

MarketLife is a newsletter of MarketLife, LLC, and an Independent Affiliate and licensee of the 5050 Coop Funding platform. The most profitable investment one can make is in ones own self. Do not miss the opportunity to have less stress, be stronger, be healthier, and to age a little slower.

The \$190 Billion direct sales industry comes with various names, such as MLM, Network Marketing, Affiliate Marketing, etc. Because of the size and the nature of the beast, literally millions of Americans earn income from it. Most are very part-time, but some earn more part-time than from full time jobs. Their site is linked with a special code and these links track visitors & buyers to their site.

Mission of MarketLife

To provide a Marketing Newsletter, and a service for Independent Marketers, that will help them build long Long Term Residual Income.

Millions of men and women have a home-based business. However, approximately 97% of these independent marketers fall short of the most needed commodity in the world that will help them fund their dreams – that is money. MarketLife5050.com, is an well planned peer-to-peer cash flow system. Cash flow plus back end residual income can make a huge positive difference in ones life.

An Old Wagon Bridge

At one time this wagon bridge made history by being the longest bridge in Texas. It was part of history then, now it is history! Things so necessary 100 years ago, or even 25 years ago, may not be at all useful today. Change occurs and we are all a part of these changes. Thankfully, the really important things in life do not change. There are things in our life that are timeless, thankfully!

These are my grandchildren. The picture was taken by another grandchild.

Network Marketing - What It Is & Isn't

What It Is:

Network Marketing is a System of Making Money. It's a modern version of grass roots direct selling.

It's an important part of our past, our present and our future economy. It supports some of our largest corporations. Where there is a

In today's "gig" economy, where free-lancers make up as much as one-third of America's workforce, many lower income families struggle to stay afloat financially as they navigate constantly changing social ties and jobs that are mostly low-wage, part-time, and without benefits. All of this has taken a toll on the health and families of working-class Americans.

It's not long before its the most exciting source of income one can be part of. That's the power of the free market. This newsletter, on-line and off-line, help to keep customers happy and ordering

What It Is Not

Network Marketing is not a fad. It's not a job, you do not work as an employee.

“Fund Your Dreams Without Grants or Loans”

(If you yourself have a pressing need I suggest funding that need first. You can help others best when you yourself are strong. You be the judge of what your project is).

To be profitable a business must have leads (customers), cash flow (the quicker the better) and a product or service that generates a steady cash flow, week after week and year after year. We use the 50/50 Crowd Funding Platform. It's Fast, Fun, Fair and Compliant. And it can bring more money into your life faster!

Testimony from Paulette P.

"I have only sent out one email (9 days ago) to my close friends and family, and so far we have been so very grateful to have received 10 - \$125 DONATIONS -and- 1 - \$250 DONATION! That is a TOTAL of \$1750.00 that I have received in DONATIONS in just a week. And, as I've mentioned, I'm not the only one seeing these kinds of results!"

NOTE: In order to keep making DONATIONS - you need to re-enter the levels you are in. So, out of the \$1,750 I have made thus far, I have sent \$750 back out in DONATIONS to the people the system tells me to, for me to re-enter the 2 levels I am in - which are the \$250 level to re-enter and the new \$500 level.

So I used \$500 of my incoming donations to step up to the \$500 level, which left me \$1,000 in our savings! So initially I have spent \$250 out of my pocket to start and will continue to use our incoming donations to step up to the next level, until we are in all the five cycles offered."

You Get Half Forever

- 50/50 Crowd Funding is the worlds first Crowd Funding system that allows you to receive half of everything that happens in your matrix forever.
- It is based on the world famous Mobius Loop and the system G technology, which is the most successful 2 x 2 in history.
- 50/50 is a team Crowd Funding system that provides both help from above and below and you can receive donations seconds after registering.
- 50/50 Crowd funding is a Peer-to-Peer Team Crowd Funding System which means there is no waiting for a matrix to fill.. No middleman and 100% of all donations are immediately assigned to a beneficiary.
- 50/50 provides you with an easy to navigate totally automated dashboard that displays everything in real-time to allow you to monitor your donations second by second.
- The 50/50 system has built in safeguards that keep your Crowd Funding activities protected and the system cannot be manipulated.

50/50 Crowdfunding is fast moving, highly rewarding system. The basis of 50/50 is that we all help fund each other's campaigns in a 2 x 2 Follow-Me Matrix. All participants agree to begin by making a donation to a cause of their choice. 100% of all donations go to the causes and each donation is split 50/50 to help 2 causes.

About 50/50 CoopFunding

FUNDS FOR TODAY - FUNDS FOR TOMORROW

You can make a donation in any or all of the campaign levels in an ascending order. There are 5 donation levels \$250, \$500, \$1,000, \$2,000 and \$4,000, in return for making a donation you get placed in your own 2 x 2 matrix for the each level(s) you've made a donation. You can only receive donations from the level(s) you have donated to

It is possible to receive up to 6 donations without inviting anybody, but we strongly caution against registering if that is your intention, as it is more likely you will receive nothing.

However, by being a proactive donor and inviting 2 or more to donate, upon completion of each matrix, you will be re-entered in a new matrix under the person who invited you to possibly receive more donations.

Once you have invited 2 or more donors you will keep cycling each time your matrix fills.

JOIN US RIGHT NOW AND RECEIVE 50% FOREVER

Peer-To-Peer Funding

50% of the 2 donations from your 1st level (1 and 2) goes to you and 50% goes to the person directly above you.

50% of the 4 donations from your 2nd level (3,4,5 and 6) goes to you and the other 50% goes the person on your 1st level.

My Philosophy For Building A Business From Home

It's a simple philosophy really. It's based on experience and common sense. I trust that this philosophy of mine will help you develop your own philosophy, and from it will evolve your own pattern of work. I can illustrate "work pattern" best by looking back in history.

As Americans, we have enjoyed unprecedented growth and prosperity in the world. Our country was built by men and women of great vision. Yet most of them did not think of themselves as visionaries. Rather, they thought of themselves more as people with a purpose. In other words the vision they had grew out of their purpose. They wanted freedom, and with that freedom came the right to succeed or fail.

They worked hard and many of their personal skills developed as a result of doing things essential for survival. They took action on what was needed and hard experience soon corrected any flaws. Their plans or views were seldom complex or difficult to understand.

But, in doing the essentials, many of these early pioneers saw their hard work bear fruit and pass to the next generation. It was the vision of a much better future that kept these pioneers moving forward. We enjoy the fruit of their labor today. We call it the greatest country in the world.

Growing Your Own Economy

MarketLife uses on-line and off-line marketing to promote our extra income stream.

Millions of Americans earn part-time income using similar methods. Part-time independent businesses are the building blocks of large corporations and the strength of our economy. They are loyal to local merchants, because they are your neighbors.

MarketLife invites original human interest stories, testimonials, videos, and anything that might be of interest to the reader.

Content is important! Those who submit an article or testimonials, and if it is published online or offline, a link to your website may be inserted, and a video put online.

Crowd Funding Isn't Exactly a New Idea

The first publically recorded successful example of crowdfunding was in 1997. By 2009, crowdfunding had gone mainstream, raising more than \$530 million. Since then it has grown very impressively. Crowd Experts now puts the crowdfunding market at approximately \$16 billion.

In general, there are three main crowdfunding types: donation-based, reward-based and equity. 50/50 is a reward based co-op funding. MarketLife5050.com is an independent-peer to peer user of the 5050 platform. It can be used for any legitimate reason and is changing lives everyday.

On-line or Off-line?

Vast numbers of people are turning to Digital Communication.

Cell phones approximately 7 billion
Smart phones approximately 2 billion
Facebook users approximately 2 billion

In spite of the growth of digital communication, print and other traditional marketing avenues continues with increased favor. Tens of thousands of home-based marketers and buyers prefer the more familiar touch of print, personal contact, and telephone.

Compared to these traditional means of marketing the internet is fast and free. Yet those who market the old fashion way, with a telephone call, a friendly text message, or a note in the mail often make more money faster and with more consistency, than those who just use digital technology.

Here's the reality!

All forms of marketing can work if we use them. On-line and off-line marketing does not live in competition, they're different beasts. It's not this or that, one or the other. They are two different technologies, different tools.

Our job as business people is to pick the right tool for the job. In an increasingly digital world, print and digital communication complement each other, and should not be seen as a replacement for the other.

And The New Stats Are In...

The average American adult over 18 spends 2 hours and 51 minutes a day on their smartphone, and averages 34 text messages. (This info courtesy of Wall Street Daily).
