Packaging Tips

Improperly packed inserts can cause misses or multiples. We offer these important guidelines:

- Stack inserts on non-returnable 4-way wooden pallets designed for use with forklift trucks.
- Standard Pallet should be 40 x 48 inches with two runners 4 inches off the floor.
- Add a protective cover to the bottom of pallet to protect inserts from green lumber and another on top to protect from the weather.
- Do not double stack pallets.
- Skids must be tagged with insert name, date of insertion, and quantity.
- Small quantities can be delivered in boxes identified on the outside with insert name and quantity in each box.
