

# **The OMG Replicability Roadmap**

**Please note:** OMG's Replicability Roadmap is a proven system. It takes work to learn the system, and work to run the system. And then the results are reliable as they are astonishing!

## Elephant in the Room Webinar of the Century!

**THE REPLICABILITY ROADMAP** is based on the method that Greg Morrison used to go from working a day job and struggling to make ends meet, to becoming a multi-millionaire.

First Greg made one website. That website generated lots of valuable web traffic. Greg then replicated that website again and again, day after day and night after night. He called these websites OMG Machines. OMG for One Man Gang, because Greg has no employees, yet his skills give him the power of many. Machines for the way these sites spit out money like an ATM.

As Greg made millions he showed a small underground group of individuals that we call OMG'ers his system. But there's a twist. Because Greg didn't just show the finished results. Instead Greg started from scratch and built a brand new highly profitable OMG Machine website, and recorded every mouse click and every keystroke. That gave OMG'ers the edge to get started and have wild success.

Does the Replicability Roadmap still work today? Yes! As good if not better than ever. Here's today's OMG Replicability Roadmap:

# Step 1: Millionaire digital marketing agents Greg Morrison and Joe Marfoglio just created a brand new OMG Machine website

That site (which we will reveal on our OMG State of Digital Marketing 2019 webinar - <https://omgmachines.com/webby>) now generates web traffic valued at \$10,000/month to \$40,000 per month according to independent web research firm SEM Rush.

Members of our OMG program follow Greg and Joe's training, and are able to ask Greg, Joe and our team questions, and they are now replicating Greg and Joe's site like crazy. Our members are using these OMG Machines sites to make money in 3 multi billion dollar market places.

Many OMG'ers are digital marketing agents getting paid \$1000/mo all the way up to \$30,000/month PER CLIENT in the lucrative Search Engine Optimization (SEO) Services industry that's worth 80 BILLION dollars in the US alone!

SEO boils down to the skill of being able to bring web traffic to a website, organically from the massive Google search engine - the biggest source of targeted traffic in the world.

Aaron is an example of an OMG'er who makes his money with clients as a highly skilled OMG powered Digital Marketing Agent. He sent in this earnings report last week:

Aaron went from living in a 600 square foot house to 3000 square foot house, from driving one old car to now driving 2 new ones, and from struggling to a 6-figure per year income!

So this ride has been wild since joining OMG.

- Moved from a 600 square foot house to a 3,000 square foot house
- Went from driving an older used vehicle to driving two newer ones
- Went from earning under 50k to earning over 100k
- Went from traveling rarely to doing business in multiple states, often needing to fly and stay in amazing beach front resorts for business meetings, meeting successful businessmen and getting amazing mentoring and insight
- Went from having a decent understanding of digital marketing to a track record of proven success where I know I could thrive in any niche and building success in a couple new ones as I write this

Had the first experience of a six figure contract (six figures of profit)

Went from the newer bigger house to selling it all and hitting the road full time traveling the country with my family.

I'm now sitting outside my rig with having seen 18 states in the last year, spending time with family and friends I had not seen in years and about to party for a week with other full time travelers while I take a week off and reflect and prepare for another year on the road.

OMG was certainly a big turning point in my life, and I will be forever thankful for the seeds it planted.

Thank you to all the coaches for putting yourselves out there and pushing us to be more.

# Marketplace #2

Many OMG'ers are affiliate marketers, where they sell other people's products without ever paying for inventory or having to do any of the customer services. That's almost a 7 billion dollar industry.

Ryan is an example of an OMG-powered affiliate marketer. Ryan sent in this earnings report two weeks ago - he now makes around \$30,000 per month, 80% profit as an affiliate:

# Marketplace #3

Many OMG'ers are ecommerce sellers, taking part in the vast 400 billion dollar per year plus ecommerce industry.

Retail e-commerce sales in the United States from 2017 to 2023 (in million U.S. dollars)

We got an example of an OMG'er who's using ecommerce William Smith, who let us know in January 2019 that went from working a 9-5 job to now making as much as \$40,000 per month with ecommerce:

**Please note:** William ALSO has clients that pay as much as \$6000 per month for SEO services - because MANY OMG'ers do 2 of our 3 methods, or even 3 of 3!

# How the Replicability Roadmap came to be

This roadmap is so effective because it's designed by OMG President David Mills who's a world class strategist and accelerated learning expert. David hand-picked Greg, Joe and our whole OMG team, and put them in the perfect position to help our members thrive! Which is why they have such incredible success - like you can see on our members success instagram: [Instagram.com/poweredbyomg](https://www.instagram.com/poweredbyomg)

David Mills

Under David's guidance OMG has become a MOVEMENT. At OMG we say you build or you beg. You beg for grades, for jobs, for raises or just not to lose your job. Or you BUILD something of enormous value that can make you wealthy! OMG'ers have become so passionate that several have gone to the length of getting OMG themed Tattoos!
