

## EPA - TOC VIALS AND CAPS

- > LABMARKER EPA - TOC Vials are manufactured to be suitable for all conventional devices in the market.
- > All types of EPA Vials can be delivered with a small surcharge together with a certificate of cleanliness that might especially be needed for TOC analysis.
- > EPA Vials can be obtained with any type of Screw Seal ND24 preassembled.
- > Broad range of EPA Vials available in both clear and amber glass.
- > Volumes of 20ml, 30ml, 40ml and 60ml available.
- > Ready to use combination seals; with no time consuming for assembly.
- > No contamination of the liner with sweat/fat that normally is caused by manual assembly.
- > Wide range of septa materials for almost all applications.

Labmarker Chromatography Vials are packed in Cleanrooms and we guarantee this high hygienic standard. Additionally, tamper-proof evidence is given by the shrink-wrapping of the PP-box. Their cover enables reclose ability in order to avoid further contamination.

The zip-lock PE-bags with the tear-off foil strip for our seals with regard to tamper-proof evidence and reclose ability. Printed batch numbers on each zip-lock bag guarantee traceability.

LABMARKER is an ISO 9001:2015 certified company.  
Batch numbers guarantee a 100% traceability.  
Pre-sealed and pre-installed combinations available on request.  
Barcode labelling.
