

# Delaware River Watershed Protection Fund Catalyst Grants - Spring 2018

---

*Open Space Institute*

## **Project Name\***

Name of Project

*Character Limit: 100*

## **Total Grant Amount Requested\***

Amount Requested

*Character Limit: 20*

## **Total Project Costs\***

Enter the total project costs as shown on the financial summary provided below.

*Character Limit: 20*

## **Date of Application\***

Please enter the date of application submission.

*Character Limit: 10*

## **Geographic Area(s)\***

Please choose the watershed cluster(s) that are relevant to your project.

### **Choices**

Brandywine and Christina

Kirkwood Cohansey

Poconos Kittatinny

Middle Schuylkill

Schuylkill Highlands

New Jersey Highlands

Upper Lehigh

Philadelphia Region Watersheds

None

## *Project Information and Overview*

---

### **Project Summary\***

Briefly summarize the proposed project including the geographic focus, approach, audience and outcomes sought.

[*Note: This description may be used publicly if the project is funded.*]

*Character Limit: 1000*

### **Project Goals and Obstacles\***

Describe 1) the specific outcomes sought from the project, 2) how the project could advance permanent protection of surface and/or ground water resources, and 3) obstacles to achieving these outcomes.

*Character Limit: 500*

### **Geographic Area Description\***

- Please describe the geographic area that would be included in the project. Provide names for any relevant watersheds, counties, towns or ecoregions.
- Briefly describe the relevance of focusing in this geography.
- Explain how the project might develop methods or deliverables that are relevant to other geographies.

*Character Limit: 500*

### **Deliverables and Audiences\***

Describe in detail the final deliverables of the project (e.g., reports, maps, data, conservation plan, brochures, etc.). Provide the specific audiences for each of the deliverables. Detail any specific decisions or established conservation funding sources that you would seek to influence.

*Character Limit: 2000*

### **Project Methods and Sources\***

Provide an overview of the methods that you will use to complete the project. List the data, information sources and/or existing research you will use to ensure the project's outcomes will positively impact water quality.

*Note: OSI has compiled a selection of data that is available across the Delaware River Basin. Please contact [aweinberg@osiny.org](mailto:aweinberg@osiny.org) to learn more.*

*Character Limit: 2000*

### **Organizational Knowledge and Experience\***

Describe the role that water resource protection plays in the work of each organization(s) involved in the project. Briefly list any prior planning projects or reports that demonstrate the organization's knowledge about water resource protection.

*Character Limit: 500*

## ***Supporting Materials***

---

### **Roles and Partners Involved\***

Upload a list of the organizations and individuals involved in the project. Describe the roles and qualifications of each organization in a few sentences.

*(Please limit your upload to 1 page)*

*File Size Limit: 1 MB*

### **Tasks and Timeline\***

Upload a list of the major tasks and the associated timeline for completion.

*(Please limit your upload to 1 page)*

*File Size Limit: 1 MB*

### **Financial Summary\***

Using the template provided [HERE](#), upload a project financial summary showing total project costs and projected revenues. In addition, describe how your organization(s) plans to raise total project funds if they are not already in hand or pledged.

*Character Limit: 500 | File Size Limit: 2 MB*

### **Map 1\***

Upload a map of the geographic area that will be the focus of the project. Include any data layers that are relevant to the project.

*File Size Limit: 4 MB*

### **Map 2 (Optional)**

You may upload a second map of the project's geographic area that depicts data layers that are relevant to the project.

*File Size Limit: 4 MB*
