A NOTE FROM RAA'S CEO:

DEAR RAA FAMILY:

Four years ago, the Regional Airline Association (RAA) published an Annual Report presenting 2019 data through the harsh lens of 2020, as the COVID-19 pandemic disrupted every aspect of our lives. Regional airlines would lead the nation's air service recovery in 2021, only to see this fragile regrowth upended by unprecedented major airline hiring in 2022. A consequent collapse in small community air service followed, then worsened last year.

Between 2008 and 2023, regional airlines parked nearly a quarter of their fleet under a pilot shortage. The most rapid contraction was concentrated in the post-pandemic era, with 2,444 regional jets in operation in July 2020, but just 2,194 in operation by July 2024, up from 2,172 in 2021. Regional airlines carried 27% fewer passengers in 2023 compared with 2019 and, despite some year-over-year improvement, 2023 departures remained 30% below 2019. Regional share of U.S. departures likewise dropped, from 40% in 2019 to 35% in 2022 to just 31% in 2023. Major airlines managed pilot scarcity by substituting narrowbody aircraft on routes historically operated by regional jets, carrying more passengers at once, but from fewer places, and on fewer flights. Air service concentrated in higher-density markets, leaving rural communities behind. The stark data in our 2024 Annual Report presents a cautionary tale of air service in the U.S. under diminished regional airline capacity.

Today, whispers of increased regional airline productivity and green shoots of connectivity are appearing in the shadow of major airline fleet disruptions that have temporarily eased pilot attrition. While non-hub airports lost departures and seats again in 2024, small hub airports have seen the first positive change in departures and seats. Still, our nation's air service network has not begun to approach its pre-COVID strength. In fact, 65% of U.S. airports will have less air service in October 2024 than they had in 2019, with 30% of U.S. airports losing more than one in four of their commercial flights and 12% losing more than half of their flights. With attrition paused, regional airlines have increased their flying hours and are aiming to restore service to more communities. However, major airline hiring will accelerate anew when aircraft deliveries resume. That's why the long-term health of small community air service depends on a strong supply of highly skilled new pilots entering the pipeline.

Today, federal policies deter new pilots by adding costs and narrowing access to pilot careers without enhancing safety. Simultaneously, flight education costs exceed federal student loan limits. These obstacles bar the gates of the pilot profession for those without wealth, weakening both supply and diversity. Airlines can do far more to meet the foundational education needs of future pilots, shifting more costs from aspiring pilots to hiring airlines while producing demonstrably safer pilots. To realize the full potential of these efforts, we need to unlock regulatory gridlock that has slowed advancement. The 2024 Federal Aviation Administration Reauthorization Act included a landmark, bipartisan direction to the FAA to update pilot training pathways that have been static since 2013. Lawmakers additionally introduced RAA-backed legislation to better align student loans with the cost of flight education, and we are pushing for swift passage.

RAA's 2024 Annual Report has incorporated new data to track maintenance workforce trends. A shortage of technicians will be amplified as airlines undertake heavy maintenance cycles needed to return parked aircraft to service. Thoughtful airline programs, including earn-while-you-learn training and apprenticeships, reduce financial barriers for aspiring technicians. RAA won support for improving federal workforce and training programs and grants for pilots and technicians in this year's FAA reauthorization bill. These support programs will be accompanied by outreach that attracts people from all backgrounds to thrive in regional aviation, where opportunities are vast.

Lasting trends in remote and hybrid work have drawn more people to smaller, more livable downtowns, and these new residents need regional air service. Major airlines hope to increase their regional flying because small community connectivity is a competitive differentiator, and regional service brings international and business travelers through their hubs. Lawmakers have shown increased appreciation for regional air service as a crucial driver of economic vitality and quality of life in small communities, evidenced by the passage of numerous policies to improve training and strengthen the aviation workforce. These policies must not be sidelined by regulatory inertia; now is the time for swift and safe implementation.

Whether 2023 stands as the nadir of U.S. air service contraction before continued reconnection and recovery or the pilot shortage is allowed to return and worsen depends on what we do next. RAA will continue to work relentlessly toward a future where government, industry, and frontline workers partner to reconnect our country with safe and reliable regional air service. Let this be our call to action.

FAYE MALARKEY BLACK

President and CEO
Regional Airline Association

A NOTE FROM RAA'S CHAIRMAN OF THE BOARD

FRIENDS OF RAA:

This year the RAA team accelerated publication of its Annual Report to coincide with its annual Leaders Conference, where regional airline leaders will join our important supply partners to detail our shared vision for U.S. regional aviation. I believe the cornerstone of that community is our mutual passion for what we do, because we know that the service we provide to smaller communities is incredibly important.

The data between these pages reinforces our values. Air service is the strong thread that ties our nation together as a whole, and its importance to economic vitality and social well being is especially pronounced at the 426 airports in our country that rely on regional airlines exclusively for air service. Without regional airlines, 63% of our country's airports would not have commercial air service. Unfortunately, small community air service has dimmed over the past decade and remains at risk. Our vision is that this powerful community of stakeholders will continue to work together to ensure Americans everywhere – and especially in smaller communities – can rely on regional air service to connect them to the global air transportation system.

Over the past decade, RAA has done significant work to highlight the importance of small community air service while raising awareness of the global pilot shortage posing an existential threat to this service. RAA and its members responded with workforce investments and creative solutions, recommending policy interventions and always prioritizing safety. These efforts produced gains, but post-pandemic hiring trends led to a particularly rapid increase in captain attrition and an imbalance of pilots across the industry that set these efforts back. Despite every effort to produce the air service needed, the smallest communities have faced the biggest harms.

This is why RAA's legislative work is so important to ensure the small community air service recovers, grows and thrives again, and this is why your support matters. The investments our supply company partners make with the RAA have helped to power sizable progress this year. RAA-backed training grants for veterans (Forces to Flyers) was authorized in the FAA Reauthorization Act of 2024 (FRA24) for

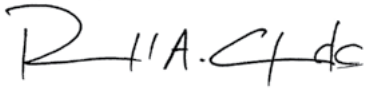

the first time, and workforce development programs and grants secured in the last Reauthorization cycle were reauthorized, reformed and expanded to better align with industry initiatives, reflecting RAA's recommendations to Congress. RAA fought to protect the Essential Air Service (EAS) program that helps to support many small communities and successfully fended off proposals to impose a burdensome state/local cost, which would have severely undercut the program.

We have more work to do to support smaller communities, including those communities outside the EAS program. Likewise, we know our workforce investments and advocacy must span all aviation disciplines to successfully recover small community air service. This includes the maintenance technician workforce, where a growing shortage has been raising concerns for a decade and remains an area of focus where industry efforts will continue to be essential.

Recently, major airline hiring slowed amidst fleet disruptions, easing regional airline captain attrition. During this respite, regional airlines have rebuilt block hours and started to rebalance crews for long-term stability. Regional airlines have led workforce investments and industry-backed solutions, and we're calling on our government stakeholders to ensure higher education investment policies are adequate to ensure a bright, vibrant mix of young people enters aviation careers in the kind of numbers that ensure small communities have access to safe and reliable air service long into the future.

Air Traffic Control is another area where investment is needed. Carriers are investing in equipment for sustainability and reliability, and we are calling on our government stakeholders to unlock FAA access to existing funding that enables it to advance ATC staffing and systems. Small airports again stand to benefit from these advancements by adding safety and resilience to the overall system.

We see significant demand for regional air service nationwide, particularly as the industry works to right size capacity. We are investing at every level to attract, support and retain the workforce needed to crew our flights and maintain our aircraft, continuously improve our operation and the resilience of our systems, and constantly assure the very highest levels of safety. We are working on creative solutions that can safely address some of the most entrenched problems. We're counting on regulators to evaluate proposals on their merits and make the workforce investments needed to meet the needs of our airspace. There is enormous demand for regional air service today and strong opportunity to reconnect small and underserved markets. This is more than a business opportunity; it's a core value. The service regional airlines provide is foundational to the way of life in smaller communities, and that is the reason we do this work.

AVERAGE LOAD FACTOR

2023 U.S. AIR SERVICE NETWORK

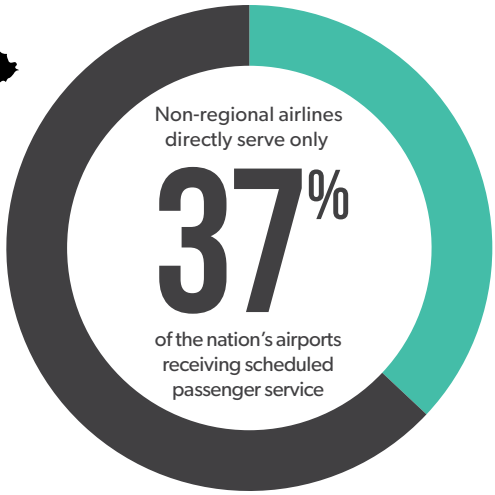

SERVICE AT U.S. AIRPORTS

Major network carriers serve only one-third of the country directly. Everywhere else, passengers rely on regional airlines to connect to hub airports and beyond. When regional airlines contract, this air service is diminished. Air service lost when regional airlines contract is rarely replaced by larger airlines. In those instances where larger mainline equipment can be used, this swap often comes with lost frequency, destination options, or both. The map above shows the entire U.S. air service network in 2023, while the map below shows only the U.S. air service network without regional airlines.

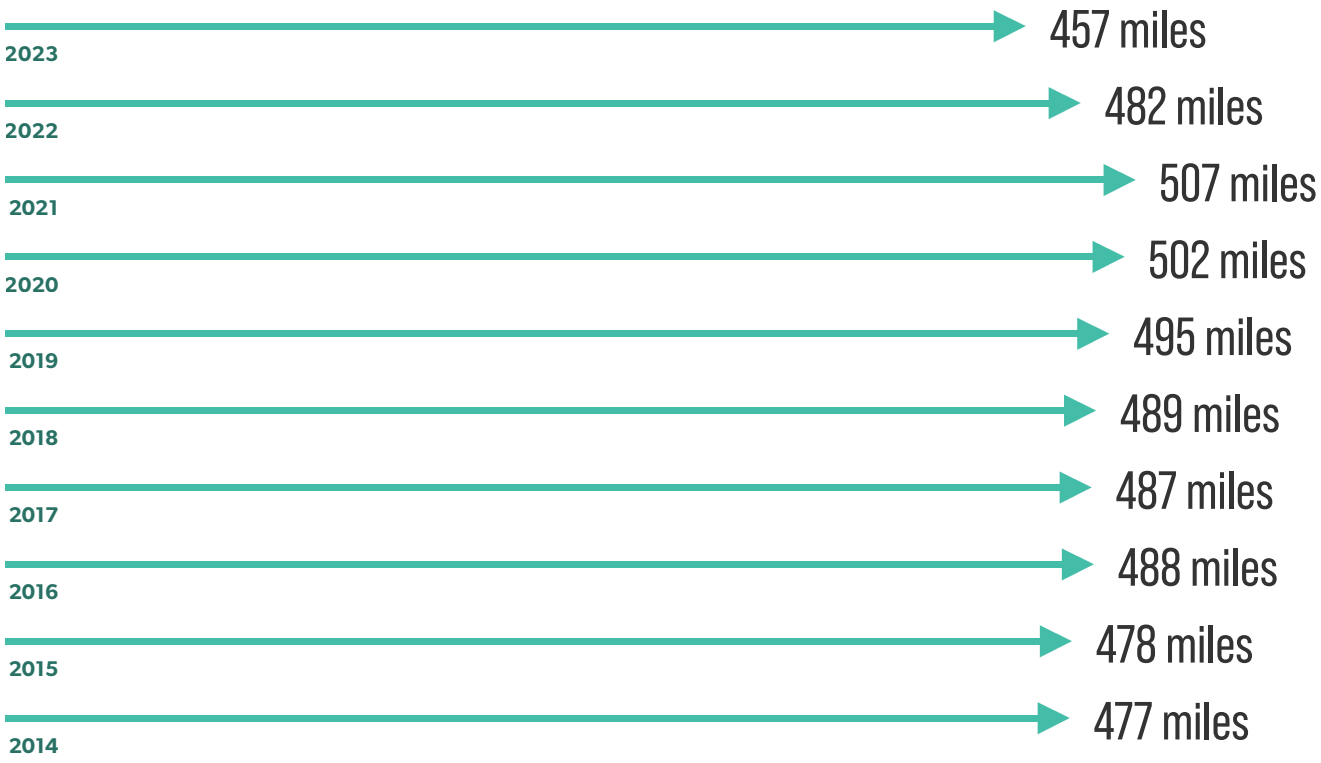

It has never been more important to protect healthy, safe and reliable regional air service to every corner of the country. Here at RAA, we will never stop fighting for that.

FAA CERTIFICATED AIRMEN ANALYSIS

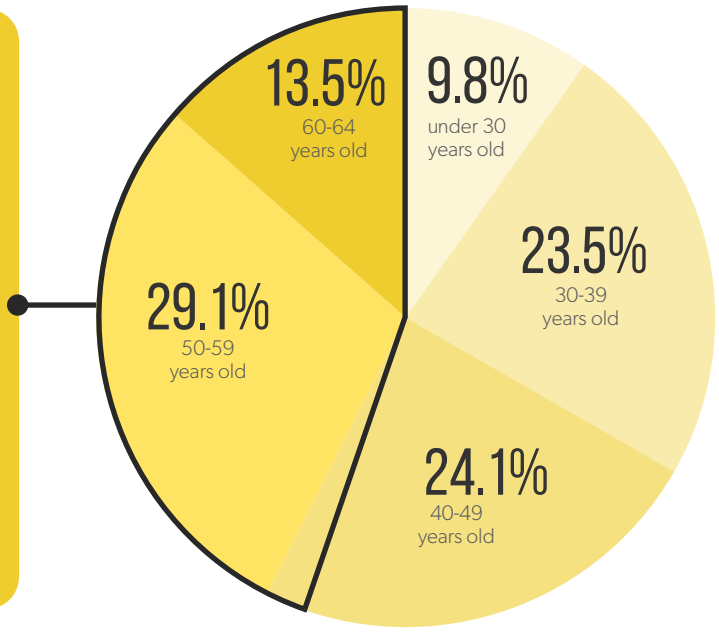

AIRLINE TRANSPORT PILOT, AIRPLANE MULTI-ENGINE LAND PILOTS WITH VALID 1ST CLASS MEDICALS BY AGE

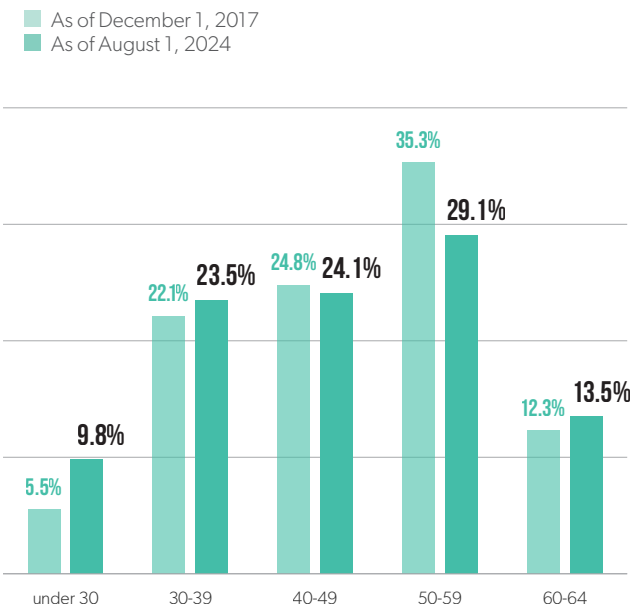

Source: Registry Services and Information Management Branch, AFB-730, Federal Aviation Administration

Nearly

HALF

of today's Part 121 qualified pilot workforce face federally-mandated Age 65 retirement within fifteen years.

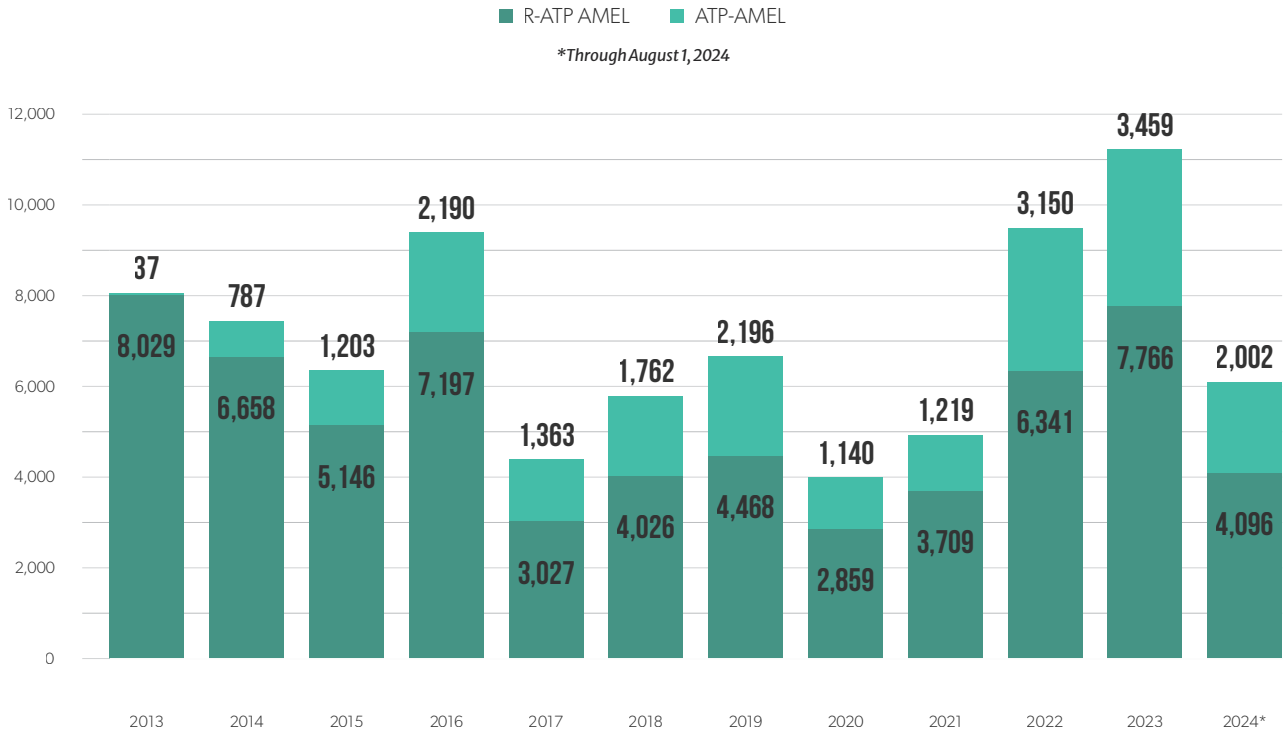

16,721

Qualified pilots **MUST** retire within 5 years. This equates to

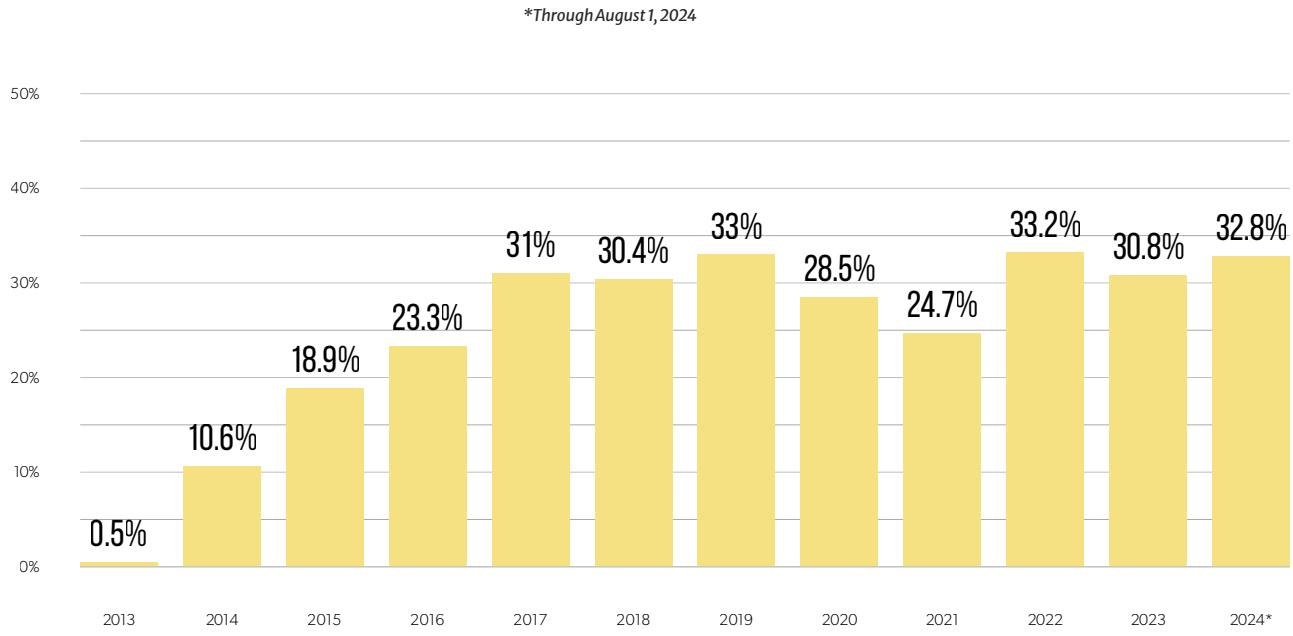

14%

of the total eligible pilot workforce.

ORIGINAL ISSUANCE ATP AMEL AND R-ATP AMEL

PERCENTAGE OF ORIGINAL ISSUANCE ATP AMEL WITH RESTRICTED PRIVILEGES

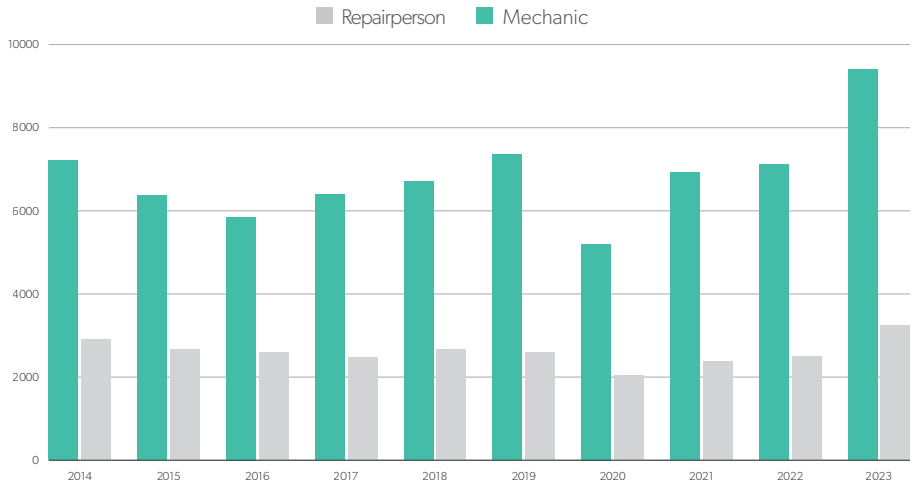

SKILLED TECHNICIAN WORKFORCE TRENDS

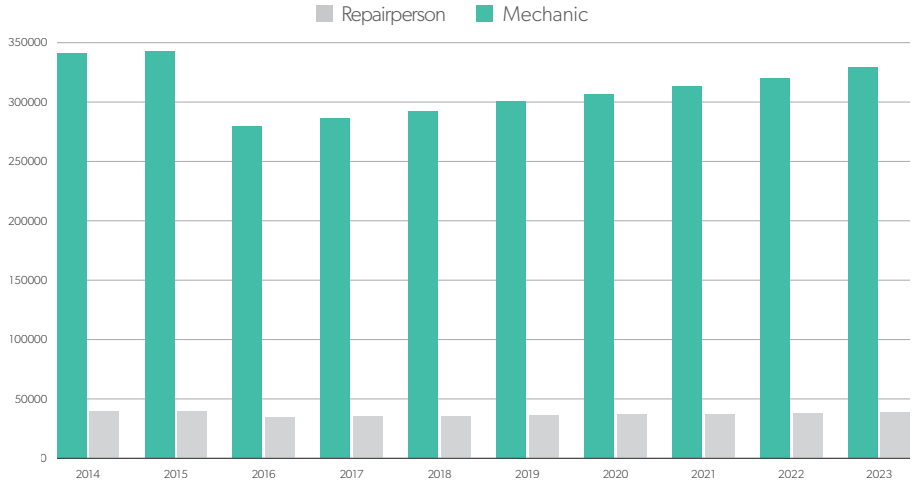

TRENDS IN MECHANIC & REPAIRPERSON CERTIFICATES

Original Mechanic certificates issued are up 30.3% 2023 vs. 2014. Original Repairperson certificates issued are up 11.5% 2023 vs. 2014. Active total Mechanic certificates are down -3.6% 2023 vs. 2014, but there is a consistently positive trend since recordkeeping change in 2016. Active total Repairman certificates are down -1.1% 2023 vs. 2014. The trends for both active and original issuance in these skilled employee categories are moving in a positive direction.

Notes:

[a] US air carriers operating under 14 CFR Part 135 were previously referred to as Scheduled and Nonscheduled Services. Current tables now refer to these same air carriers as Commuter Operations and On-Demand Operations, respectively, in order to be consistent with definitions in 14 CFR 119.3 and terminology used in 14 CFR 135.1. On-Demand Part 135 operations encompass charters, air taxis, air tours, or medical services (when a patient or medical personnel are on board).

[b] Flight hours, miles, and departures are compiled by the Federal Aviation Administration.

* 2023 data are preliminary.

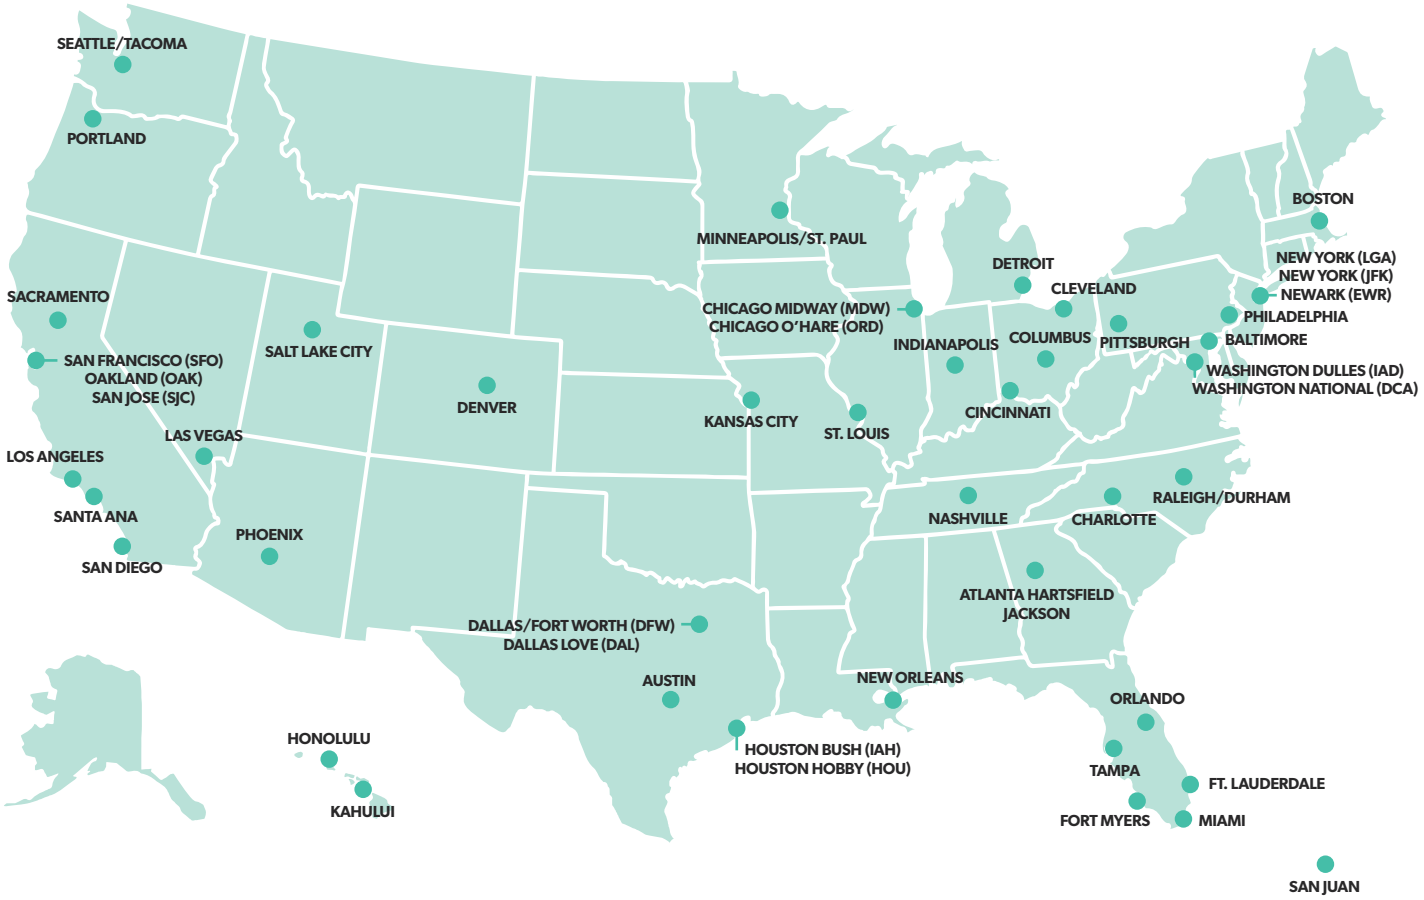

U.S. AIRPORTS AND REGIONAL SERVICE

TOP 50 U.S. AIRPORTS

Ranked by total scheduled departures in 2023

Accelerate [Connectivity] Opportunity

E175

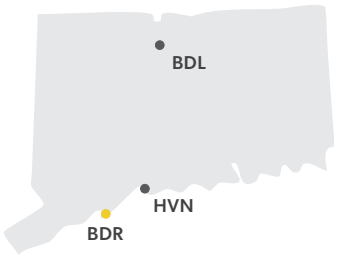

With its outstanding economics, reliability and performance, the rightsized E175 has been a true business hero for airlines. Applying new features including larger overhead bins, mood lighting, next generation weather radar and data avionics, the E175 takes regional aviation to a whole new level, accelerating opportunity.

#AccelerateOpportunity

2024 SCHOLARSHIP WINNERS

One of RAA's paramount goals is to encourage future generations to pursue aviation, while helping to offset the financial burden placed on students during their education and training.

The Regional Airline Association Scholarship Foundation has awarded its 2024 scholarships to the following outstanding students who are pursuing aviation studies at institutions of higher learning.

RAA wants to thank all of our donors, whose generosity helped us raise a total of $14,986 for our foundation over the past year. We would like to recognize Zachary Hall (AvAir), Envoy Air, and CommuteAir for their significant contributions of $4,000 or more, which fully funded an entire award.

RAA Representative: Scott Mowery, President

InTech Aerospace is an FAA approved 145 repair station specializing in all aspects of aircraft interiors. We are your one stop solution to all your interior repair and fabrication requirements. full capabilities on all seating from passenger to crew, Complete composite repair capabilities that cover sidewall, overhead bins, ceiling panels and all monuments. if you want an expert to work on our interior components call on InTech Aerospace.

AIRFRAME MANUFACTURERS & SALES

ATR

4355 NW 36th St.
Miami Springs, Florida 33166
786-442-4779
http://www.atr-aircraft.com
RAA Representative - Christopher Jones, Managing Director & President of ATR Americas, Inc.

ATR, a joint-venture between Airbus and Leonardo, is the world number one regional aircraft manufacturer with its ATR 42 and 72, the best-selling aircraft in their market segment. The vision of the company is to accelerate sustainable connections for people, communities and businesses, no matter how remote. Flown by 200 airlines in over 100 countries, ATR aircraft opened 160 routes in 2023, facilitating the development of territories and enabling access to crucial services like healthcare and education. ATR aircraft are the most advanced, versatile, cost-effective and lowest-emission regional aircraft on the market, emitting 45% less CO2 than similar-size regional jets.

Aura Aero

Aéroport Toulouse Francazal
135 Avenue du Comminges
Cugnaux 31270 France
+1 772 268 5503
RAA Representative - Drew McEwen, Chief Commercial Officer

A pioneer in low-carbon aviation, AURA AERO is committed to serve mankind by designing and manufacturing aircraft that accelerate air transport decarbonization. By combining the best in the aeronautical industry with state-of-the-art digital technologies. AURA AERO produces new generation aircraft with unrivaled efficiency: INTEGRAL, the two-seater training aircraft with aerobatic capabilities, and ERA, the 19-seater hybrid-electric regional aircraft. Founded in 2018, AURA AERO is headquartered at Toulouse-Francazal airport in France and employs nearly 290 people. Having obtained design and production agreements, the company confirms its status as a fully recognized aircraft manufacturer.

Cosmic Aerospace

6333 S Racine Cir., Ste 105
Centennial, Colorado 80111
http://www.cosmicaerospace.com
RAA Representative: Christopher Chahine, CEO

Cosmic Aerospace is developing the world's first all-electric passenger aircraft specifically for the regional aviation market. The company's aircraft, Skylark, is engineered to comfortably accommodate 24 passengers, with standard provisions for carry-on and checked baggage. Skylark is designed for a range of up to 600 miles, offering operating costs per seat kilometer that are estimated to be 50% to 80% lower than those of comparable jet aircraft currently in service.

Deutsche Aircraft GmbH

Oberpfaffenhofen Airport
Wessling, Bavaria D-82234 Germany
+49 (0) 8153 88111 2342
https://www.deutscheaircraft.com/
RAA Representative: Nils Heuer, Sales Director

Deutsche Aircraft is a German aircraft manufacturer built on the heritage of aircraft pioneers and Dornier's reputation for design, quality and innovative aircraft solutions. Leveraging on the knowledge and experience acquired through nearly two decades of Type Certificate ownership of the Dornier 328 platform, our passionate team of engineers and aviation experts is developing the most advanced, energy-efficient and cost- effective 40-seater regional turboprop on the market: The D328eco™

Embraer

276 SW 34th Street
Fort Lauderdale, Florida 33315
954-359-3700
https://www.embraercommercialaviation.com/
RAA Representative: Martyn Holmes, Chief Commercial Officer, Embraer Commercial Aviation

Embraer is a global aerospace company headquartered in Brazil. It manufactures aircraft for Commercial and Executive aviation, Defense & Security, and Agricultural customers. The company also provides after-sales services & support through a worldwide network of wholly owned entities and authorized agents. Since it was founded in 1969, Embraer has delivered more than 8,000 aircraft. On average, about every 10 seconds an aircraft manufactured by Embraer takes off somewhere in the world, transporting over 145 million passengers a year. Embraer is the leading manufacturer of commercial jets up to 150 seats and is the main exporter of high value-added goods in Brazil. The company maintains industrial units, offices, service and parts distribution centers across the Americas, Africa, Asia, and Europe.

Green Aerospace

Montreal, Quebec H3A 0A4, Canada
709-693-9423
www.greenaerospace.ca
RAA Representative - Dave Green, Chief Executive Officer

Green Aerospace's mission is to create the most profitable regional aircraft ever to take to the skies. By harnessing cutting-edge hybrid-electric propulsion technology, we aim to redefine what's possible in regional aerospace. Introducing the GR70: a revolutionary 70-seater hybrid-electric aircraft designed to seamlessly integrate into carriers' existing route networks with just one change—more profit. The GR70 is more than an aircraft; it's a commitment to the future of regional aviation.

The AirCraft Company

1300 S Gateway St
Wichita Kansas 67230
210-896-0514
https://www.www.TheAirCraftCompany.org
RAA Representative: Sylvie St-Georges, Co-CEO

The AirCraft Company was founded with the goal of designing a new family of regional airliners that will bring back dignity to the travelers; return air service to remote communities; address concerns of people with disabilities; reduce emissions and provide more room to passengers to ensure a swift exit during an emergency. We call it the Pangea® family of hybrid-electric airplanes. This family will be capable of transporting between 30 and 70 passengers and will provide wheelchair access, including to the onboard lavatory. The cabin layout is compatible with the FAA requirements for a secondary barrier for the flight deck to ensure the safety of the aircraft, flight crew, and passengers. The Pangea® airplanes are designed to operate Electric-first™ to ensure the best operating economics of short range, ensuring zero-emissions service. Since we also understand that some longer-range operation may be required to support one's network; the Hybrid-on-demand™ operation, using either sustainable aviation fuel (SAF) or hydrogen, will provide that capability. The Aircraft Company, Bringing the World Together™!

AVIATION SOFTWARE

ARGUS International Inc.

6021 S. Syracuse Way, #301
Greenwood Village, Colorado 80111
513-852-1022
http://www.argus.aero
RAA Representative: Mike McCready, President

ARGUS International, Inc, an SGS Company, founded in 1995, is the worldwide leader in specialized aviation audit services, regulatory support services, Safety Management System (SMS) software, and aviation tracking data. With a suite of solutions designed for servicing the Commercial Aviation, Business Aviation, and Rotorcraft Aviation sectors, globally, ARGUS ensures companies have the right tools to support their operational and business decision making. ARGUS experts bring decades of trusted industry experience to every audit, assessment, regulatory project, SMS solutions, and industry data analysis; experience you can count on whether you are just starting your operation, want to improve your operation, or selling / acquiring an operation. Our objective is to make sure you are equipped with the data, research, and knowledge you need to make the best decisions for your business. Visit www.ARGUS.aero to learn about the specific solutions you can leverage to improve, grow, and expand your business.

Swiss Aviation Software Ltd

Lachenstrasse 18
Allschwil, BL 4123 Switzerland
+41615823032
www.swiss-as.com
RAA Representative: Daragh Cunningham, Head of AMOS Americas

AMOS is a comprehensive, fully-integrated MRO software solution being developed and distributed by Swiss AviationSoftware.

Our loyal customer base of over 200 customers worldwide includes pure operators of all sizes, major low-cost, regional and flag carriers, large airline groups and MRO providers.

The current focus of Swiss-AS is to assist the large circle of AMOS customers to shape and accelerate their digital transformation process while promoting all necessary initiatives that will bridge the digital gaps in the MRO process landscape.
In addition, Swiss-AS offers its customers a full package of services.

AVIONICS MANUFACTURERS & SALES

Alltec Integrated Manufacturing

2240 S. Thornburg St
Santa Maria, California 93445
805-595-3500
https://www.alltecmfg.com
RAA Representative: Dreanna Bordan, Sales Manager

Alltec is the proven supplier of injection molded interior components for the aerospace industry. We take great pride in our 40+ years of development for the worlds largest interior outfitters, carriers, OEM's, and MRO's. Our product development expertise includes; gasper air outlets, call attendant buttons, reading light buttons, seating sub-components, arm rests, escutcheons, tray table latches, edge guards, bumpers, premium class seating details, IFE enclosures, window reveals, and a multitude of fasteners. Alltec has successfully maintained our core aerospace relationships by reliably delivering parts with superior customer service. In addition to injection molding we provide a broad range of in-house services that include; pad printing, ultrasonic wielding, heat staking, solvent bonding, assembly, and testing. Our AS9100 registered quality is always on call.

Avionica, LLC

9941 West Jessamine Street
MIAMI, Florida 33157
786-544-1100
http://www.avionica.com
RAA Representative: Claudia Espinosa, Vice President, Commercial

Specializing in data and communications management for 30+ years, Avionica has led the industry in Avionics manufacturing and software development. Our product & service offerings provide comprehensive data acquisition, management, and communication solutions for our customers. We design and maintain our own Supplemental Type Certifications (STC) and have a global network of installation providers offering aftermarket solutions. Our flight deck communication platform provides the most reliable & robust solution in the market.

Collins Aerospace

400 Collins Rd NE
Cedar Rapids, Iowa 52498
319-295-1000
https://www.collinsaerospace.com/
RAA Representative: Jeff Spies, Sr Mgr, Sales Business Development

At Collins Aerospace, we're working side-by-side with our customers and partners to dream, design and deliver solutions that redefine the future of our industry. By reaching across the markets we serve and drawing on our vast portfolio of expertise, we are making the most powerful concepts in aerospace a reality every day. Explore all the ways we're redefining aerospace with one of the deepest capability sets and broadest perspectives in the industry.

PrimeFlight Aviation Services

3 Sugar Creek Center Blvd., Suite 450
Sugar Land TX 77478
281-942-6800
www.primeflight.com
RAA Representative - Sal Furnari, VP, Business Development

PrimeFlight Aviation Services provides air carriers with a wide range of aircraft, passenger and security services, including aircraft appearance, ground handling, cargo handling, fueling, and deicing services, to ensure the safe and reliable operation of their aircraft and the comfort of their passengers. Our team is focused on quality, safety and providing a positive customer experience through all services offered. We strive to be a leading provider of aviation services and strong business partner for our customers. Subsidiaries PrimeFlight GSE Maintenance provides GSE maintenance services, while Garsite offers a full line of fueling and GSE equipment.

True Blue Power

9400 E. 34th St.
NorthWichita, KS 67226-2615 USA
Phone: 800-821-1212
http://www.truebluepowerusa.com/
RAA Representative- Chris Bright-Barnett, Event Specialist

True Blue Power specializes in the design and manufacturing of electrical power solutions for the global aerospace industry. This includes USB and wireless chargers, power conversion products, emergency battery power supplies, and advanced lithium-ion batteries. Select products feature proprietary NanoPhosphate® lithium-ion battery technology, which offers stable chemistry, faster charging, consistent output, excellent cycle life and lower total cost of ownership. This translates into smaller, lighter products that are less than half the size and weight of existing battery solutions. True Blue Power supports business, commercial, defense, special mission, advanced air mobility and electric aircraft. For additional information, please visit truebluepowerusa.com.

Universal Avionics, an Elbit Systems Company

3260 E Universal Way
Tucson, Arizona 85756
520-295-2300
www.universalavionics.com
RAA Representative: Kosta Gialamboukis, Director Business Development – Airlines

Universal Avionics safely guides pilots and their passengers worldwide with forward fit and retrofit solutions flying on more than 35,000 airplanes and helicopters. As a leading provider of commercial avionics, it improves safety and efficiency for airline and cargo operations, business aviation, and special missions. Solutions include navigation, electronic display, terrain awareness, recorders, enhanced flight vision systems, and synthetic vision systems for aerospace applications.

Universal is a subsidiary of Elbit Systems Ltd., a major defense manufacturer and world leader in military aerospace. Connect What's Next with complete situational awareness and new capabilities to advance flight. Next is Now. Visit universalavionics.com or follow us on social media to learn more.

Baylor Institute for Aviation Sciences

One Bear Place #97413
Waco, Texas 76798
254-710-3563; Fax: 254-710-3560
www.baylor.edu/aviation
RAA Representative: William B. Cade III, Ph. D.,
Program Director

The Institute for Aviation Sciences was created in 1991 with the goal of advancing Baylor University's mission through research, public service, and the education of a new generation of pilots. In the same year, the institute initiated the Bachelor of Science in Aviation Sciences (B.S.A.) degree, and graduated its first class in 1995. The degree provides a balance of aeronautical theory and application combined with an impeccable college education on a tradition-rich campus. The result is an academic experience that fully equips our students to grow into leaders in the aviation industry. A recent study has shown that the best-performing pilots have obtained flight instructor certification, received advanced pilot training in college, and graduated with collegiate aviation degrees - all of which you will achieve at Baylor University! The inclusion of a major in Aviation Administration added even more flexibility for our students seeking careers in aviation with new research agendas in aviation, atmospheric, and space sciences, our students can also take advantage of invaluable research experiences. Today, our department continues to grow with increasing interest in our program and has built a reputation for aviation excellence. The Institute for Aviation Sciences is a member of Women in Aviation International, and the University Aviation Association, a professional association that fosters excellence in collegiate aviation education.

California Aeronautical University

1450 Boughton Drive
Bakersfield, California 93308
661-615-5915

RAA Representative: Marla Prothe

We make products that are engineered on the inside for life on the outside. We do this, so our customers can make the most of the time they spend pursuing their passions. With more than 11,500 associates in 60 offices around the world, we bring GPS navigation and wearable technology to the automotive, aviation, marine, outdoor and fitness markets. We think every day is an opportunity to innovate, and a chance to beat yesterday

HQ Aero Management (US) Inc.
167 Airplane Ave
Bridgeport, West Virginia 26330
304-848-0900; Fax: 304-848-0904
www.hqaero.com
RAA Representative: Ronald Eagle, President

In today's aviation industry when most companies struggle with finding qualified aircraft technicians, they rely on the services of a highly qualified recruiting partner. In addition to recruiting highly qualified aviation contractors for your short or long term contract needs, HQ Aero offers recruiting and placement services for your direct placement needs as well. The only time we charge a fee for service is when you make an offer to a candidate and they start work with your company. We offer direct placement recruiting services to our customers at a substantially discounted rate, as a compliment to our contract recruiting services, in an effort to build a strong long term relationship as our customer's full service aviation recruiter of choice.

JETPUBS Inc
900 Crest View Drive, Suite 130
Hudson, Wisconsin 54016
715-220-4232
www.jetpubs.com
RAA Representative: Larissa Fildes, Chief Executive Officer

At JETPUBS, we are experts in aviation training materials and manuals management. We ensure that you have the high quality materials you need, improving the safety and compliance of your flight operations, in-flight, maintenance, and ground operations. From a fully outsourced technical publications department to providing emergency equipment diagrams, cockpit posters, static trainers, and systems schematics,
we deliver unmatched customized solutions all in physical and electronic solutions.

Papillon Grand Canyon Helicopters
P.O. Box 455, 3568 Airport Road

www.Papillon.com
RAA Representative: Jeff Bubier, South Rim General Manager / DER

The largest pilot job network visited by over 100,000 pilots each month.
Professional pilot recruitment services.

PILOTSGLOBAL, Inc.
1007 North Orange Street, 4th Floor Ste 105
Wilmington, Delaware 19801
302-319-9783
https://pilotsglobal.com/

PilotsGlobal.com is the largest Flight Crew Recruitment platform in the United States and worldwide. The Company offers a fully digital way to source Pilot candidates at scale. We work closely with the Human Resources and Flight Departments helping them customize and automate their Pilot recruitment processes, increase the retention rates, and reduce Pilot recruitment costs. One of the main objectives of our service is to help our partners streamline their candidate pipeline and offload the time associated with candidate screening and selection processes.

Ricardo Beverly Hills
6329 South 226th Street
Kent, Washington 98032
425-207-1900
http://www.ricardobeverlyhills.com
RAA Representative: Robert Dodson and Paul Sarzin Robert Dodson- CEO Paul Sarazin- President

Ricardo Beverly Hills is a global leader specializing in the design, innovation, and marketing of luggage and travel accessories. Everything we make is founded on our obsession with travel, design and style, and world exploration. Our corporate headquarters are located in the greater Seattle area. Through our proprietary brands Ricardo Beverly Hills, Stephanie Johnson, Skyway, and American Explorer (as well as private label brands) we are committed to helping travelers get more out of their trips through our compelling travel solutions. With a world-class global distribution spanning five continents and more than 40 countries, our brands are available online and at major department stores, specialty stores, and online retailers domestically and internationally.

TravelPro
6500 Park of Commerce Blvd.
Boca Raton, FL 33487
http://www.Aviation.Travelpro.com
RAA Representative - Jeromy Welch,
Sr Manager, North American Aviation

Travelpro® all began when a commercial Airline Pilot invented the Original Rollaboard® – a two-wheeled suitcase pulled upright by an extendable handle – an innovation that dramatically transformed the ease of modern-day travel. As the luggage brand of choice for flight crew members and frequent travelers worldwide, our expanding array of bags and collections are designed for the road-warriors, the commuters, the business travelers, the family-trekkers, the passionate explorers, and the weekend wanderers. Ultimately, if you're going somewhere, we are your reliable travel companion.

TRAVEL SERVICES

TA Connections
3280 Peachtree Rd, Suite 2400
Atlanta, Georgia 30305
612-205-3320
https://www.taconnections.com/
RAA Representative: Reneice Haglund,
Sr. Account Director

TA Connections is a global leader in technology that provides solutions that transform the aviation industry. We specialize in intelligent software and services that streamline crew logistics, passenger disruption, and airline operations.

We offer 6 core solutions:
• TA Crew: automates crew schedules to support hotel and transportation planning, invoice reconciliation, and globally negotiated rate programs
• TA Inflight: a digital cabin at your crew's fingertips, with inflight retail and passenger profiles for increased revenue
• TA Disruption Hub: A self-service solution that manages the entire disruption process for passengers
• TA Airport: A mobile departure control system that reduces reliance on stationary kiosks and increases ancillary revenue
• TA Turn: an integrated solution delivering real time transparency into every aircraft turnaround
• TA Ramp: a digital ramp operation with real-time data

TA Connections customers see improved cost control, simplified logistics, and improved customer experience.

ViaAir is an aviation company offering scheduled flights, charters, packaged AirCruises, and tours over select cities.

OTHER

Alaska Air Carriers Association

2301 Merrill Field Dr A-3
Anchorage, Alaska 99501
907-277-0071
https://www.alaskaaircarriers.org/
RAA Representative: Will Day, Executive Director

The Alaska Air Carriers Association (AACA) was established in 1966 by a cohort of air carriers in Southeast Alaska. Now, our members comprise more than 40 air carriers and over 40 associate members whose companies support our industry. We consist of major and regional airlines, air tour operators, single pilot operators, aviation maintenance companies, UAV companies, and many others. We stand in solidarity to preserve and perpetuate aviation in Alaska. Each member adds authority to our voice in the regulatory and legislative arenas.

ALPA, Air Line Pilots Association, Int'l

535 Herndon Parkway
Herndon, Virginia 20170
703-689-2270
http://www.alpa.org
RAA Representative: Keith Hagy,
Director, Engineering and Air Safety

The Air Line Pilots Association, International (ALPA, Int'l) is the largest air line pilots union in the world, representing 59,000 pilots at 33 US and Canadian airlines.

Flight Safety Foundation

701 N. Fairfax Street, Suite 250
Alexandria, Virginia 22314
703-739-6700; Fax: 703-739-6708
https://flightsafety.org/
RAA Representative: Louise Martin,
Vice President of Membership

Since 1947, Flight Safety Foundation has helped save lives around the world. The Foundation is an international non-profit organization whose sole purpose is to provide impartial, independent, expert safety guidance and resources for the aviation and aerospace industry.

Heart Aerospace

Lindholmsallén 2
Gothenburg, Sweden 417 55 Sweden
46728889610
www.heartaerospace.com
RAA Representative: Simon Newitt,
Chief Commercial Officer

Heart Aerospace's mission is to create the world's greenest, most affordable, and most accessible form of transport. This mission is grounded in the outlook that electric air travel will become the new normal for regional flights and can be transformational in addressing the industry's key sustainability challenges.

At Heart Aerospace we develop the ES-30, a regional electric airplane with a standard seating capacity of 30 passengers driven by electric motors with battery derived energy. The ES-30 will have a fully electric zero emissions range of 200 kilometers, an extended range of 800 kilometers with 25 passengers, all including typical airline reserves.

Lufthansa Systems

800 Brickell Ave., Suite 1100
Miami, Florida 33131
305-423-6879
305-508-9859
https://www.lhsystems.com/
RAA Representative: Genaro Zarazua,
Senior Vice President Regional
Management Americas

Lufthansa Systems GmbH & Co. KG is a leading airline IT provider determined to shape the future of digital aviation. It draws its unique strengths from its ability to combine profound industry know-how with forward-looking technological expertise and has lived by its slogan "We're into IT" for more than 25 years. A wholly-owned subsidiary of the Lufthansa Group, the company offers its more than 350 customers an extensive range of successful IT products and services for the aviation industry, many of which are market leaders. Lufthansa Systems' pioneering portfolio covers all of an airline's business processes – in the flight deck, in the cabin and on the ground. As a tech company and airline IT provider, Lufthansa Systems is committed to identifying its own environmental footprint and improving that of its airline customers across the globe. Headquartered in Raunheim near Frankfurt/Main, Germany, Lufthansa Systems employs around 2,400 people at its locations in 16 countries.

Regional One, Inc.

RIM ENTERPRISES LLC

1050 Lyons Lane
Marion, Iowa 52302
319-393-9727
319-393-9350
www.riment.com
RAA Representative: Allan Nordine, V-P

RIM Enterprises LLC is focused on being your aircraft parts supplier of choice by offering impeccable customer service while maintaining the highest quality standards. Our staff utilizes over 150 years of combined aviation experience to assist with your requirements and has been delivering aircraft parts worldwide since 1991.

Originally established as a supplier of avionics and instrumentation, through strategic planning and extensive inventory expansion we have grown in to a full service aircraft parts supplier capable of meeting all of our customer's needs. We maintain an inventory in excess of 90,000 line items at our centrally located facility in Marion, Iowa.

We offer creative aircraft parts solutions to our customers on a purchase, exchange, lease and rental basis. We are pleased to customize plans to meet each and every customer's specific requirements. Our dedicated staff will be happy to work with you every step of the way with only one goal in mind…. your complete satisfaction.

Symbiotics

Teme House, Whittington Road
Worcester, Worcestershire WR5 2RY United Kingdom
+44 (0) 1905 368 175
https://www.symbioticsltd.com/
RAA Representative: Karen Moore, Principle Occupational Psychologist

Symbiotics has over 25 years of experience in leading the aviation industry to excellence in online psychometric assessments.

We provide assessment and selection solutions to airlines, ATOs and other aviation businesses. As a global assessment provider, we collaborate with clients to deliver robust and reliable solutions for candidate selection including pilot psychological assessment for compliance with EASA regulation EASA.CAT.GEN.MPA.175(b).

Our ADAPT platform provides an easy-to-use interface for online assessments for both candidates and client admins, whilst our psychology team provide additional services including interviews, group exercises and cultural profiles for client organisations. As a specialist we work continuously to improve assessments to ensure fair, relevant and quality testing of candidates.

The Boeing Company

5905 Legacy Drive
Plano, Texas 75024
720-503-8611
https://services.boeing.com/
RAA Representative: Joey Colleran, Industry Relations Manager

Through our global network and deep customer focus, Boeing Global Services seeks to provide solutions that are simple to use, supported by an advanced digital operation -- delivering services with flexibility, reliability, and predictability our customers rely on.

The Weather Company, LLC

1001 Summit Blvd, 21st Floor
Brookhaven, Georgia 30319
800-872-2359
https://www.weathercompany.com/aviation/
RAA Representative: Kunal Chadha, Product Marketer | Aviation

At The Weather Company, we provide advanced aviation weather solutions to tackle the challenges faced by dispatch, pilots, and operations. With nearly 75% of air traffic delays caused by weather, our portfolio enhances operational decisions, supporting safe, efficient, and profitable flights. Leveraging precise, personalized insights, airlines can reduce costs, minimize disruptions, and improve passenger experiences. With nearly 30 years of expertise, we empower customers to manage weather impacts effectively, ensuring safety, compliance, and superior outcomes. Our solutions include applications, expert forecast services, and access to a wealth of actionable weather data.

U. S. Technical Consultants, Inc.

2461 E. Orangethorpe, Ste. 105
Fullerton, California 92831

www.ustechnical.com
RAA Representative: Jerry Schumacher, President

Top quality engineering and FAA Certification on all aircraft types as well as an approved FAA Burn Test Lab and FAA approved PMA facility. STC, PMA, DERs Repairs and DER RS for all aircraft types.

University Aviation Association

8092 Memphis Ave
Millington, Tennessee 38053
901-563-0505
https://www.uaa.aero/
RAA Representative: Dawn Vinson, Executive Director

The University Aviation Association (UAA) is the voice of collegiate aviation to our members, the industry, government and the general public. Through the collective expertise of our members, UAA plays a pivotal role in the advancement of degree-granting aviation programs that represent all segments of aviation. Today, UAA is comprised of over 1200 members from more than 220 colleges and universities in the U.S., Canada, Australia, Europe, and Asia. The organization and its members are poised to meet the ever-changing needs of the aviation industry and address the challenges of the 21st century.

HOW DO YOU SAVE MORE THAN 1.5 BILLION GALLONS OF FUEL?

Our groundbreaking, era-defining engines haven't just changed our industry—they've transformed air travel. With more than 15 million metric tons of CO_2 emissions avoided to date, we continue to set new standards in sustainability—reducing fuel burn and aircraft noise and safeguarding our environment.
