

### **Cosmetic Dentistry**

*Procedures that can vary from simple tooth coloured fillings to more complicated treatments such as crowns and bridges that will enhance your smile.*

### **Teeth Whitening**

*One of the safest procedures that can be performed in dentistry today. In DentCare Centre, we are using some of the latest technologies that are available in International markets, such as ZOOM advanced power bleaching system and soft tissue laser bleaching techniques.*

### **Dental Implants**

*Whether it's a single tooth or even full mouth rehabilitation, with the help of some of the finest implant systems available Internationally, we make sure to bring back the glory of your smile.*

### **Orthodontic Treatment**

*Our consultant orthodontist can provide you with different treatment modalities. This can vary from simple braces for all age groups to more cosmetic tooth coloured braces.*

### **Paediatric Dentistry**

*Our specialist paediatric dentist makes sure that she provides the best quality of care to the little ones.*

### **Veneers**

*To enhance your smile to a Hollywood smile, we can provide you with different types of veneers from conventional veneers to totally non-invasive lumineers.*

### **Oral Surgeries**

*Whether it's just the removal of your wisdom tooth or a more complicated oral surgery, we make sure you are in safe hands.*
