

Recycled Material Birdhouse

My Cubmaster keeps telling me a Cub Scout is Thrifty. Now is your chance to prove these Cubmasters correct. Time to think out of the (wooden) box and Recycle, Reuse and Repurpose. Your mission, if you choose to build it, is to build a birdhouse from unused items from around your house and yard. What can you do with those tin can, plastic jugs and old shoes? I am surely curious...

Below are ideas found on the internet. Let's see what you can come up with...

Plastic Jug and Paint

Old Milk Carton

Plastic Coffee Jug

Old Tea Tin

Tin Can and Shroud

Tin Cans

Coffee Pot, Tea Pot, Gourds

Cardboard Tube or Pipe

Old Shoe

Old Ice Bucket

Cardboard Box and Paint

If you build it, they will come... Have Fun!
