

ADDENDUM NO. 3

DATE: 2018-07-04	TOTAL PAGES 2 Pages +
TO: All Tenderers	Excel sheet
RE: Greenwood Street Improvements City of Greenwood: 2018-T01	

Tenderers are advised that Addendum No. 3 is hereby issued. This Addendum forms part of the *Contract Documents* for the above referenced tender.

Tenders are responsible for acknowledging receipt of the Addendum by entering this Addendum number into the Form of Tender.

1. Precedence

This Addendum shall form an integral part of the *Contract Documents*. This Addendum shall take precedence over all requirements of the Tender Documents with which it is in variance, unless otherwise qualified by way of a subsequent Addendum.

2. Purpose

The purpose of this Addendum is to:

Respond to questions from tenderers and to provide the Schedule of Quantities and Prices in Excel format.

3) Questions and Responses

A) Question: Item 4.02 25mm Granular Road Base (Install Only – Supplied by Owner) – Is the owner delivering the gravel to the point of placement as and when required?

Response: A stockpile of gravel is in Greenwood, approximately one block south of the project area, east of the highway. The Contractor will be expected to load and haul from the stockpile location to the project area for placement at the project site. Should additional granular road gravel be required, the City will make it available to the contractor, at a site within Greenwood.

B) Question: Some of the works take place within the Highway 3 right of way. Is a permit required for this work? Has one been obtained?

Response: MOTI is aware of the work but have not yet issued a permit for the work. The Contractor will need to obtain approval, from MOTI, of a traffic management plan.

C) Question: Items 5.19 and 5.20 do not specify the size of the couplings.

Response: Items 5.19 and 5.20 are for all sizes / all types, as identified in the tender drawings.

D) Can we get a copy of the tender form in an Excel format?

Response: For convenience, the Excel file is attached to this addendum. Neither the City of Greenwood nor WSP Canada Group Ltd. guarantee that it is an exact representation of the Schedule of Quantities and Prices which was included in pdf format in Addendum 2. Tenderers are to satisfy themselves that it is appropriate and must accept all responsibility for the use of the excel file, where it may later be shown to be in contradiction to the pdf version. Formulas have not been included within the spreadsheet.

E) Question: Will other types or models of fire hydrants be acceptable?

Response: The City will not accept an alternate make or model of fire hydrant.

END OF ADDENDUM NO. 3
