Therefore I urge you, brethren, by the mercies of God, to present your bodies a living and holy sacrifice, acceptable to God, which is your spiritual service of worship.

### **Questions for reflection:**

Is worship an option?

What makes worship acceptable?

What is the reason for worship?

What is God's provision for our worship?

What is the method of our worship?

How does God show us worship should be central?

What does it mean to say worship is a response versus meritorious?

How does our attitude toward God effect our worship?

What things get in the way of your worship?
