

GIS Data for the Pennsylvania Highlands

Data Theme

This document contains a compilation of available spatial data for the region, including Geographic Information Systems (GIS) raster and vector data, aerial and satellite imagery, and downloadable spreadsheets in .CSV and Excel format as well as important maps in PDF or JPG form.

Introduction

The Appalachian Mountain Club has compiled available GIS data for the Pennsylvania Highlands. Currently we have over 1600 unique data layers in our document.

This compilation is meant to be a resource for those living and working in the Pennsylvania Highlands. However, because data is constantly evolving and being created, please understand that the information in this guide will also change. While we will do our best to keep the information current, please make sure to check other sources and the internet for the most current information.

If you know of data that we should add or updates that we need to make, please let us know by emailing pahighlands@outdoors.org.

We hope you enjoy this resource,

Appalachian Mountain Club

Data Theme

If you see data for the Pennsylvania Highlands that is not on the list, please let us know by emailing pahighlands@outdoors.org.
