EXPERIENCE

OneTrust
Implementation Consultant
Atlanta, GA
June 2021—June 2022

- Implemented software and provided insight to help clients solve their GRC, Vendor Management, and Privacy needs according to privacy laws/regulations and InfoSec standards/frameworks
- Directly interfaced with clients and communicated complex ideas to gather and define requirements, identify solutions, and implement recommendations
- Managed 95 concurrent projects with a customer satisfaction rate of 100% and an average personal billable utilization rate of 70%
- Advocated for clients by representing their product gaps and enhancement feedback to Product Owners with a focus on steering the product roadmap

Herring Renovations
Project Manager
Roswell, GA
2020—2021

- Designed and implemented digital tracking system in Python for tracking mileage. Time saved equaled ~40 hours/year for income production and tax savings approaching $1,600 annually
- Created and managed project budgets of $25,000+ while working with customers to keep change orders within 10% of original budget

Panasonic Automotive
Engineering Intern
Peachtree City, GA
2019—2020

- Coordinated with automotive manufacturer and Purchasing Department to quickly develop software tool using python which automated sorting and indexing of ~8,000 units, reducing time of 1 minute per unit to 15 seconds
- Performed hands-on technical tests on radio head units by examining vital components of hardware
- Researched and implemented black-box, automated quality assurance testing software including Eggplant AI, Eggplant Functional, and Selenium
