9 HELPFUL TIPS

How to work with your designer

1. Scope it out

Is your project a style refresh or a complete remodel? A rule of thumb for a typical kitchen renovation is 5-15% of home value.

2. Start dreaming

Capture your ideas and the basic parameters of your space. Don't worry about specifics. We'll help with that.

3. Let's talk

We think every great design begins with a great conversation, so we always start with you.

4. Just start

The first step is just that—one step. We'll work together to refine the design to fit your style, your life and your budget.

5. Be open to ideas

You have ideas. So do we. You'll love what happens when they come together!

6. Keep an eye on the future

Life happens. We can design a space to flex with your family.

7. Remember what matters

Timeless style? Maximum storage? Future resale value? Keep your main objective top of mind.

8. Think beyond the kitchen

Bringing a few similar elements into the mudroom or guest bath can create a cohesive feel throughout your home.

9. Enjoy the journey

Keep it fun! After the dust settles, you'll have a beautiful new space to enjoy!
