EMBROIDERY

IN-HOUSE, STATE OF THE ART EQUIPMENT

Eliminate the stress, cost and time from depending on a third party for your embroidery. Our in-house embroidery provides complete control of custom orders in a timely manner with exceptional value, quality, performance and service you deserve!

- ★ No job too small or too big. We offer quantity discounts on large orders. From shirts to hats to bags, we can embroider your artwork on many different items.
- ★ We can match existing artwork or help create new designs. Provide us with your logo and we will take care of the details!

"The embroider work is some of the best I have seen, and being in the foothills of Appalachia we were even more surprised with the finished product. We have a uniform shirt that our staff is proud of, and represents the new look we were hoping for."

CONCEALABLE SOFT ARMOR INSERTS

Traditional | FURY

The FURY panel answers the call for traditional cut concealable ballistics. The FURY is offered in custom sizes in any of the armor packages. In addition, standard sizes are also available: XS, S, M, L, XL, 2XL and 3XL.

Advanced | 4PV

The 4PV panel system is the armor inside the revolutionary 4PV concealable vest. Standard sizes are also available: XS, S, M, L, XL, 2XL and 3XL. This panel is compatible with the 4PV and 4PV-TAC carriers.

CONCEALABLE BODY ARMOR

FURY (Traditional)

This low visibility concealable carrier system is ideal in environments where discretion is necessary when protection is needed. Fabric technology combined with the design of the vest helps maintain a cool temperature and reduce odor for the wearer. This carrier is suited to adapt to the most extreme environments for an extended period of time.

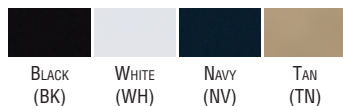

ADVANCED 4PV CARRIER

Fully modular, highly adaptable and comfortable while keeping you protected.

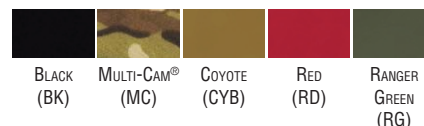

4PV (Advanced)

The advanced 4PV includes the same fabric technology as the FURY. Unlike typical vests the four panel construction allows one to use the vest for its full life expectancy. The configurability of the vest can adapt to changes in an individual's body shape.

4PV-TAC CROSSOVER COVER

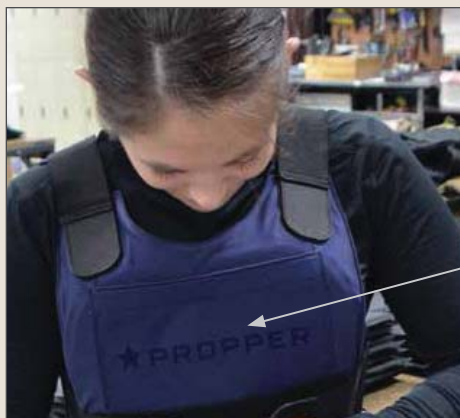

Allows users who are already issued a 4PV concealable vest to run the same armor in an overt application.

CUSTOMIZATIONS

Concealable covers can be customized with laser-engraved art provided by you. Customization include badges, patches, and unit designations.

- **Penetration Test:** Lenses capable of resisting penetration by a weighted needle with a total weight of 44.2g dropped from a height of 127cm.

PROTECTIVE EYEWEAR

LENS OPTIONS

Clear Lens

Ideal for indoor and low light activities/conditions.

Tiger's Eye Lens

High contrast lens. Blue Filter properties reduce eye strain and fatigue while increasing depth preception.

G-15 Lens

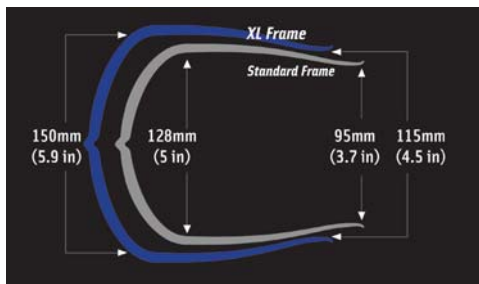

Perfect lens for a variety of bright conditions. This lens provides contrast and image definition while offering a cooling sensation to the eyes. Designed for U.S. Air Force to maximize transmission of light at 555nm (green | yellow light).

Polarized Black Gradient Lens

Provides the perfect all around tint for shading in normal light conditions. The addition of a polarizing filter increases clarity by reducing glare.

**Available for the Blade Runner and Falcon eyewear.*

THE FIT

XL [WIDE] FIT

Larger wider frame to fit comfortably for larger head sizes.

**Available for the Blade Runner.*

THIN TEMPLE

Thin temple frames provide comfort and functionality by eliminating head pinch and allowing noise canceling and communication headsets to maintain their seal around the ears. **Available for Falcon eyewear.*
