen on casters.

Levelers and adjustable feet allowing a 1 1/2" adjustment

1 workstation 3 applications

The U-shaped protective screens can be installed alternately on shared benching tables to create a safe bubble for each employee. Choose from one of the three models offered, according to the level of protection and the desired style, to compliment your space.

The protective screens are offered in a closed or transaction version, which includes a 4-inch opening under the screen to allow the passage of small objects or documents.

Transaction glass protective screen straight with footing.

Freestanding glass protective screen on casters.
