

9-28-89
Free smoke detectors? That's what the Winter Park Fire Department is offering residents who are elderly, handicapped or cannot afford to buy one.

Chief Fire Marshall Steve Painter said that detectors purchased by local businesses will be handed out until none are left; about 75 have been installed since the program began in March.

By the way, Oct. 8-14 is Fire Prevention Week. Might be a good time to survey your home or business for possible fire hazards.
