The Book of Genesis

- Single most ridiculed book of the Bible?
- Genesis tells man how to interpret the world in which he lives.
- Answers questions of sin & corruption
- Humility in receiving this book is necessary Job 38:4-6,19
- Any theory that contradicts Genesis must be wrong Isa 29:14; 1 Cor 1:20
- A Proper view:
 “The Bible is NOT a science book, BUT when it speaks concerning science, it speaks accurately. When God’s Word addresses science, that Word is God’s Word just as much as when His Word addresses salvation.”
