TREATMENTS

Teeth Whitening

In-Office Teeth Whitening with Opalescence® Xtra Boost system. This whitening procedure is widely used because of its dramatically effective result.

Esthetic Dental Restorations

Beauty veneers provide aesthetic enhancement without the need of extensive grinding of tooth material.

Implants

Teeth are an important part of your charisma and boost your self-confidence.

Prophylaxis

The AIR-FLOW® method delivers a controlled stream of fine powder particles to the tooth surface through water spray and compressed air.

Invisalign

The Invisalign system is custom-made for the teeth of the patient, with an individual plan, the end is a smile that truly fits.

Incognito

The Incognito appliance (lingual braces) will straighten the teeth without anyone noticing.

Conventional Braces

A range of high-tech based visible brackets: regular size, mini bracket, self legating: Smaartclip® Speed® or Damon® and Ceramic brackets.
