880 Maple | Matched to Behr® Flowing Breeze™

600 Maple | Matched to Sherwin-Williams® Stop™

745 Maple | Matched to Sherwin-Williams® Vital Yellow™

Get the color you want. Even if it's not in our catalog.

Sometimes, you want a color that's a little different. Now, when that's the case, you don't have to compromise. We'll match an array of Behr®, Benjamin Moore®, Sherwin-Williams® or Valspar® paint colors.

Once you have found a color that works for your space, lighting and personal style—we can deliver that color in a One Two One™ cabinetry kitchen.

Brighten the mood of your kitchen.

A bright, sunny accent. An unexpectedly bold choice up top, with a neutral below.
Or vice versa. Even a little splash can transform a room.

With One Two One™ cabinetry ColorMatch™, you can play with even more paint
choices for mixing and matching.

755 Maple | Matched to Valspar® Smoke Infusion®
Island & Hood: 755 Cherry | Slate

Pops of color. Punches of color. Every room could use a little personality.

A parameter of light green wall cabinets creates a warm accent to the space. These elements nicely complement our Slate hood and island, while the wood-grain floors anchor the space with deeper hues.

890 Maple | Moonshine ISLAND: 890 Maple | Matched to Benjamin Moore® Apache Red*

Friends and family will know they've come to the right address.

"It's so you," visitors will tell you when the room displays your signature style. For example, this burgundy transforms the island from a piece that's merely functional to a room-defining statement against the backdrop of our Moonshine cabinets.

600 Maple | Matched to Benjamin Moore® Pumpkin Spice* BASE AND PARTIAL WALL CABINETS: 600 Maple | Onyx

When you're picking vibrant colors, the slightest tint makes a big difference.

A wider selection means you can find the right one. Here, a warm shade of orange pairs with our Onyx paint for a contrasting-yet-complementary color scheme.

Built for a lifetime. Premium performance is essential. Not extra.

Everything we build is designed to withstand daily wear and tear—and that includes ColorMatch™ paints. Same high standards. Same craftsmanship. Same Premium topcoat Finishing System, to protect against whatever comes their way—sloshing drinks, spilling food, slamming into the doors, and whatever else you warn the kids not to do.

How to order a One Two One™ cabinetry ColorMatch™ Kitchen.

Step 1: Order A Sample Door

Before ordering the full kitchen, we require customers to order a sample door. That way, you see the paint and door style in the space to make sure you're happy before you commit. You can also get multiple samples to compare colors or doors.

To order a sample, talk to your One Two One™ cabinetry designer today!

Step 2: Review The Sample

Review the sample at home in various lights. In the event there's a question about whether the sample matches the selected color, talk to your designer right away.

Step 3: Place An Order

You will have six months to approve the door and place your full cabinet order.

Important!

Talk to your One Two One™ cabinetry designer about options for finishing the look!

Basic Finished End

This skin option will match the color, but not the door style—a nice, straightforward solution.

Matching End Panel

Simple and easy. Matches your door style and covers the whole side of the cabinet.

Basic Finished End with Replacement Door

This look provides more detail and matches to the door style chosen.

Integrated End

Both the front and side of the cabinet will show the door profile, as a decorative door is built into the end panel of the cabinet.

Operational End

A fully functioning door on the end of the cabinet will match, and give full access from either side.

620 Maple | Matched to Valspar® Heirloom Red* BASE: 620 Maple | Pebble Grey

Now One Two One™ cabinetry can say “yes” to more color.

ColorMatch™ means the entire One Two One™ cabinetry catalog is available in a vast selection of colors and shades and variations. It's a big deal: One Two One™ cabinetry in the color you want.
