

# SEMI-CUSTOM PROGRAM

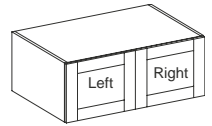

## Symbols Used in Semi-Custom Chart

- = Semi-Custom Option Available
- ▲ = Semi-Custom Option Standard with Cabinet

When ordering Semi-Custom options, please note that all paperwork from our factory will show an asterisk (\*) at the end of the nomenclature. This will help identify the cabinets with modifications. Please note this change when reviewing confirmations, invoices, shipping labels, etc.

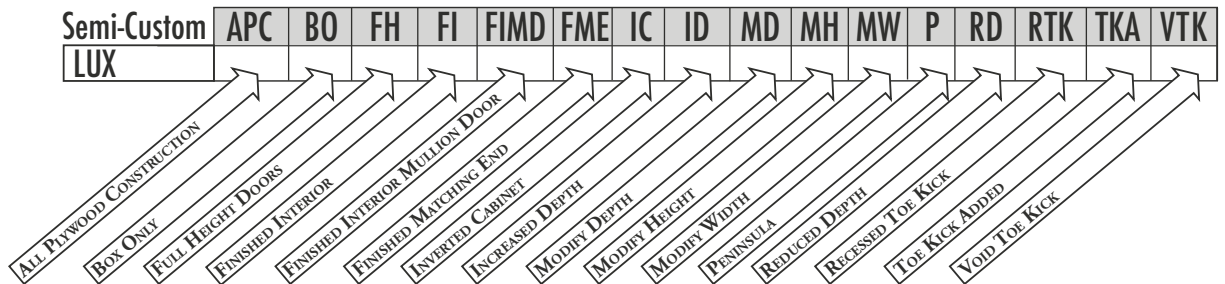

For Example:  
**W3030\* FIMD P MD10½ B12\* R FH W1230\* L MH29¼**

Always face cabinet when determining left or right specifications

**Sequence of Mods:** All modifications to cabinet construction, size, valances or configuration will take precedence over changes to doors or installed options.

For Example: IC will occur before DDFINTOP

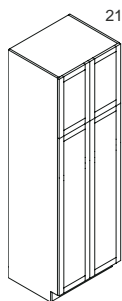

## Modifying Dimensions

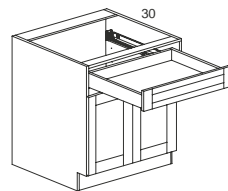

Cabinets and end panels can be modified for depth, height and width. Doors, drawer fronts and cabinet openings will change to match the new overall dimensions. Exceptions or limitations are noted under each individual modification. To order and price, use the next larger or largest standard item available and add the specified percentage. Always reduce, if possible, from a larger cabinet. Modifying in multiple directions results in the following pricing:

### Pricing

- One direction — add 23% per cabinet
- Two directions — add 33% per cabinet
- Three directions — add 43% per cabinet

U248424 MD21

B30 MD30

### MD — Modify Depth

The depth of most cabinets can be modified in 1/16" increments. Drawer boxes and sliding shelves in over 24" deep cabinets will remain the standard base depth. All drawers will remain standard depths. Cabinets with Wood Sliding Shelves have a minimum 12" depth. Deluxe and Superior Metal Sliding Shelves are not available in cabinets less than 18" deep. Superior Metal Drawers in 9 3/8" height can not be reduced below 18" depth. See the Semi-Custom Chart for availability.

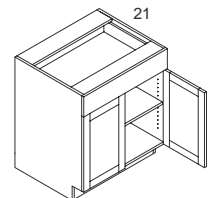

To order, use the following code with cabinet item code:

- MD — Modify Depth
- For Example: W3030 MD9

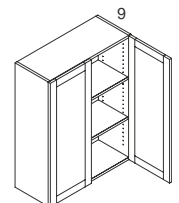

Cabinet Type	Depth	
	Minimum	Maximum
Walls without drawers	4½"	30"
Walls with drawers	12"	30"
Bases without drawers	6"	30"
Bases with drawers	12"	30"
Talls without drawers	6"	30"
Talls with drawers	12"	30"
Vanities without drawers	6"	30"
Vanities with drawers	12"	30"

LUX									●							

W1536 MH35¼

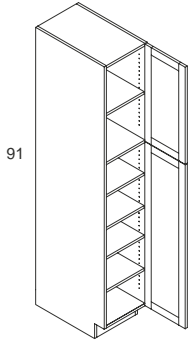

## MH — Modify Height

The height of most cabinets can be modified in 1/16" increments. For Wall, Base, Vanity and Tall cabinets with both doors and drawers, the height adjustment will occur in the door section and drawer heights will not change. For Tall cabinets and end panels, height adjustment will be made to top section. If Inverted Cabinet option is also chosen the height adjustment will be to the original top door section. Refer to individual door style pages for additional details. See the Semi-Custom Chart for availability.

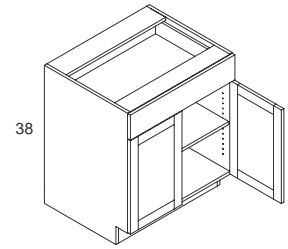

To order, use the following code with cabinet item code:

MH — Modify Height

For Example: U219324 MH91

U219324 MH91

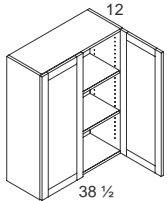

B30 MH38

Cabinet Type	Height	
	Minimum	Maximum
Wall cabinets	12"	60"
Base and Vanity cabinets without drawers	16½"	48"
Base and Vanity cabinets with drawers	22½"	48"
3 Drawer Stack Cabinets	22½"	46½"
4 Drawer Stack Cabinets	28½"	40½"
Tall cabinets	72"	96"

LUX										•						

W3942 MW38½

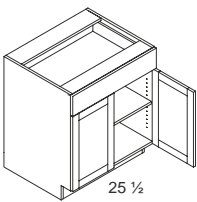

## MW — Modify Width

The width of most cabinets can be modified in 1/16" increments. Changes in width will follow the standard cabinet configurations. Any cabinet less than 24" wide will be a single door cabinet by using existing 24" wide single door cabinets. 9" Wide cabinets will be square for all cathedral overlay door styles. Refer to individual door style pages for additional details. Modify width allows an easy way to get half size cabinets: i.e. 13½", 16½", 20½", 22½" widths, etc. See the Semi-Custom Chart for availability.

To order, use the following code with cabinet item code:

MW — Modify Width

For Example: B27 MW25 1/2

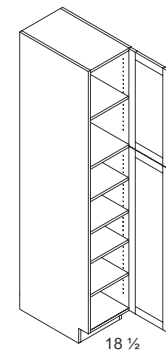

B27 MW25½

Cabinet Type	Width	
	Minimum	Maximum
Wall cabinets without drawers	9"	48"
Wall cabinets with drawers	9"	48"
Base and Vanity cabinets without drawers	9"	48"
Base and Vanity cabinets with drawers	9"	48"
Base and Vanity cabinets with sliding shelves	15"	48"
Vanity Sink Drawer Base cabinets	24"	60"
Tall cabinets without drawers	9"	36"
Tall cabinets with drawers	9"	36"

## BB — Bead Board Back

BKC2196 BB

ODW2436 BB

WSC2454 BB

This option replaces the back of the cabinet with a 3/4" bead board panel for wood and MDF door program only. It is available for most Wall, Base, Bookcase and Furniture Bookcase cabinets. All cabinets that are standard with a finished interior can be ordered with the bead board back in the matching finish. Any cabinets with a standard interior will require ordering one of the many available finished interior options before this option will be allowed: Finished Interior (FI), Finished Interior Finished Door (FIFD), Finished Interior Mullion Door (FIMD) or Finished Interior Decorative Door Frame (FIDDF). See the individual options for details and availability.

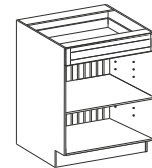

**Note:** When choosing this option specialty techniques will **NOT** be applied to the Bead Board Back.

To order, use the following code with cabinet item code:

BB — Bead Board Back  
 For Example: ODW2436 BB  
 WSC2454 FIFD BB

**Pricing**

Add 30% to List Price

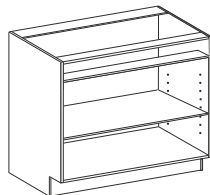

ODDB30 BB

## BO — Box Only

W2730 BO

B39 BO

Many cabinets can be ordered as Box Only. Box Only option eliminates all the doors, drawer fronts, drawers and cabinet hardware from the cabinet. Cabinet will contain all standard boring for shelves and hinges. **This option is not available with Finished Interior option.** See the Semi-Custom Chart for option availability.

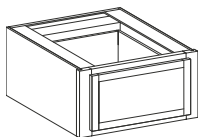

To order, use the following code with cabinet item code:

BO — Box Only  
 For Example: B39 BO

**Pricing**

LUX		●														

ICSDU18 CB

## CB — Cabinet Back

This option is available for the wood and MDF door program on the Island Component Single Drawer Units, Island Component Door Units, and Island Component Basket Units only. The option creates a standard back on the peninsula side of the island component. Island Component and Island Cabinet construction will be framed with full access overlay doors.

To order, use the following code with cabinet item code:

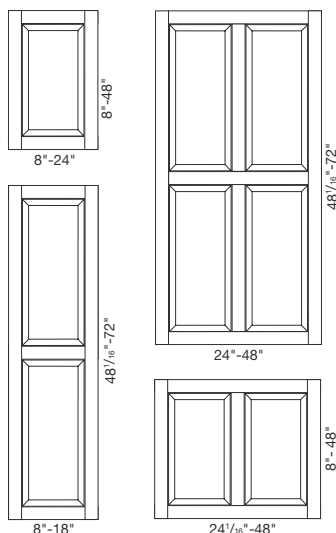

CB — Cabinet Back  
 For Example: ICSDU18 CB

**Pricing**

No charge

## CUSTDOOR/CUSTBF — Custom Size Door and Drawer Fronts

### Panel Configurations

This option gives you the ability to order custom panel sizes based on specific parameters for each door style. You must specify the following information when ordering. Does not include installation hardware. When installing custom doors, special drilling may be required for installing the hinge mounting plates on the cabinet box. Wellborn has the right to substitute MDF for center panels with paints and paints with glazes to insure better quality on larger panels.

- Drill or No Drill (ND)
  - If Drill is selected, then you must specify Left (L) or Right (R) hinge.
- Door Edge Profile (DE) or Square Edge Profile (SE)
  - Note: All edges will receive the specified edge treatment.
- Height and Width
  - Sizes are allowed in 1/8" increments
  - There are minimum and maximum widths allowed in order to retain the door profile. Minimum and maximum widths will vary based on individual door construction.
- Door Type
  - FD Finished Door
  - DDF Decorative Door Frame
  - MD Mullion Door

If DDF or MD is chosen, specify Glass Type:

Codes	Description	Price is in addition to sq. ft. door pricing	Glass Max. Sizes
NG	No Glass	No Charge	---
CG	Clear Glass	\$100 List	48" x 60"
RG	Reeded Glass	\$150 List	32" x 42"
SG	Satin Glass	\$150 List	63" x 44"
CSG	Clear Seedy Glass	\$150 List	24" x 72"
SSG	Super Seedy Glass	\$150 List	32" x 42"
CAG	Clear Antique Glass	\$150 List	24" x 72"
CWG	Clear Water Glass	\$150 List	24" x 72"
CBG	Clear Baroque Glass	\$150 List	30" x 72"

### Custom Door Parameters:

For Custom Door orders, specify:

- Door Hinge – L/R/ND
- Edge Profile – DE/SE
- Door Type – FD/DDF/MD
- Height measurement
- Width measurement

### Door Styles (Cope & Tenon)

- Width:**
- Minimum = 8"
  - Doors less than 11 1/2" are not available in Cathedral.
  - Doors less than 8 3/4" are not available in Arch.
  - Bishop, Trestle, Cortland, Chelsea, Charleston, Messina, Wellington, Winslow, Richmond, Vienna & Bristol doors less than 10 1/2" will have reduced width stiles.
  - Maximum = 24" (single panel), 48" (horizontal double panel)
  - Doors greater than 24" wide are not available in Arch or Cathedral.
  - Doors greater than 24" wide are not available over 48" high.

- Height:**
- Minimum = 11"
  - Doors less than 11" high are not available in Arch or Cathedral.
  - Maximum = 48" (single panel); 72" (vertical double panel)
  - Doors greater than 24" wide are not available over 48" high.

### Mitered/Slab Door Styles (all are single panel)

- Width:**
- Minimum = 8"
  - Maximum = 24"
- Height:**
- Minimum = 8"
  - Maximum = 72"

**Note:** All cope and tenon and MDF door styles over 48" high will have a mid-rail, and if over 24" wide will have a center stile. Mitered and slab doors will remain a one-piece panel.

Brilliant Door Collection door styles in horizontal grain patterns are not available over 48" high.

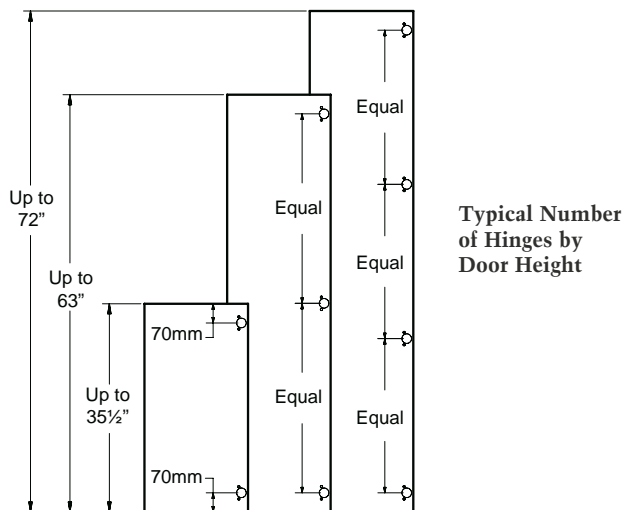

### Custom Drawer Front Parameters:

For Custom Drawer Front orders, specify:

- Edge Profile – DE/SE
- Height measurement
- Width measurement

- Any drawer fronts *not listed* are SLAB.
- Minimum Size, Slab, H x L = 4 1/2" x 7"
- Minimum Size, 5-piece, H x L = Will vary by door size
- Maximum Size, H x L = 22" x 48" (except Harbour & Bridgeport)

Refer to individual Door Style pages for size limitations

### To Calculate the Price of Your Panel:

The custom panels are priced per square foot. There is a minimum charge of 1 sq. ft. for drawer fronts and 1 1/2 sq. ft. for doors.

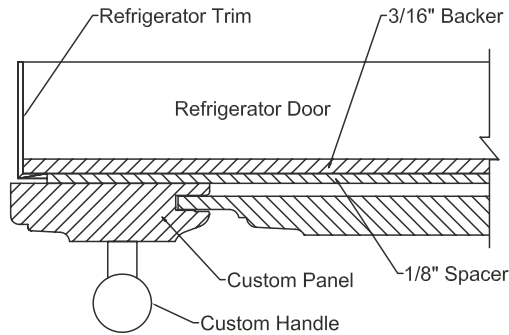

Pricing Per Sq. Feet					A	B	C	D
ITEM CODE	WOOD	MDF	EBM	HTM	DESIGNER LAMINATE COLORS			
CUSTDOOR/CUSTBF	120	120	86	96	120	132	---	195

### EXAMPLE:

Panel Size  
 $36" \times 30" = 1,080 \div 144 = 7.5 \text{ sq. ft.}$   
 For Custom Door (or Drawer Fronts):  
 $7.5 \text{ sq. ft.} \times \$120 \text{ List} = \$900$

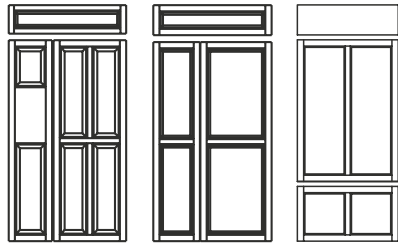

## Custom Refrigerator Door Panels

Custom Appliance Panels to match your cabinetry are available for appliances designed to accept them. These panels will be custom made to the appliance manufacturer specifications. It is important to research your appliances thoroughly before ordering. A few minutes spent acquiring the correct documents eliminates expensive replacements and order delays. Check the manufacturers specifications and model number carefully to verify your particular application. A complete model number and the appropriate manufacturer's specifications must accompany all custom panel orders.

### Typical "Overlay" Application

Custom panels for an "Overlay" application typically include  $\frac{3}{16}$ " backers,  $\frac{1}{8}$ " spacers and  $\frac{3}{4}$ " custom panels which match the specified door style. The panels cover the entire front of the refrigerator and the installation usually requires a custom handle, but in some applications the standard handle can be extended to allow finger clearance between the custom panel and the handle.

Typical Overlay Configurations

### Notes:

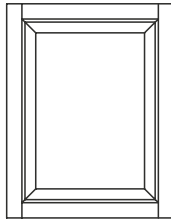

- Any cut outs required for dispensers must be done in the field.
- Custom routing for finger clearance is not available.
- Panels greater than 24" in width will have two vertical panels. Mitered door styles have two separate panels designed to be mounted side-by-side.
- Panels greater than 48" in height will have two panels separated by a center rail. Mitered door styles will always have one tall panel with no center rail.
- Grill panels and doors less than 8" will have a flat center panel even in raised panel door styles.
- Add percentage (%) upcharge for specialty finishes.

## EXDRDN — Extend Door Down

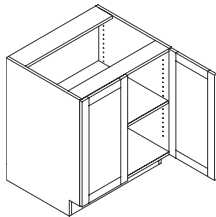

This option is available on individual wall cabinets. It will extend the door by 1¼" down past the floor of the cabinet. This increases the overall height by 1¼" without increasing the cabinet interior. This option is not available on wall stack cabinets, cabinets with door mounted kits, or with Peninsula option.

To order, use the following code with cabinet item code:  
 EXDRDN1 — Extend One Door Down  
 EXDRDN2 — Extend Two Doors Down  
 For Example: W2430SD EXDRDN

W2430SD EXDRDN

Pricing					A	B	C	D
ITEM CODE	WOOD	MDF	EBM	HTM	DESIGNER LAMINATE COLORS

## FINBOT — Finished Bottom

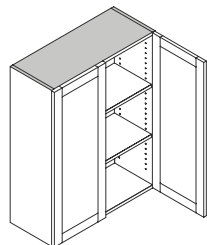

W2736 FINBOT

This option is available on individual Wall cabinets only. It will create a finished bottom on the wall cabinet. Cabinets will receive ¾" thick matching cherry, maple, oak or hickory finished wood veneer or matching melamine or laminate. For painted maple, the finished panel will be painted MDF. Seams will still be present when joining multiple cabinets in a run. This option does not change the height of the cabinet or finished the interior.

To order, use the following code with cabinet item code:  
 FINBOT — Finished Bottom  
 For Example: W2736 FINBOT

**Pricing**  
 Add 15% List Price

## FINTOP — Finished Top

W2736 FINTOP

This option is available on individual Wall and Tall cabinets only. It will create a finished top on the wall or tall cabinet. Cabinets will receive ¾" thick matching cherry, maple, oak or hickory finished wood veneer or matching melamine or laminate. For painted maple, the finished panel will be painted MDF. Seams will still be present when joining multiple cabinets in a run. This option does not change the height of the cabinet or finished the interior.

To order, use the following code with cabinet item code:  
 FINTOP — Finished Top  
 For Example: W2736 FINTOP

**Pricing**  
 Add 15% List Price

## FI — Finished Interior

### FIFD — Finished Interior Finished Door

Available on most wall, base, vanity/office and tall cabinets. When this option is chosen, end panels are finished on the exterior and interior **as well as** the tops and bottoms of wall cabinets. This does not change the metal drawer back and bottom color; these will remain the same as the cabinet interior color that was chosen. For wood or MDF door styles, in both stained and painted finishes, the front edges of the Finished Interior cabinets will be finished wood veneer edge banding. Cabinets will receive 3/4" thick matching cherry, maple, oak or hickory finished wood veneer or matching melamine or laminate. For painted maple, the finished panel will be painted MDF. Not available with Box Only option. For the Brilliant Door Collection, refer to the Program Summary for the finishes with a coordinated matte melamine back. These finishes will require one of the matching end panel options to achieve a true matching end. See Semi-Custom Chart for availability.

FI option does not include doors. To order replacements, use the Easy Parts Search Program on WAY. FIFD option does include doors.

To order, use the following codes with cabinet item code:

FI — Finished Interior

For Example: B24 FI

FIFD — Finished Interior Finished Door

For Example: B24 FIFD

**Note:** On the Semi-Custom Chart, the FI option refers to the availability of either the FI or FIFD options.

**FIDDF — Finished Interior Decorative Door Frames**

**FIDDFTOP — Finished Interior Decorative Door Frames Top**

**FIDDFBTM — Finished Interior Decorative Door Frames Bottom**

See each door style page for door style availability. Most wall, base, vanity, office and tall cabinets can be ordered with Finished Interior Decorative Door Frames on the cabinet. When this option is chosen, end panels are finished on the exterior and interior **as well as** the tops and bottoms of wall cabinets.. This does not change the metal drawer back and bottom color; these will remain the same as the cabinet interior color that was chosen. All cope and tenon and MDF doors greater than 48" high will have a center rail and two panel openings. Cabinets will receive 3/4" thick matching cherry, maple, oak or hickory finished wood veneer or matching melamine or laminate. For painted maple, the finished panel will be painted MDF. For wood or MDF door styles, in both stained and painted finishes, the front edges of the Finished Interior cabinets will be finished wood veneer edge banding. When ordering FIDDF, FIDDFTOP, FIDDFBTM the entire cabinet interior will be finished.

When ordering FIDDF, ALL standard doors will be replace with decorative door frames.  
 When ordering FIDDFTOP, TOP standard doors will be replaced with decorative door frames.  
 When ordering FIDDFBTM, BOTTOM standard doors will be replaced with decorative door frames.

To order, use the following codes with cabinet item code:

FIDDF — Finished Interior Decorative Door Frame  
 For Example: W3930 FIDDF CG

FIDDFTOP — Finished Interior Decorative Door Frame Top section  
 For Example: U308424 FI2DDFTOP CG

FIDDFBTM —Decorative Door Frame Installed Bottom section

**FIMD — Finished Interior Mullion Door**

**FIMDTOP — Finished Interior Mullion Door Top**

**FIMDBTM — Finished Interior Mullion Door Bottom**

See each door style page for door style availability. Available on many wall and tall cabinets. When this option is chosen, end panels are finished on the exterior and interior **as well as** the tops and bottoms of wall cabinets. This does not change the metal drawer back and bottom color; these will remain the same as the cabinet interior color that was chosen. When ordering FIMD, the whole cabinet interior will be finished, not just the sections that have mullion doors. Cabinets will receive 3/4" thick matching cherry, maple, oak or hickory finished wood veneer or matching melamine or laminate. For painted maple, the finished panel will be painted MDF. For wood or MDF door styles, in both stained and painted finishes, the front edges of the Finished Interior cabinets will be finished wood veneer edge banding. Reference the following chart for door style availability.

When ordering FIMD, ALL standard doors will be replaced with mullion doors.

When ordering FIMDTOP, TOP standard doors will be replaced with mullion doors.

When ordering FIMDBTM, BOTTOM standard doors will be replaced with mullion doors.

To order, use the following codes with cabinet item code:

FIMD—Finished Interior Mullion Door

For Example: W3930 FIMD TR NG

To order, use the following codes with cabinet item code:

FIMDTOP—Finished Interior Mullion Door Top

For Example: U308424 FIMDTOP TR CSG

To order, use the following codes with cabinet item code:

FIMDBTM—Finished Interior Mullion Door Bottom

For Example: U308424 FIMDBTM TR CG

These bullets apply to all Mullion Door Options:

- Not available with Box Only or Void Door Options.
- Mullions in character maple and character cherry door styles will not have character features.
- Sandia will have the step profile on the top and bottom rails for Horizon Mullion Style.
- For Bishop, Trestle, Chelsea, Wellington and Winslow door styles, the inside edge of the mullion door will match Messina.
- Glass options are non-tempered and therefore not recommended for use near interior and exterior doors. Glass patterns run vertically with the height of the door.
- Not available on the following cabinets: 9" Wide cabinets, entertainment cabinets, or any open cabinets that do not come standard with doors.
- Wide stile and rail door styles are not available with FIMD options for 9" wide, 12" wide single door or 24" wide double door cabinets. Cabinets must also be 15" high or higher.

**Note: To order replacement doors, use the Easy Parts Search Program on WAY.**

**Prep for Lighting Strip**  
Doors were removed for better visibility

**Prep for Lighting Puck**  
Doors were removed for better visibility

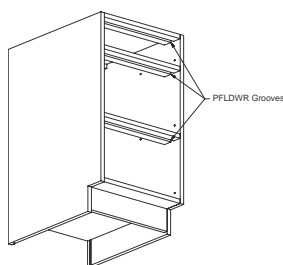

### **PFLDR — Prep for Lighting Door**

This option is available for most cabinets with doors. Choose between Prep for Lighting Strip to have a rout factory machined into both end panels of the cabinet, Prep for Lighting Puck Large to have factory routed large puck holes in the top of the cabinet or Prep for Lighting Puck Small to have factory routed small puck holes in the top of the cabinet. Routing for pucks will be 1/2" deep and will not go all the way through the top of the cabinet and will be centered with each door for most cabinets. Prep for Lighting Strip cabinets will have a 3/4" wide by 1/2" deep rout running the full height of the end panel 4 1/2" from the front edge. Edge banding will be applied after the routing is completed so the rout is not visible from the exterior of the cabinet. If a cabinet has a fixed shelf/floor, the extrusion and cover will need to be fitted to each section. See Lighting Section for extrusions, covers, lights, leads, drivers and switches. Prep for Lighting Door and Prep for Lighting Drawer options can be combined where applicable.

To order, use the following code with cabinet item code:

- PFLS — Prep for Lighting Strip
- PFLPL — Prep for Lighting Puck Large
- PFLPS — Prep for Lighting Puck Small
- For Example: W3030 PFLS

**Pricing**  
\$100 List per cabinet

**Prep for Lighting Drawer**  
Drawers were removed for better visibility

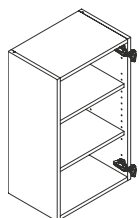

### **PFLDWR — Prep for Lighting Drawer**

This option is available for most cabinets with drawers. This option will add a front rail between each drawer that is routed to receive strip lighting. This option will not apply to cabinets with only drawer blanks. See Lighting Section for extrusions, covers, lights, leads, drivers and switches. Prep for Lighting Door and Prep for Lighting Drawer options can be combined where applicable.

To order, use the following code with cabinet item code:

- PFLDWR — Prep for Lighting Drawer
- For Example: 3DB21 PFLDWR

**Pricing**  
\$100 List per cabinet

**W1830 PFMDR**

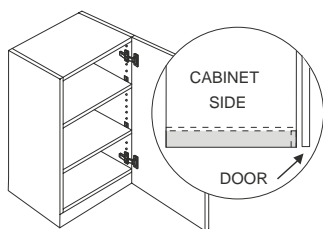

### **PFMDR — Prep For Metal Door ◆**

This option is available on many cabinets and only removes the doors. If ordered for cabinets with drawers, the drawers will not be affected. Cabinet(s) with Prep For Metal Door (PFMDR), Prep For Metal Door Top (PFMDRTOP) or Prep For Metal Door Bottom (PFMDRBTM) will include the necessary hinges but will not include the metal door. Doors will need to be ordered separately and field installed on the appropriate cabinets. You must choose Finished Interior Finished Door (FIFD) option before choosing the Prep for Metal Doors option, if Finished Interior (FI) is desired. This option is not available with any other options that remove the doors, install kits to doors, or create pocket doors. It is not available on coplanar cabinets.

To order, use the following code with cabinet item code:

- PFMDR – Prep For Metal Door to change all doors
- PFMDRTOP – Prep For Metal Door Top to only change top doors
- PFMDRBTM – Prep For Metal Door Bottom to only change bottom doors
- For Example: W1830 PFMDR

**Pricing**  
90% of List Price

**W1530 RCF**

### **RCF — Recessed Floor**

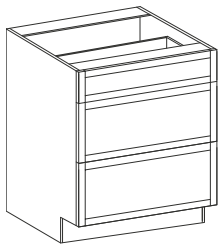

This option is available on individual Wall cabinets only. It creates 1 1/4" recessed floor for lighting applications under the wall cabinet. The door(s), cabinet sides and back remain full height. This option does not change the height of the cabinet or finish the interior. To finish the recessed bottom, order any of the Finished Interior options. This option is not available on any wall cabinets with drawers, microwave cabinets or any cabinets meant to sit upon the countertop.

To order, use the following code with cabinet item code:

- RCF — Recessed Floor
- For Example: W1530 RCF

Pricing					A	B	C	D

RCF	205	205	113	126	158	174	---	256

DRB33 RDDWR15

**RDDWR — Reduced Depth Drawer**

This option is available on most 24" deep base cabinets with a drawer(s). It shortens the depth of the drawers to the chosen dimension while not changing the overall cabinet depth. This option applies to all drawers in the cabinet. Superior Metal Drawers in 9 $\frac{1}{2}$ " height can not be reduced below 18" depth.

To order, use the following codes with cabinet item code:

RDDWR18 — Reduce drawer depth to 18"

RDDWR15 — Reduce drawer depth to 15"

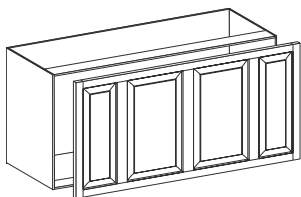

RDDWR12 — Reduce drawer depth to 12"

RDDWR9 — Reduce drawer depth to 9"

For Example: DRB33 RDDWR15

**Pricing**

Add 25% to List Price

SOF481824 RF

**RF — Removable Front Option**

The Removable Front option is only available for Soffit Cabinets in the wood and MDF door program. This option creates a removable front by adding clips to keep the front in place. This allows the front to be removed for inspection.

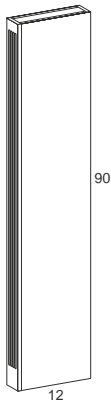

To order, use the following code with cabinet item code:

RF — Removable Front

For Example: SOF481824 RF

**Pricing**

No Charge

FP90T RD12

**RD — Reduced Depth**

Many wall, base, tall and vanity/office accessories can be reduced in depth. When RD is chosen, the item's depth is reduced to the specified dimension. Reduced Depth is noted in the Semi-Custom Chart for option availability.

To order, use the following codes with item code:

RD24 — Reduce depth to 24"

RD23 — Reduce depth to 23"

RD22 — Reduce depth to 22"

RD21 — Reduce depth to 21"

## SI — Standard Interior

Standard interior options are options where the interior does not change. These options are Decorative Doors Installed, Decorative Doors Installed on Top, Decorative Doors Installed on Bottom, Mullion Doors Installed, Mullion Doors Installed on Top and Mullion Doors Installed on Bottom. See the individual options for all their details.

W3930 2DDFIN NG

### **DDFIN — Decorative Door Frames Installed**

#### **DDFINTOP — Decorative Door Frames Installed on Top**

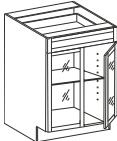

#### **DDFINBTM — Decorative Door Frames Installed on Bottom**

See each door style page for door style availability. Most wall, base, vanity, office and tall cabinets can be ordered with Decorative Door Frames Installed on the cabinet. All MDF and cope and tenon doors greater than 48" high will have a center rail and two panel openings. **Matching interior is not standard with this option; therefore, we recommend ordering the cabinet with Finished Interior (FI) option.**

When ordering DDFIN, ALL standard doors will be replaced with decorative door frames.

When ordering DDFINTOP, TOP standard doors will be replaced with decorative door frames.

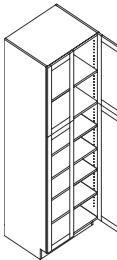

When ordering DDFINBTM, BOTTOM standard doors will be replaced with decorative door frames.

## MDIN — Mullion Doors Installed

### MDINTOP — Mullion Doors Installed Top

### MDINBTM — Mullion Doors Installed Bottom

See each door style page for door style availability. Available on many wall and tall cabinets. All MDF and cope and tenon doors greater than 48" high will have a center rail and two panel openings. **Matching Interior is not standard with this option; therefore, we recommend ordering cabinets with Finished Interior (FI).** Reference the previous chart on page 117 for door style availability.

When ordering MDIN, ALL standard doors will be replaced with mullion doors.  
When ordering MDINTOP, TOP standard doors will be replaced with mullion doors.  
When ordering MDINBTM, BOTTOM standard doors will be replaced with mullion doors.

To order, use the following codes with cabinet item code:

- 1MDIN — One Mullion Door Installed
  - 2MDIN — Two Mullion Doors Installed
  - 3MDIN — Three Mullion Doors Installed
  - 4MDIN — Four Mullion Doors Installed
- For Example: W3930 2MDIN NG

To order, use the following codes with cabinet item code:

- 1MDINTOP — One Mullion Door Installed on top
  - 2MDINTOP — Two Mullion Doors Installed on top
  - 3MDINTOP — Three Mullion Doors Installed on top
  - 4MDINTOP — Four Mullion Doors Installed on top
- For Example: U308424 2MDINTOP SSG

To order, use the following codes with cabinet item code:

- 1MDINBTM — One Mullion Door Installed on bottom
  - 2MDINBTM — Two Mullion Doors Installed on bottom
  - 3MDINBTM — Three Mullion Doors Installed on bottom
  - 4MDINBTM — Four Mullion Doors Installed on bottom
- For Example: U308424 2MDINBTM SSG

These bullets apply to all Mullion Door Options:

- Not available with Box Only or Void Door Options.
- Mullions in character maple and character cherry door styles will not have character features.
- Sandia will have the step profile on the top and bottom rails for Horizon Mullion Style.
- For Bishop, Trestle, Chelsea, Wellington and Winslow door styles, the inside edge of the mullion door will match Messina.
- Glass options are non-tempered and therefore not recommended for use near interior and exterior doors. Glass patterns run vertically with the height of the door.
- Not available on the following cabinets: 9" Wide cabinets, entertainment cabinet or any open cabinets that do not come standard with doors.
- Wide stile and rail door styles are not available with MDIN options for 9" wide, 12" wide single door or 24" wide double door cabinets. Cabinets must also be 15" high or higher.

**Note: To order replacement doors, use the Easy Parts Search Program on WAY.**  
See page 1-133 for Mullion Style and Glass Type options.

W3930 TKA

BKC2760 TKA

### TKA — Toe Kick Added

Available on most wall and bookcase cabinets unless noted on the Semi-Custom chart. This option adds a 4½" tall by 3⅜" deep toe kick notch to the bottom of a wall cabinet which increases the overall height of the cabinet by 4½". The end panels will extend to the total cabinet height. When adding a toe kick to a cabinet with a fixed shelf, such as a book case, the notated fixed shelf remains fixed. See Semi-Custom Chart for availability.

To order, use the following code with cabinet item code:

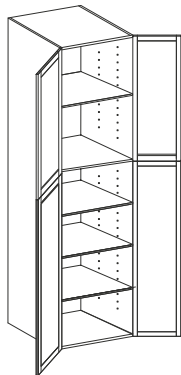

TKA — Toe Kick Added  
 For Example: W3930 TKA  
 (Overall height is 30" + 4½" = 34½")

**Note:** When choosing this option the following options are excluded: Inverted Cabinet, Void Toe Kick and Cathedral or Arch door styles. Mullion Doors, Decorative Door Frames, and Metal Doors (installed) are available. Modified Depth is available in ¼" increments up to 24". Recessed Toe Kick can be ordered with Toe Kick Added.

Add \$70 List

## Void Fronts and Boxes

These options are available on most base, wall, vanity, office and tall cabinets. They offer the flexibility of removing door, drawers, blank fronts and/or guides in various combinations.

### VAF — Void All Fronts

Most cabinets can be ordered as Void All Fronts. VAF option eliminates all the doors, wood drawer fronts, and blank fronts from the cabinet. Wood drawer boxes, drawer guides, tambour units, panels and center stiles will remain. Hinges and mounting plates will not be included for voided doors. For cabinets with Deluxe or Superior drawers, the complete drawer box and slides will be removed.

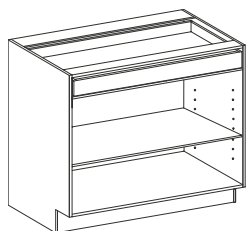

To order, use the following code with cabinet item code:

- VAF — Void All Fronts
- For Example: B39 VAF

**Note:** When choosing this option the following options are excluded: FI, BO, cabinets that have kits attached to the door fronts or any cabinets with lift doors.

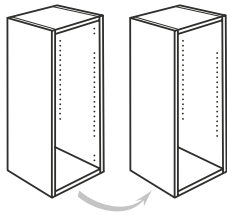

### Pricing

85% of List

B39 VAF

W1539 BO VBD

## VBD — Void Hinge Boring

Available on most cabinets with doors. Doors have to be removed first using Void or Box Only options. This option leaves adjustable shelving boring.

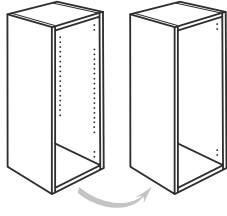

To order, use the following code with cabinet item code:

VBD — Void Hinge Boring

For Example: W1539 BO VBD

### Pricing

B30 VDO

## VDO — Void Doors Only

### VDRTOP — Void Doors Top

### VDRBTM — Void Doors Bottom

Most cabinets are available with the Void Door options. Cabinets with top doors, such as Wall Stack Cabinets, Utilities, etc. may be ordered as Void Doors Top. Hinges will not be included for the voided doors.

### VDO — Void Doors Only

Most cabinets with doors or door/drawer combinations may be ordered as Void Doors Only. VDO eliminates all doors on the cabinet. Drawer boxes, drawer fronts and blank fronts will remain intact. Hinges will not be included for the voided doors.

### VDRTOP — Void Doors Top

Cabinets with top doors, such as Wall Stack Cabinets, Utilities, etc. may be ordered as Void Doors Top. VDRTOP eliminates the top doors on the cabinet, leaving the bottom doors intact. Hinges will not be included for the voided doors.

### VDRBTM — Void Doors Bottom

Cabinets with bottom doors, such as Wall Stack Cabinets, Utilities, etc. may be ordered as Void Doors Bottom. VDRBTM eliminates the bottom doors on the cabinet, leaving the top doors intact. Hinges will not be included for the voided doors.

To order, use the following code with cabinet item code:

VDO — Void Doors Only

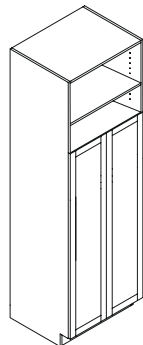

For Example: B30 VDO
