Game Changer

Much has gone into the design and engineering of our new generation of the popular Chesapeake Class pilot boat. We started with the proven C. Raymond Hunt Deep-V hull and incorporated an interceptor trim-control system and steerable pod drives to provide more comfort, increased maneuverability and higher speeds – all while burning 25% less fuel.

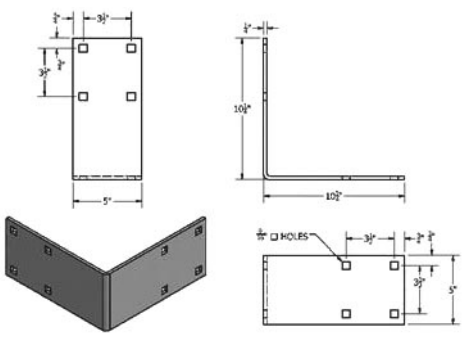
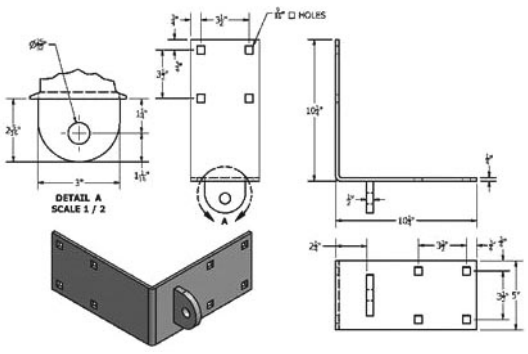
WOOD DOCK HARDWARE

MADE WITH 1/4" HIGH STRENGTH STEEL THEN HOT DIPPED GALVANIZED



Outside Corner End (H-OCE) is used at the ends of fingers, ends of dock or for swim platforms.

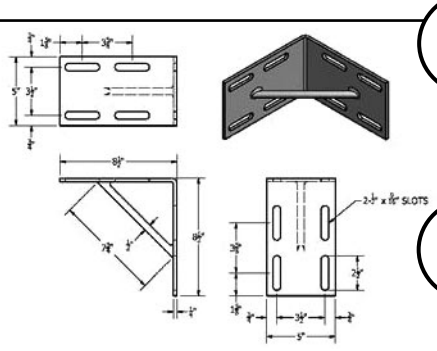
H-OCE Ship#7 $12.98



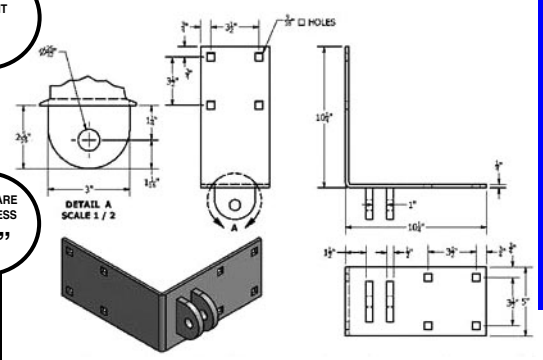
Outside Corner Male (H-OCM) has one 1/2" tab and a hole for a 3/4" bolt or B-PIN. Would be used with an Outside Corner Female (H-OCF) or with a Single "T" Female (H-SF). **H-OCM** Ship#8 $18.71

HARDWARE HEIGHT 5"

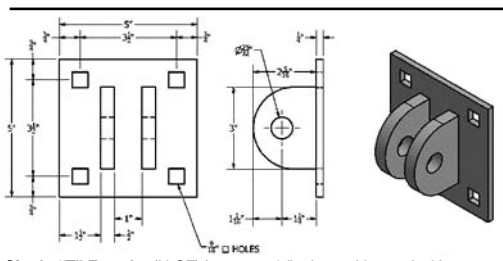
HARDWARE THICKNESS 1/4"



Inside Corner (H-IC) has slots and can be used with 1-1/2" - 3" thick wood. The inside corner sandwiches the wood between the opposite outside corner, keeping bolts from burying themselves in the wood. A corner gusset gives the unit a lot of strength and helps from racking the dock. **H-IC** Ship#7 $13.95

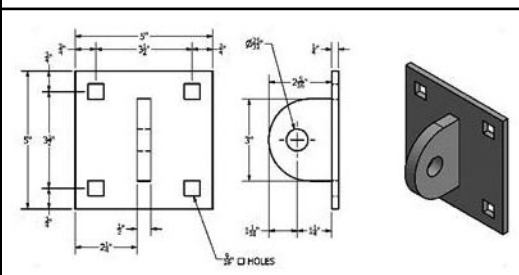


Outside Corner Female (H-OCF) has two 1/2" tabs and a hole for a 3/4" bolt or B-PIN. Would be used with an Outside Corner Male (H-OCM) or with a Single "T" Male (H-SM). **H-OCF** Ship#9 $22.23



Single "T" Female (H-SF) has two 1/2" tabs and is used with an Outside Corner Male (H-OCM) or a Single "T" Male (H-SM). Both male and female singles can be bolted to the side of a dock to make finger attachments. They can also be bolted to seawalls to make ramps.

H-SF Ship#4 $13.04



Single "T" Male (H-SM) has one 1/2" tab and is used with an Outside Corner Female (H-OCF) or Single "T" Female (H-SF).

H-SM Ship#3 $9.22

WOOD DOCK HARDWARE

Merco Marine is a manufacturer of boat dock building components and accessories. We were established in 1979. Everything we manufacture is made in the United States, with US Steel, and US workers.

The products shown here are only a small portion of the over 2000 items that we manufacture and keep in inventory for boat dock building and marinas.

For a complete list of our products check us out on the web at www.mercoboatdocks.com or give us a call at 304-737-3006. You can also request a free copy of our 65 page catalog.

Merco Marine can provide simple parts and pieces for your small pond or lake dock to build on site, or we can build entire marinas from start to finish.

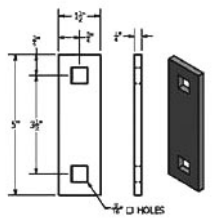
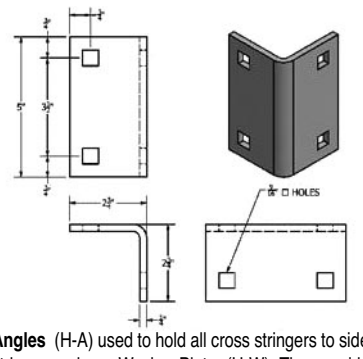
WOOD DOCK HARDWARE

MADE WITH 1/4" HIGH STRENGTH STEEL THEN HOT DIPPED GALVANIZED

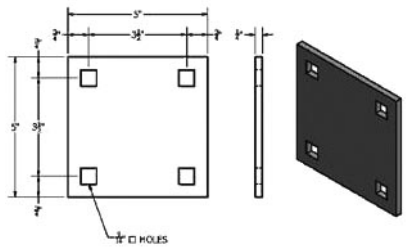


Washer Plates (H-W) are used mostly with Angles (H-A) and Cleat Angles (H-CA). The square hole in the plate keeps the carriage bolts from turning when the bolts are tightened.

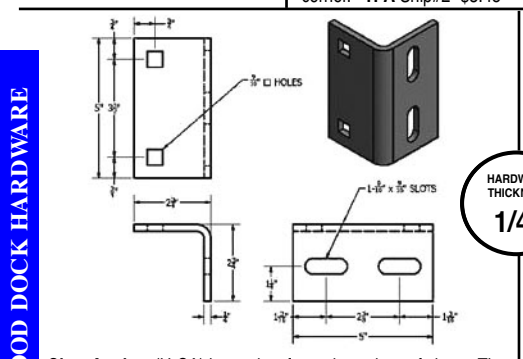
H-W Ship#1 $1.24



Angles (H-A) used to hold all cross stringers to side stringers using a Washer Plate (H-W). The wood is sandwiched between the steel and creates a solid corner. **H-A** Ship#2 $3.45

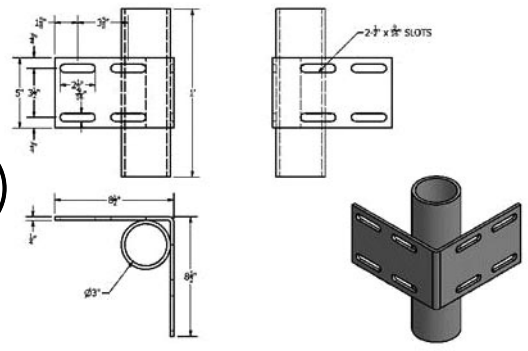


Backup Plates (H-B) are used with SIngle "T" Males (H-SM) and SIngle "T" Females (H-SF) for additional strength and to keep bolts from pulling through the wood. **H-B** Ship#2 $3.30



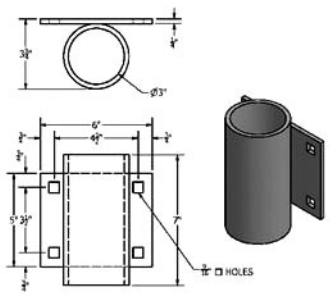
Cleat Angles (H-CA) have slots for various sizes of cleats. The cleat angle is bolted to the side stringer using a Washer Plate (H-W). The cleat is then bolted through the deck into the cleat angle. This keeps the cleat from pulling out of the deck.

H-CA Ship#2 $4.88



Inside Corners/3" I.D. Pipe Holder (H-IC3) has a 3" I.D. pipe holder welded in place. It can be used to replace a regular inside corner. It will accommodate a 2" I.D. pipe.

H-IC3 Ship#13 $26.31



3" Pipe Holder (P-3) can bolt to the side stringer and uses 2" standard pipe to anchor docks in place.

P-3 Ship# 6 $16.41

3" Pipe Holder (H-OCEP3) outside corner end with a pipe holder welded to the end. 3" opening for 2" pipe. Save money by getting 2 pieces of hardware in one.

H-OCEP3 Ship#11 $23.19

HOOP PILE HOLDERS

Our convertible Hoop Pile Holders have 3 basic pieces, a deck plate, a hoop and a roller assembly. This allows you to have a hoop pile holder the way you want it, whether it be a permanent hoop, a removable hoop or a hoop with a roller. You can use the roller assembly on the deck plate or bolt it directly to the dock. All parts are hot dipped galvanized. Add a UHMW Roller to any assembly as shown at the bottom of page 19. All assemblies include a deck plate, hoop, roller assembly, and 6 carriage bolts. Fasteners required to bolt to you dock sold separately on page 28.

STRONGER DESIGN!

Our mounting plates are 5" x 2" x 3/8" which are welded to the hoop and are used to mount the hoop to the deck plate. Our mounting plates are 33% thicker and 25% wider that most other hoop mounting plates on the market.

An easy way to determine the diameter of your existing pipe or piling is to measure the circumference and divide by 3.14. We've done the math for you with or Circumference chart to the left.

Wilson pontoons are used for pontoon boats, houseboats, barges, bridges, work boats, party boats, pumping stations –they're perfect for any application that uses pontoons. Features include:

- Molded from sturdy, medium density polyethylene (MDPE)
- **Heavy-duty:** modules have 1/4" - 3/8" thick walls and are filled with closed cell polyurethane foam for greater structural stability–Wilson pontoons will withstand greater impact than aluminum pontoons
- **Modular:** separate bow, middle, and stern modules allow for configurations of the most popular application sizes
- Rectangular collar has threaded stainless 3/8" molded inserts for quick attachment
- **Maintenance free:** no bottom painting is needed–just pressure-wash to clean
- UV protected

The M/V Deacon is an 120' x 43' all aluminum vessel designed to transport 250 passengers at 30 knots. The swath design provides dramatically better ride in high seas than a mono-hull or a catamaran vessel.

Possible Uses:

• Crew Boat • Yacht • Dinner Cruises
• Whale Watching • Research Vessel • Casino
• Military • Passenger Ferry • Seismic Vessel
• Live Aboard Dive Vessel • Dive Support Vessel

"Fishers make the most powerful and ruggedly constructed underwater metal detectors you can own"

-Jack Fisher, Founder

Rated #1 by U.S. Homeland Security

Fishers Pulse 6X and 8X detectors detect all metals, on land and underwater. Their Diver Mag 1 is a super sensitive detector for iron/steel targets and works above and below water. All are built for commercial operations and have audio and visual readouts.

Interchangeable coils for Pulse 6X & 8X make them extremely versatile.
