Considerations for Administrators in Supporting and Supervising Special Education Paraprofessionals

A Training Developed through PDE’s Special Education Paraprofessional Initiative

www.pattan.net
PaTTAN’s Mission

The mission of the Pennsylvania Training and Technical Assistance Network (PaTTAN) is to support the efforts and initiatives of the Bureau of Special Education, and to build the capacity of local educational agencies to serve students who receive special education services.
Our goal for each child is to ensure Individualized Education Program (IEP) teams begin with the general education setting with the use of Supplementary Aids and Services before considering a more restrictive environment.
Agenda

• Introduction
• Laws, Regulations and Standards Related to Paraprofessionals
• Supervision, Policies, Team Roles and Ethical Considerations
• When and How We Use Paraprofessionals
Outcomes

• Identify key laws and regulations related to employment and utilization of special education paraprofessionals in Pennsylvania

• Describe the role of school administrators in guiding classroom team members to build their skills, to understand their specific roles, and carry out their responsibilities in supporting students with disabilities

• Explore how paraprofessionals can be assigned and utilized in a manner that supports current best practice in the field.
Navigating the Training Materials

• Overview of Considerations for Administrators in Supporting and Supervising Special Education Paraprofessionals

Introduction

• What is a Special Education Paraprofessional?
• Why This Training Matters
What is a Special Education Paraprofessional?

A school employee who works under the direction of a certified staff member to support and assist in providing services to children with disabilities or eligible young children.

Two Types in PA:
• Instructional Paraprofessionals
• Personal Care Assistants
Why This Training Matters

- The goals of education are the same for students with disabilities as for their non-disabled peers.
- We need to ensure that services our programs and personnel provide move students towards these goals.
- All educational team members must receive training and guidance to ensure delivery of quality services to students.
Laws, Regulations and Standards Related to Paraprofessionals
Paraprofessionals in PA

• Paraprofessional
  • AKA – Paraeducator, Aide, Teacher assistant, Job coach, Personal care aide, and many, many more!

• Special Education Personnel
  • 2003-2004
    • Special Education Teachers: 21,317
    • Paraprofessionals: 14,022
  • 2009-2010
    • Special Education Teachers: 22,248 (+4%)
    • Paraprofessionals: 21,440 (+53%)
Regulations Regarding Paraprofessionals

- NCLB (2001) required Title I paraprofessionals to be qualified.
- IDEA 2004 and implementing regulations of 2006 required special education paraprofessionals to meet state requirements.
- PA State Board of Education included standards for special education paraprofessionals in state regulations effective July 1, 2008.
§ 300.156 Personnel qualifications: The State must establish and maintain qualifications to ensure that personnel are appropriately and adequately prepared and trained. The qualifications for paraprofessionals must be consistent with any State recognized requirements.
Regulations – State

• Chapter § 14.105 (2008) defines two types of special education paraprofessionals
  – Instructional
  – Personal Care Assistants

• Requirements
  – Instructional: Meet Qualifications & 20 hours annually of professional development
  – PCAs: 20 hours annually of professional development

Early Intervention Considerations

• How the Paraprofessional is employed determines the qualifications required…

• Preschool Early Intervention Program
  – IU or District

• Childcare and Head Start Programs
  – PQAS – PA Quality Assurance System
  – Keystone Stars – 1-4 star ratings
Instructional Paraprofessional

A school employee who works under the direction of a certified staff member to support and assist in providing instructional programs and services to children with disabilities or eligible young children.
Such support and assistance includes one-to-one or group review of material taught by certificated staff, classroom management and implementation of positive behavior support plans.

Services may be provided in a special education class, regular education class, or other instructional setting as provided in the student’s IEP.
Effective July 1, 2010 must

I. Have completed at least two years of postsecondary study
   OR

II. Possess an associate degree or higher
    OR

III. Meet a rigorous standard of quality as demonstrated through a State or local assessment.
Continuing Staff Development

Beginning with the 08-09 school year, each school year, paraprofessionals must provide evidence of 20 hours of staff development activities related to their assignment.
Personal Care Assistant

Provides **one-to-one support** and **assistance** to a student, including support and assistance in the use of **medical** equipment (e.g. augmentative **communication** devices; activities of **daily living**; and monitoring **health** and **behavior**).

May provide support to more than one student, but not at the same time.
Beginning with the 08-09 school year, each school year, PCA’s must provide evidence of 20 hours of staff development activities related to their assignment.

This may include training required by the school-based ACCESS program.
Credential of Competency

One way for LEAs to help paraprofessionals become qualified
Council for Exceptional Children (CEC)
- List of basic Knowledge and Skills needed to work successfully in educational environments.

Bureau of Special Education
- Endorsed use of these CEC standards for the initial preparation and practice of special education paraeducators.

CEC will shortly release updated and expanded standards

(Type or print supervisor’s name and title)
Submit just the checklist and the coversheet.
  – Certificates of attendance, portfolios, essays etc. not needed.

It takes 6-8 weeks to process applications.

Any application that has only classes listed for all standards will be rejected.
  – Skill entries that begin with action verbs are best documented with D, I or P.

What is wrong with this picture?
  – A stack of applications was received from a district where, all applicants had completed all the standards in the same manner, on the same day, at the same achievement level.
Options for Staff Development

Paraprofessionals must work with their supervisors to ensure that courses are acceptable

• PaTTAN
  – after-school series, online- courses, summer training

• IUs
  – courses, summer academies, year-long series

• Districts
  – PD Days, book study, CPR, etc./

• Community College or University
Training Materials For Your Use

Training materials from most training sessions available for use by IU’s and Districts to train paraprofessionals in-house

- PPT slides
- PPT with notes for trainers
- Activity Packets

Supervision, Policies, Team Roles and Ethical Considerations
As School Leaders...

• Do we know what skills paraprofessionals need to be effective in supporting students?
• Do our schools or programs have the supports in place to ensure that paraprofessionals are able to be effective?
• More is needed than minimum Chapter 14 requirements
As School Leaders…

• Are we communicating to paraprofessionals the skills they need in order to support students?
• How do we tell if they have those skills?
• How are we monitoring whether the tasks that paraprofessionals are asked to do are appropriate for their position?
Administrator Review of Systems and Supports for Paraprofessionals

This tool has been designed to assist school administrators in identifying the systems, processes, and procedures that are in place to support and guide the work of paraprofessionals.

When and How We Use Paraprofessionals
IDEA 2004 allows for

“...paraprofessionals and assistants who are appropriately trained and supervised...to be used to assist in the provision of special education and related services to children with disabilities” (34 CFR 300.156.iii)
Who Decides When a Paraprofessional Is Needed?

• IEP Team Decision
• No specific regulatory guidance
• Paraprofessional should not be the ‘Go-To” support option
• Need to consider the array of potential Supplementary Aids and Services (SaS) that may meet a student’s needs

SaS: Collaborative Examples

• Professional development related to collaboration
• Scheduled time for co-planning and team meetings
• Co-teaching; classroom consultation
• Scheduled opportunities for parental collaboration
• Mentor teachers
SaS: Instructional Examples

• Using a keyboard/word prediction software
• Providing text-to-speech or other digital alternatives for accessing text
• Providing guided notes
• Using scaffolding to plan for written work
• Providing visual cues
• Modifying curricular goals
• Arrange furniture differently or provide specialized furniture
• Adjust sensory characteristics of environment (e.g., temperature, sound)
• Provide access to specific areas of classroom or other settings outside of classroom
• Allow for water bottle or sensory object during instruction
SaS: Social-Behavioral Examples

- Modify rules or expectations
- Use of peer supports
- Individualized behavioral support plan
- Social skills training
- Counseling supports
When Paraprofessional Support is Indicated…

• Support should be determined based on student needs not disability category
• Have a clear plan for when and how paraprofessional support is to be provided
• Ensure student’s main source of instruction is the teacher
• Have a plan to fade paraprofessional supports over time
When Paraprofessional Support is Indicated…

Be aware of unintended negative effects

– Over-dependence on the paraprofessional
– Separation from classmates
– Interference with peer interaction
– Feelings of stigmatization
– Interference with teacher engagement with the student
– Loss of personal control
– Problem behavior
– Risk of being bullied

The Golden Rule of Providing Support in Inclusive Classrooms: Support Others as You Would Wish to be Supported

Julie N. Causton-Theoharis
Consider for a moment that the school system paid someone to be with you – supporting you 8 hours a day, 5 days a week. Now, imagine that you had no say over who that support person was or how she or he supported you. Or imagine that someone regularly stopped into your place of employment to provide you with one-on-one support. This person was present for all your interactions, escorted you to the restroom, and at times supported you by touching your back or shoulder or manipulating your hands, head or other parts of your body. This support person might also give you oral directions for upcoming tasks.
• Would you become more independent or more dependent?

• How would this support change your relationships with your peers?

• Would you notice a loss of privacy or freedom?

• Would this person’s presence affect your creativity?

• At times, would you feel self-conscious about having someone supporting you?

• What would happen if you didn’t want him or her to touch you?

• Do you think you might develop negative behaviors?
Everyone reads the first page and the scenarios

As School Leaders…

Do we provide support to our paraprofessionals to ensure they have the skills and knowledge to:

• follow plans that are developed by the educational team (behavioral, instructional, etc.)?

• carry out instructional tasks, data recording, etc.?

• collaborate with educational team members?
As School Leaders…

Do we provide support to our paraprofessionals to ensure they have the skills and knowledge to:

• allow students to be as independent as possible?

• provide support, but fade support over time?

• use the types of cues and prompts that the specific student needs?

• support the use of special equipment, devices and communication systems?
Considerations

• How do we use paraprofessionals in our school?

• How does the school leadership promote use of paraprofessional supports throughout the school?

• What skills do general and special education teachers need to guide paraprofessionals in their classes?

• What skills do paraprofessionals need to support students in general education classes?
Considerations

• What are the similarities/differences in paraprofessional supports across educational placements?
  – Self-contained class, general education class, Career Technical Education setting, etc.

• Can a paraprofessional be used as a support to the entire classroom? What does that look like?
Summary

• Special Education Paraprofessionals can be an invaluable resource as part of the educational team.
• The role of paraprofessional in the classroom continues to evolve.
• School leaders can be proactive in ensuring structures that support student achievement through the effective use of paraprofessionals.
