

SEROLOGICAL PIPETTES COLLECTION

PRECISION BRINGS
PERFECTION

LABMARKER serological pipettes are designed to be used with most electromotion pipette controllers and manual pipette pumps. With medical grade polystyrene and easy to read graduations, to be calibrated on accuracy $\pm 2\%$. Preferable each pipette contains a filter plug to prevent particle cross contaminations.

- > USP level VI Polystyrene material
- > Bidirectional graduation and negative graduation improve the accuracy
- > Lot number is printed on packaging for easy tracking

Ordering Information

STERILE R

Cat. No.	Product Description	Unit per bag	Unit per case
11440011	Pipette serological disposable, polystyrene, sterile, 1mL, graduated, individually wrapped	100	1000
11440021	Pipette serological disposable, polystyrene, sterile, 2mL, graduated, individually wrapped	100	800
11440051	Pipette serological disposable, polystyrene, sterile, 5mL, graduated, individually wrapped	50	300
11440101	Pipette serological disposable, polystyrene, sterile, 10mL, graduated, individually wrapped	50	200
11440251	Pipette serological disposable, polystyrene, sterile, 25mL, graduated, individually wrapped	50	200

Labmarker Serological Pipettes

Our cost-effective portfolio of serological pipettes features a full range of size options offering the quality, accuracy and performance for today's scientists that require during cell culture research.

- Accurate, 100% polystyrene for maximum clarity with plugged and sterilized
- Gamma Sterility assurance level (SAL) of 10⁻⁶
- DNase-free, RNase-free, non-Pyrogenic
- Bold graduations with easy-to-read scale markings
- Color-coded packaging
- Individually wrapped; paper; peel or pop through for easy opening
- Bulk packed for frequent use to reduce packaging waste
- Multiple sizes for wide range of applications
- Choose multiple sizes, ranging from 1 mL to 25 mL
- Comes with certificate of sterility
