NOTE: Front panels shown without outer skin - outer skin is fitted after body assembly.
NOTES:

1. All front panel skins 1/8" exterior plywood.

2. All three front panels first cut out and assembled as square-edge panels consisting of inner skin and framing (as shown on this sheet). Then top and bottom edges cut and bevelled (see last sheet).

3. Optional home-made fixed window in upper front panel.
Vertical framing as other panels if window not fitted.

NOTES:

1. Vertical framing 1" x 2" (nominal).
2. Horizontal framing 1" x 3".

© Andrew Gibbens 2007
NOTES:
1. All three panels drawn with inner skin facing down.
2. Cumulative panel heights may not equal dimensions on previous sheet due to rounding errors.
