

## **Regulation Song: Full Transcript**

[01:00:00:00] - START

[01:00:05:00] - Intro Question - "Do you have to choose between being safe and being free?"

[01:00:10:00]

**INTRO**

Ever since they signed the constitution  
 We have been in need of a solution  
 What's the role our government should play?  
 We're arguing the same question today  
 Cause when I think the Man is helping me  
 Others think it looks like tyranny  
 Regulation Oh, regulation

[01:00:43:00]

**CHORUS 1**

It's there for Vaccination (tion)  
 Education (tion)  
 Immigration (tion)  
 Dairy pasteurization (tion)  
 Minimum wage and minimum age for buying libation (tion)  
 Seatbelt wearing, caring 'bout nature preservation (tion)  
 It's that regulation  
 Oh, rules & protections

[01:01:09:00]

**VERSE 1 (Marcus/Conservative)**

I pull myself up by the bootstraps every single day  
 So I don't need a nanny to make sure that I'm ok  
 The feds should not be swaying my choice of guns for playing  
 But if tapping phones stops terrorists let them hear what I am saying  
 I don't need labels telling me food's genetically modified  
 But if I'm in a public bathroom I only want other men inside  
 And down with all this porn that just degrades my marriage bed  
 But keep the feces out my beef so I can be well fed

[01:01:42:00]

**CHORUS 2**

More laws for fishing limits (its)  
 Concert tickets (its)  
 Ice cream temperatures and advertising gimmicks (icks)  
 Content and location of women's health clinics (ics)

Pumpkin vending, money lending and blended fabrics (ics)  
 It's that regulation  
 Oh, rules & protections

[01:02:07:00]

**VERSE 2 (Chauncey/Liberal)**

Pardon my injecting  
 But don't citizens need protecting  
 From themselves and other people?  
 The laissez faire should stop objecting!  
 We've got to have that tax on fossil fuels and ban trans fats  
 Cause scientists knows best about your health and that's a fact  
 Anyone should be able to fall in love and then get hitched  
 But exotic pet owners are a problem government should fix  
 We don't want no religion interfering with our schools  
 But the way these cops are running around it's clear they need more rules

[01:02:41:00]

**CHORUS 3**

It's that regulation  
 Oh, we need some protections

[01:02:50:00]

**OUTRO**

It's high time we have a conversation  
 On rules we're using for our preservation  
 Everyone believes their own position  
 Even with their many contradictions  
 The US with its mixed up population  
 Can't survive without some regulations  
 Lots of people shout till they turn blue  
 Let's all calm down and try to think it through

[01:03:32:00] - OUTRO CARD - *"THINK. SHARE. VOTE. WetheVOTERS.com"*

[01:03:42:00] - END
