

Getting Started Guide

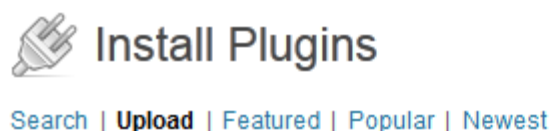

Installing The Plugin

To install the plugin, you can install it directly from you Admin dashboard. 😊

Hover your mouse to Plugins menu and select Add New.

After that, click the Upload link on the top, and upload the plugin.

Once the plugin uploaded, don't forget to activate it.

Now, lets go to the Plugin Setting page.

Please see the screenshot below:

Hover your mouse to Appearance menu, then click AzonDFW link.

You will arrive at the plugin setting page.

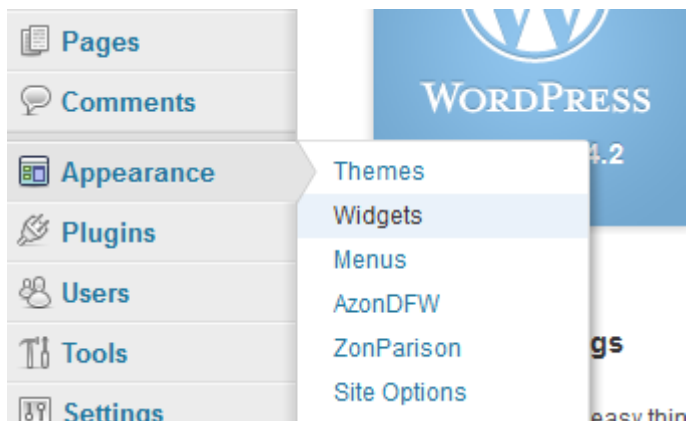

| | |
|--|-------------|
| Amazon Country Default Amazon country that you participated. | Amazon US |
| Amazon Tracking ID Insert your Amazon tracking ID. | seefnews-20 |
| Enter Keyword Field Width Customize the width of Enter Keyword Field. | 188px |
| Selection Field Width Customize the width of Selection Field. | 200px |
| Search Button Image Select according to your need. If you select Use Custom Button, paste your image URL below. | Dark Button |
| Save changes | |

You should change available options according to your need 😊

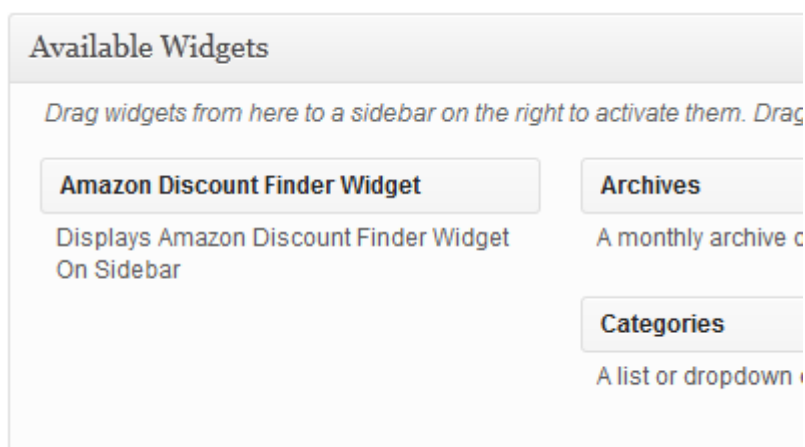

Example, insert your Amazon tracking ID. You can also change the width of the search form.

After you finish doing the setting, don't forget to click Save Changes.

Now, to display the Amazon Discount Finder Widget, you can visit the Widget link under Appearance menu.

Just Drag and Drop the Amazon Discount Finder widget to your Sidebar or Footer.

And that's it! Now your site already have Amazon Discount Finder widget! 😊

Inserting The Discount Finder Inside Your Post

You can insert the Discount Finder Widget inside your Post/Page by placing this shortcode anywhere inside the post editor : [zondfw]
