Rules we follow and Tell other to follow-Strictly. This Leads to good growth in long run.

- 1. We don't STRESS OURSELVES to be right or wrong. We only wanna make money
- 2. We don't chase stocks, we will wait for right entry and exit
- 3. Losses are normal. However, controlling the losses is key. Eat (profits) like an elephant and poop (losses) like a bird
- 4. Each of you need to have a goal and work towards it.
- 5. There's always another opportunity. Don't chase the price
- 6. If you have large position sizes, you could take profits earlier than suggested exit. TAKING SOME OF THE TABLE never hurts anybody and let. Remaining run the course.
- 7. Don't let personal ego come in the way of trading. End of the day, you gotta make Money. Ego won't fetch you money
- 8. Don't do revenge trades. For example, if you lost money in AAPL, don't try to make money in AAPL again by taking multiple trades. Just LET GO.
- Last but not least ..BE DISCIPLINED and NEVER LET LOSING TRADE go longer than needed 👍👍
