Introduction

Ouse and Cherwell Trading Company has been established for 50 years with experience of trading as a non-profit, Member owned Agricultural Buying Group.

We offer a purchasing and accounts administration service for farms, rural and agricultural based businesses using quality industry professionals.

We work alongside your farm office for purchasing your essential agricultural requirements by negotiating very competitive prices. We offer a highly professional service with experienced and friendly staff.

The Office is based in Brackley, Northamptonshire where we take away the administrative hassle from your farm or estate office by processing all invoices and bank payments on a monthly basis.

Ouse and Cherwell act as the agent and not principle in all transactions between its Members and suppliers. We do not add a levy to supplier prices but simply charge a small monthly fee for our services.

About Us

Our History:

Ouse and Cherwell originated on 1st May 1967 following the amalgamation of 48 Members from 'Ouse Valley Trading Co. Ltd' and 38 Members from 'Cherwell Farmers Co. Ltd'.

The Group was established by six local farmers as they were disgruntled with the situation of purchasing their main farm supplies and thought they could do better - strength in numbers! This was a common theme of the time as the 1960's were a boom period for farmer owned co-operatives and buying groups to be established.

In the early days of trading, the site at Manor Road, Brackley also incorporated a retail shop. This was stocked with a wide range of both domestic and agricultural goods from groceries, toilet rolls, work wear, boots and wellies to washing powders, dog food, protective clothing, ropes and buckets. The Board of Directors back in the 1960's did their bit to cover staff holidays to ensure the shop stayed open! It was a very popular place on 'payment days' when the Members brought in their monthly cheques they would then take advantage of the shop and start their account for the following month!

Since those early days we have now grown to 320 Members from large country estates, contract farmers and small holdings.

Where we are now:

We are run by a Board of ten Directors including a Chairman and a Finance Director/ Company Secretary who are all farming Members.

- All Board Members are elected by the Membership.
- Each Member owns an equal share in the Company.
- We are non-profit making with any surplus (after operating costs) either retained to develop services to shape the Group's future or returned to the Membership.
- We cover a large geographical area encompassing Northants, Oxon, Bucks, Warks, Beds & Glous, although we do have Members further afield and our services are always open to clients outside of our current locations.
- With our current Membership, our turnover is in excess of £25 million.

How We Operate

With our combined Membership numbers, we are able to develop strong negotiating powers with our preferred suppliers. This gives better terms and discounts for our Members. For certain commodities we also negotiate extended payment terms, especially where usage is seasonal. These offers are communicated to the Membership via our monthly newsletter, website or text messaging service.

Members can either liaise directly with the Office or with suppliers for their requirements.

Suppliers record your Membership details for all orders and send invoices to the Ouse and Cherwell Office for processing.

Each invoice is coded by commodity type which can help you in assigning the expense to the relevant cost centre.

A monthly statement is produced and sent to Members by post (and email if required) together with all the original invoices and credit notes from the previous month's transactions. No levy is added to the invoices by the Group and payment is taken by direct debit.

Members are charged a monthly subscription within their statement.

We produce a monthly newsletter which is either emailed or distributed with the statements giving details of best buys, new suppliers, market trends and other relevant information.

New Members receive our list of Suppliers which includes both local and national companies. Up-to-date lists are always available from the website. We are constantly reviewing our supply base and welcome suggestions from Members for new suppliers and if commercial terms are agreed, will add these to the list.

Topical and subject focused Members meetings are held where Members are invited to listen to industry experts on topical matters.

A mobile phone text messaging service is operated from the Office to the Members when supplier offers require a same day response.

All information is continually updated on the website.

Features and Benefits

1. Nominated Suppliers with Preferential Prices and Payments Terms
As a Member you will have access to all Ouse & Cherwell's suppliers (both national and local). To either use as an individual or benefit from bulk negotiated terms. As so many farm input costs fluctuate on a daily basis (for example fuel and fertiliser), these orders are placed from the Office to gain the best price on the day, to suit your requirements.
2. Simple Accounting Procedures
All purchases during the month are charged to your Ouse & Cherwell Account and then processed by our team. Each month a statement with your spend is produced which is itemised and sent together with all original invoices.
3. Effective Invoice Querying
There is a time window to query any invoices. Any account queries can be discussed with the Office for effective resolution and issue of credit notes.
4. Simple Payment Procedures
One single monthly payment is taken by direct debit thus saving multiple payments and bank charges. Ouse & Cherwell then process payment to suppliers on your behalf.
5. Balanced Approach to your Purchasing
At Ouse & Cherwell, we do not insist on total commitment for all purchases. We recognise that long standing loyalties still count for something and you have the freedom of choice. That said, the more volume which goes through The Group the better our leverage becomes.
6. Monthly Newsletter
Every month we produce a topical newsletter which includes updates on commodity prices, market conditions, news on suppliers and deals/offers for the Membership. We also have an ever growing classified section for Members to advertise foc.
7. Ouse & Cherwell Website
Our website is regularly updated with news, views, industry updates, supplier offers and whats on. These are mostly contained within the secure Member's Area.
8. Mobile Phone Text SMS Service
We provide a mobile phone text service (when necessary), where news from the market or suppliers requires a more immediate response.

It should be noted that Ouse & Cherwell act as the agent in all transactions and not as principle. We do not add a levy to supplier invoices but charge a flat monthly fee for membership.

How to Join

We always welcome new Members. If you would like to benefit from becoming a Member, our contact details are below:

- * Contact the Ouse & Cherwell Office on 01280 703497
- * email office@ouseandcherwell.co.uk

Please fill in the application form (with this pack) as fully as possible. The better quality information, the easier we can steer you to higher savings.

A member of our Team will ensure that any enquiries are followed up promptly and a meeting arranged on your farm to discuss the features and benefits of Membership.

You will be invited to visit the Office to meet the Office staff and Directors for a formal discussion.

The prospective Member and The Board will then come to a decision as to whether membership is appropriate.

Upon joining, each new Member receives notification of their Membership number, our list of suppliers, and access to the Member's Area of the website once registered. Regular contact is maintained during the first few months to ensure everything is working.

Endorsements from a few of our Members

"When we embarked on a building project, we found the Ouse and Cherwell Trading Group to be invaluable in sourcing our requirements at competitive prices and ensuring prompt delivery of a wide variety of goods".

Bullinghope Ltd

"By trading through Ouse and Cherwell, I have peace of mind that goes with knowing that prices will be competitive and that the service will be first class because I have the buying power and full support of the Group behind me. My main purchases are fuel, fertiliser and agrochemicals but the convenience of being able to buy other goods from a wide range of local suppliers, without having to worry about maintaining separate accounts is invaluable".

W A Hilsdon & Son

"We fully support the O&C Co-operative which helps us achieve better purchasing power and benefits us as Members. Contacts are very helpful at all times and we are pleased to be part of this set-up".

Stephen Davies, Accountant, Tusmore Park Farm Ltd

"Ouse and Cherwell is an essential part of our farming operation. We have been Members for about 50 years. We have complete confidence in the staff sourcing the products we use. This saves us a lot of time and our membership is more than repaid".

Ian Cherry

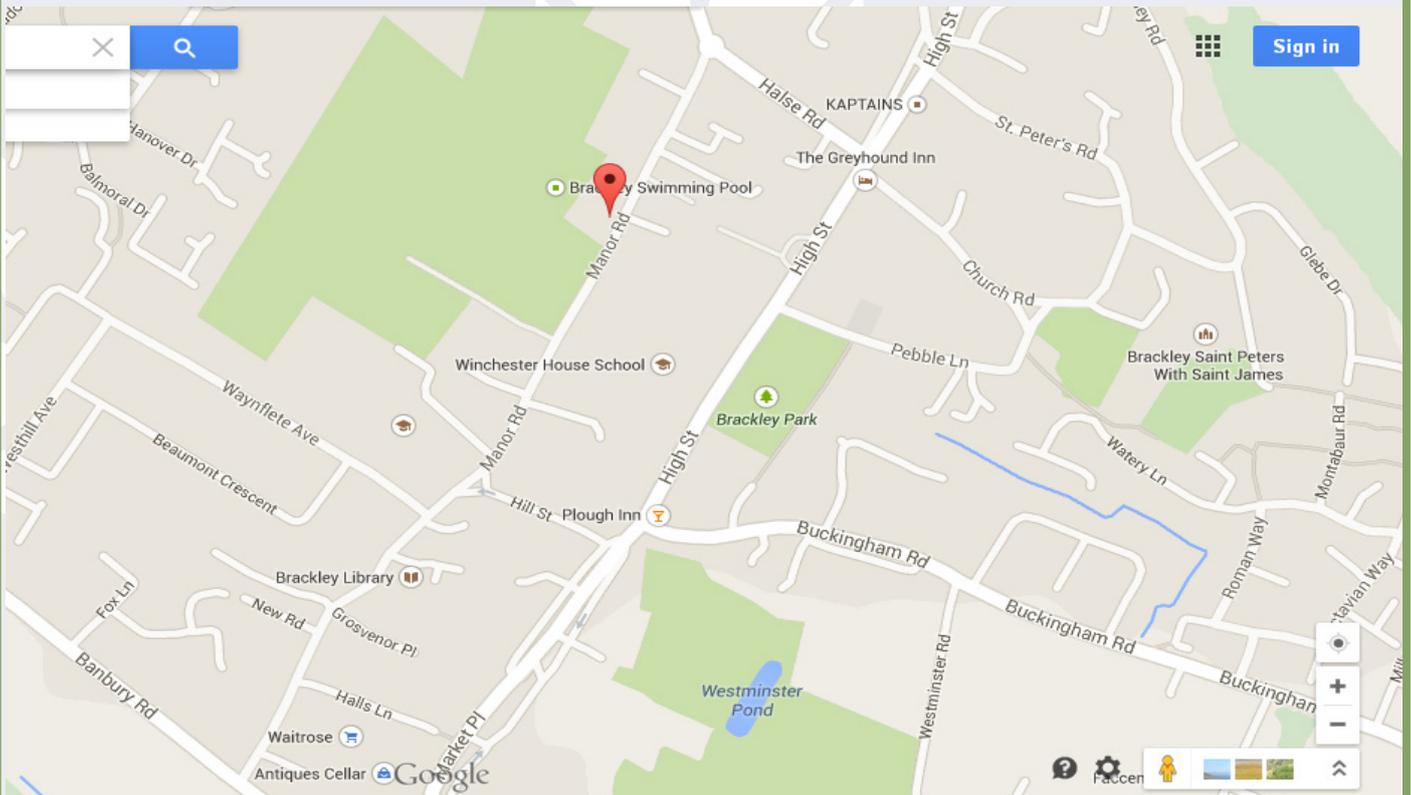

"Since becoming a Member of Ouse and Cherwell, we have saved time and money as we no longer have to chase prices and their buying power means cheaper goods and services. The Group is efficient and well run and we are very happy to have joined".

H B & L J Lear

"Since joining Ouse and Cherwell Farmers Buying Group, the savings in central heating oil, road diesel and tractor diesel have easily paid for the membership and more. The cost of agrochemicals on our farm has also been reduced through the best deal policy run by Ouse and Cherwell. Thank you to all the team and we look forward to many years trading as Members".
