What started as a simple necessity for hard-working folks needing a bite between meals has become an iconic part of our authentic German dining experience at Brotzeit. Shrouded in legend as to its origins, the famous "Wiener Schnitzel" rose to fame in the late 19th century – as Emperor Franz Joseph I. of Austria's favourite dish.

"If the 'Kaiser' fancies this dish, lets have some too", thought his people – and soon a number of variants came about: the Schnitzel became an indispensable pillar of Austrian-German cuisine.

Our Schnitzels at Brotzeit are made with bread crumbs imported from Germany, and only top quality meats. That, we believe, makes all the difference.
