

Medical Waste Management

MEDICAL WASTE MAILBACK SOLUTIONS

Helping medical professionals cost effectively manage their medical waste with mailback solutions.

No Contracts, No Monthly Minimums Required

Being locked into a long-term contract for medical waste disposal that charges you whether you fill the containers or not is expensive and takes away your ability to control costs. With Medical Waste Management mailback solutions, there are no contracts, no hidden fees, and no surprises. One low price includes the cost of the container, shipping and waste disposal service.

Maximize Your Savings with Mailback

By using mailback solutions for your medical waste disposal, you are able to keep your costs low by only sending in your containers for disposal when they are full. Buy as many as you need and send them off for disposal on your schedule.

OnTraq

Medical Waste Management mailback products come with OnTraq, an online tracking, compliance and account management tool. OnTraq reduces the risks, headaches and costs associated with medical waste management. It dynamically shows what sharps products you have active and those that have been returned for disposal. Rely on OnTraq for 24/7 access to your digital waste processing certificates and task management tools.

Different Sizes Available for Your Practice

Choose the size of containers based on the needs of your practice.
