Twin beams with spacers

Double beam under roof hinge

Horizontal and vertical beams

NOTE: Inner roof shown without outer skin or base frames for folding roof - both are fitted after body assembly.
NOTES:
1. Inner roof shown before front edge is cut - see later sheet for details.
2. Cut all pieces from 1/8" plywood.
3. Joints near front offset to fall in between double roof beams.
NOTES:

1. All framing 1" x 2" (nominal), except 1" x 3" front horizontal beam (see next sheet).
