Iris: Comfort, Modularity, and Design

In a world where work environments are constantly evolving, Iris stands out as an elegant and versatile solution for designing collaborative spaces, waiting areas, and videoconferencing rooms.

The Iris Collection

From Side-by-Side to circular configurations, the Iris collection consists of four distinct elements, allowing for a variety of dynamic arrangements.

Unlimited Modularity

Available as a straight lounge chair, angular lounge chair (30°), ottoman, and pouf, Iris offers exceptional flexibility in layout. Each element can be used individually or combined to create dynamic configurations that encourage interaction and creativity. A junction attachment is available to ensure a semi-permanent connection between the lounge chair.

Details That Make a Difference

- A rounded design that fits perfectly into modern spaces.
- Seat height adapted for optimal use (17" for lounge chairs and ottoman, 20" for the pouf) around 26" high surfaces.
- Two footing options: black nylon or natural wood finish.

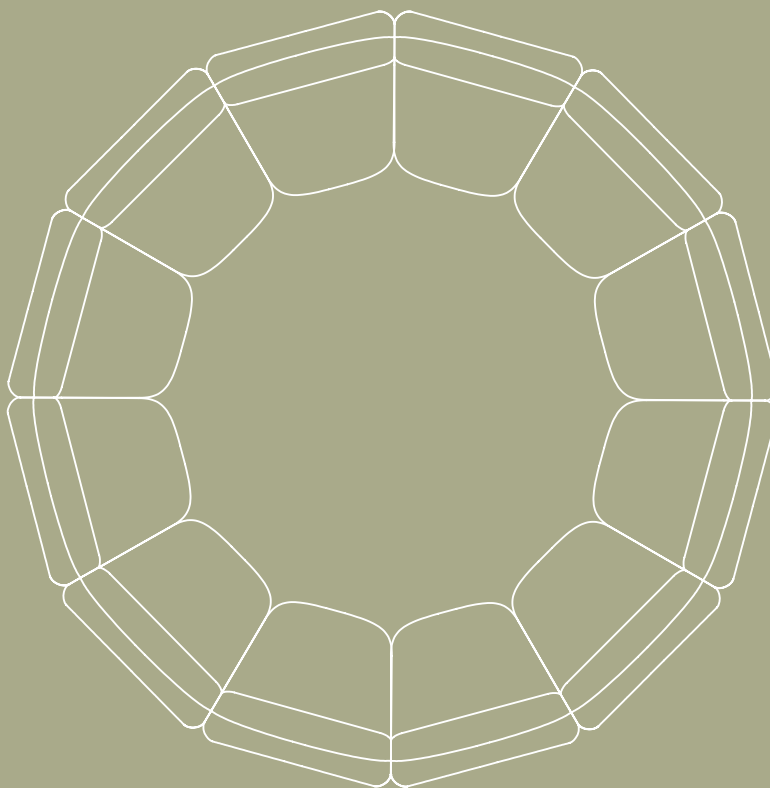

A Versatile Collection

With its soft and minimalist design, the Iris collection blends seamlessly into any décor. Its enveloping configurations and optimized comfort make it perfect for long periods of use in complete serenity.
