moshi

BORN IN DUBAI, INSPIRED BY ASIA

Moshi, Moshi!
(Hello! in Japanese)

Moshi is a homegrown concept that opened its doors in the UAE in 2015. Moshi comes from the amalgamation of flavors and cultures thriving in the heart of Dubai.

"Moshi was inspired by my love for Momos & Sushi. I wanted to bring my love for authentic Nepalese momos and sushi to the heart of Dubai. We wanted to create a concept that broke through reservations about sushi being only raw fish, and wanted Moshi to be that place where people feel comfortable trying sushi for the first time, without worrying about using chopsticks."

"Living in Dubai, we spent our childhood surrounded by flavors from multiple cultures and cuisines. As a child, I was always curious to experiment with food, which is why at Moshi we wanted to introduce flavors that people could relate to. With our Cheesy Chips Oman, Zaatar Labneh and Falafel Hummus & Cucumber sushi, we created a space that made people feel like they were at home, filled with their childhood favorite flavors."

A safe space, where you can have plenty of vegetarian, chicken & seafood options. Moshi was created to help you discover sushi for the first time in a Over the years, Moshi has grown to include flavors from other regions of Asia, create fusion dishes inspired by flavors of the Middle East and has successfully emerged as a trendsetter with some of its wildest, yet most loved innovations.

At Moshi, we want you to feel as welcomed and comfortable as you do at home, where you can come in and enjoy a wide variety of classic, fusion, vegan & gluten-free Asian food!
At Moshi, all your dietary requirements are taken care of so you can sit back and relax.

We look forward to converting you into a Moshian!

- Team Moshi
