5. Note; Only two camp sites were not renewed for 2018
6. The following is not a firm plan yet. It has not - and may not - be presented to the Board. It is here for comments only. Please reply if you have an opinion.

At present we have three double sites (two trailers on one site). They are #12, #60 & #71. These sites pay one & one half times the annual rate (\$1575 for 2018).

I am considering asking for approval to classify about six more sites as double sites (when they become available - no one will lose their site over this issue). Or perhaps two existing friends or family members want to combine on one of their existing sites. These would not be set up as 'time share sites' with different tenants using them at different times, but would be like the existing designations where two generations (or components) of the same family camp together but live separately. I hope my intent for these sites is clear. Approval would not be automatic but would be subject to individual assessments as to the size of the lots. This would help us increase our revenue without increasing rates and would help reduce our wait list.
