

## Firing up for firearms facility

Marilyn Kiestler/the little sentinel

Construction of Winter Park's firearms facility began last week at the city's 2½-acre site off Temple Trail. It is expected to be completed in July. The facility is being funded by Orlando's \$150,000 state grant from the Florida Police

Standards and Training Commission. The structure will measure 125 feet long and 84 feet wide. Unable to locate an acceptable site in Orlando, that city's officials decided a site in Winter Park would be the next best thing.
