A SHORT SUMMARY OF ST. PETER'S CHURCH AND SCHOOL HISTORY

The first St. Peter's Church building was built in 1875. It was a white frame building and was located on Avon-Belden Rd. (now Rt. 83) near the current fire station.

This church burned down on January 15, 1914.

The present church and rectory were built on Center Ridge Rd. in 1923.

The first St. Peter's School was built in 1910, although students met before this in the Old Town Hall on Center Ridge Rd.

The school that was built in 1910 became too small and was torn down in 1962 and replaced by the current school building at the same location.

After fire destroyed the first church building in 1914, church services were held in the school until money was raised to build the new church in 1923. The new church was located on Center Ridge Rd. where the school and cemetery were already started.
