

SAFETY TALKS:

Holiday Season Safety

The National Safety Council offers these suggestions to help make your holiday season safe.

Decorations

Wear gloves while decorating with spun glass “angel hair.” It can irritate your eyes and skin. A common substitute is non-flammable cotton. Both angel hair and cotton snow are flame retardant when used alone. However, if artificial snow is sprayed onto them, the dried combination will burn rapidly. When spraying artificial snow on windows or other surfaces, be sure to follow directions carefully. These sprays can irritate your lungs if you inhale them.

Fireplaces

You should not try to burn evergreens or wreaths in the fireplace or in a wood stove to dispose of them. They are likely to flare out of control and send flames and smoke into the room. Also, do not burn wrapping paper in the fireplace because it often contains metallic materials which can be toxic if burned.

Toys and Gifts

Be especially careful when you choose toys for infants or small children. Be sure anything you give them is too big to get caught in the throat, nose or ears. Avoid toys with small parts that can be pulled or broken off. If you are giving toys to several children in one family, consider their age differences and the chances that younger children will want to play with older kids’ toys.

Plants

Small children may think that holiday plants look good enough to eat. But many plants can cause severe stomach problems. Plants to watch out for include: mistletoe, holly berries, Jerusalem cherry, and amaryllis. Keep all of these plants out of children’s reach.

Food and Cooking

The holidays often mean preparing large meals for family and friends. Wash hands, utensils, sink, and anything else that has come in contact with raw poultry. Keep in mind that a stuffed bird takes longer to cook. For questions concerning holiday turkey preparation and cooking call the USDA Meat and Poultry Hotline at 1-800-535-4555. Refrigerate or freeze leftovers in covered shallow containers (less than two inches deep) within two hours after cooking. Date the leftovers for future use.

Alcohol, Parties and Driving

Being a smart party host or guest should include being sensible about alcoholic drinks. More than half of all traffic fatalities are alcohol-related. Use designated drivers, people who do not drink, to drive other guests home after a holiday party.
