Cuadro, Geometrical and Sophisticated

Cuadro is the building block for your next design. Use it individually or shape lounge space in three dimensions with 30" geometric cube chairs that are square for design, yet round for comfort, square ottomans and table for linear designs as well as angled tables for non-linear layout possibilities.

Create permanent installations with metal legs or moveable collaborative configurations with casters. The integrated power access ensures constant connection. Choose the possibility of two-tone upholstery and table accent color for design depth and visual impact.
