

# wood veneer

custom capabilities

*Beautifully crafted. Timeless designs.  
Wood furniture as distinctive as you.*

## Smith & Jones International

*We believe in making a great first impression.*

We make office furniture that inspires. Our wood collections are created with the finest craftsmanship and regard for quality. Exacting attention to detail and exquisite hand-matched veneers and solids offer the richness of wood in distinctive designs. Personalized and custom options offer unlimited flexibility in planning your space. Our passion is to provide imaginative solutions that continually integrate technology and furniture in new and inventive ways. Let us create your vision – big or small.

*Designed for you and your space.*

We pride ourselves on our ability to meet your design requirements while being mindful of your project goals. Our team has the expertise to bring together the right mix of materials, functionality and construction details to make your project happen.

We'll anticipate possible challenges and help generate ideas to keep you on track. Detailed quotations, drawings, finish samples and timelines are available with every project. From concept to the final build, we will help you every step of the way.

Whether it's contemporary, traditional or something in between, we can achieve the design aesthetic that fits your vision. Custom requests are welcomed and accommodated usually within standard lead times.

*Personalize it. Choose from a palette that offers endless possibilities.*

Our standard veneers and hardwood solids are hand-selected from sustainable, managed forests and are chosen to ensure the highest quality and greatest consistency. Choose from a broad spectrum of wood species to reflect your organization's character while respecting your bottom line. Additional veneers can be sourced to suit your office décor or personal style.

We'll make it your way. Select the wood species, the type of veneer cut and the lay-up pattern. Our skilled artisans will perfectly match and sequence the veneer to create a beautiful result every time.

*Individually crafted for a beautiful finish.*

To offer the ultimate in beauty and protection, we finish all products in state-of-the-art Catalyzed Conversion Varnish. This allows for the best combination of durability and flexibility while providing a clarity that enhances the depth and character of the wood.

Each piece is individually assembled, sanded, stained and finished, ensuring tight factory-assembled joints, uniform color and finish application. Using a 360° technique, finishes are applied to the backs of all furniture pieces with the same care that is given to the sides and fronts.

*Let us bring your vision to life.*

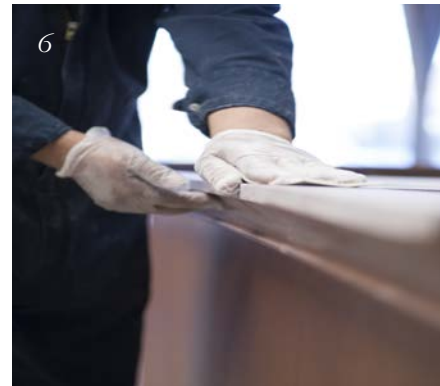

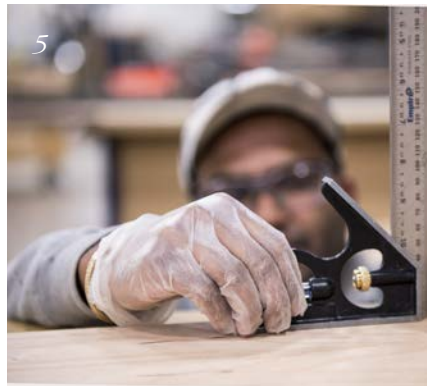

Every piece is made using the finest materials. Exacting precision and hand-crafted details provide a lasting quality that is simply beautiful.

Old world craftsmanship is integrated with modern technologies and manufacturing processes to offer true precision and flexibility that allows for lead times unsurpassed in the industry.

Our products are made to last, continually tested to the highest industry standards and are backed by a limited lifetime warranty.

1. Veneer is hand selected for grain structure, clarity and color. 2. Skilled artisans lay-up veneers in-house to ensure each panel is perfectly matched, sequenced and balanced. 3. Panels are cut and drilled to precision ensuring tight factory-assembled joints. 4. Solid hardwood edges are shaped by hand. 5. Units are assembled by our master builders for a precise fit. 6. Each piece is individually sanded. 7. Expert finishers apply wood stains using a 360° technique to ensure a uniform color and finish application. 8. Quality inspectors examine each piece to ensure you receive the finest quality furniture possible.

*A sustainable choice.*

We see the bigger picture. It means a commitment to integrating our efforts to sustain the earth, air and water into our entire corporate culture, at all levels, in all operations, at every stage of every product's life.

Our facilities are qualified under the ISO 14001 Environmental Management System — a significant step in ensuring environmental accountability and continuous improvement.

**GREENGUARD**

Using stringent testing methods, GREENGUARD certification ensures our products are low emitting and contribute minimal levels of pollutants to the indoor environment.

**LEVEL**

Level is a sustainability program that evaluates the environmental and social impacts of our products in the built environment. We are proud of attaining level 3 certification for all of our products.

**FSC**

All wood products come from FSC certified forests and other responsible sources through a chain of custody (COC). This further demonstrates our commitment to sustainability and the responsible management of this valuable natural resource.

*Create spaces that both welcome  
and inspire.*

From conference rooms to executive offices, your wood furniture can be tailored to function the way you do. Classic structures mask sophisticated components and wire management to accommodate today's technologies and applications.

*Make it yours.*

Whether it is one office or one hundred, we can create what you imagine. Our project management, engineering and manufacturing teams are structured to accommodate your project.
